PUBLIC NOTICE OF WATER USE REQUESTS
May 2, 2023

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Emergency Water Use (Drought) Applications (OAR 690-019-0040)**
Applications for emergency water use permits to use surface water or groundwater during a drought declared under ORS 536.740.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Establishment of Mitigation Credits in the Deschutes Basin pursuant to OAR Chapter 690, Division 521 (ORS 537.746)**
- * **Extension of Time Checkpoint Progress Reports filed pursuant to OAR 690-315**
Documents the progress made toward development of the water use project since approval of the last permit extension and/or the last progress report checkpoint. (OAR 690-315 pertains to permit extension applications filed on or after July 1, 2001.)
- * **Public Notice Surface Water Registration Amendments**
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.

- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.
- * **Transfer Applications: Temporary Transfers**
Requests to temporarily change place of use and, if necessary to convey the water to the new place of use, to temporarily change the point of diversion or appropriation.
- * **Transfer Applications: District Temporary - ORS 540.570**
Petitions requesting temporary changes in water use within a district's boundary for one irrigation season.
- * **Transfer Applications: Permit Amendments**
Requests to amend permits.
- * **Water Management and Conservation Plans**
Water management and conservation plans submitted by municipalities and agricultural water suppliers under provisions of OAR Chapter 690, Division 86.
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.
- * **HE 552 Notice of Intent to Reauthorize Minor Hydro**

The Public Notice is published each week on the Department's web site at www.oregon.gov/OWRD. If you would like to receive a *free* weekly notification when it is published, please send your request to Tonya.L.Miller@water.oregon.gov.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use. **The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, June 01, 2023.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying \$35 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, June 16, 2023.

The protest filing fee is \$480 for the applicants and \$950 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$270 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$680 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Emergency Water Use (Drought) Applications (OAR 690-019-0040)

When a drought is declared under ORS 536.740, the Director is authorized to issue emergency use permits to replace water not available under an existing right because of the drought. The Director shall approve an application for emergency water use upon findings that the proposed use will not cause injury to existing water rights and will not impair or be detrimental to the public interest. OAR 690-019-0040(3). In evaluating whether the proposed use will impair or be detrimental to the public interest, the Director shall consider the factors described in OAR 690-310-0120 and 690-310-0130; and

- a) The need for water because of the drought emergency; and
- b) The short-term nature of the proposed emergency use.

The following is a list of emergency water use permit applications recently filed, or which have recently received a final order, pursuant to OAR 690-019-0040. For any emergency use permits issued, the expiration date will not exceed the term of the Governor's declared drought or one year. The Director will consider all comments received concerning the use, or proposed use, under the emergency use permit throughout the life of the permit. OAR 690-019-0040(4)(b)

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **June 01, 2023**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the rediversion point(s).

Establishment of Mitigation Credits in the Deschutes Basin

ORS 537.746 authorizes the Department to award mitigation credits in the Deschutes Basin to approved mitigation projects. Mitigation credits may be used in the Deschutes Basin, specifically the Deschutes Ground Water Study Area, to mitigate for the impacts of ground water use on surface water flows. Pursuant to OAR Chapter 690, Division 521, upon receipt of notification of a mitigation project, the Department shall give public notice of the intent to establish mitigation credits.

The public is invited to comment on establishment of mitigation credits for the project(s) described below. Comments must be received within 21 days of the date of this public notice. Comments should address the award of mitigation credits to the proposed project and its use for mitigation purposes. Included in this public notice is a preliminary determination as to the amount of mitigation credits that may be available from the proposed project.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is May 23, 2023. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before June 01, 2023. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$950 protest fee for non-applicant and \$480.00 protest fee for applicant. Call (503) 986-0815 to obtain additional information. Protests must be received by the Department on or before June 01, 2023, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

[T-13950](#) filed by Oregon Water Utilities - Cline Butte Inc., Jorge Lopez, PE, 1325 N. Grand Ave, Suite 100, Covina, CA 91724-4044, proposes an additional point of appropriation under Certificate 96053. The right allows the use of 3.0 cubic feet per second (cfs) from four wells in Sects. 14, 15, and 16, T15S, R12E, WM for quasi-municipal use in Sects. 13, 14, 15, 22, 23, and 24, T15S, R12E, WM. The applicant proposes an additional point of appropriation in Sec. 16, T15S, R12E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

Transfer Applications: Temporary Transfer

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or enlarge the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.

Application for District Temporary Transfer

A district with a manager may request to temporarily change a water use within district boundaries for one irrigation season pursuant to ORS 540.570. District temporary transfers may include a change: (1) in place of use; (2) in type of use of a water right to store water; (3) in type of use from a primary right to a supplemental right; (4) in point of diversion/appropriation to facilitate a change in place of use; (5) in point of diversion in response to an emergency; and (6) from a surface water point of diversion to a ground water appropriation. A district may allow proposed changes to occur upon submission of an Application for District Temporary Water Right Transfer to the Department.

The Department shall approve the request provided it does not cause injury to any existing water right or expand the water use. A district temporary transfer may be conditioned or revoked at any time to avoid injury to other water rights. The use of water reverts to the prior authorized place of use, type of use, point of diversion/appropriation upon expiration of the temporary change.

The Department is requesting public comments on the recently filed district temporary transfer application(s) listed below. Comments may be submitted by any person (please follow the instructions on the last page of this public notice). The Department shall consider all comments that pertain to the potential for injury to an existing water right or to the enlargement of the water use subject to transfer in determining whether to condition, reject or revoke a temporary transfer. **Comments must be received by the Department on or before June 01, 2023.**

Water Management and Conservation Plans

The Department is required to give notice and to invite public review and comment on Water Management and Conservation Plans submitted pursuant to OAR Chapter 690, Division 086. The Department will consider all public comments in its review of the draft plan and will report the results of the review to the water supplier 90 days from the time the plan was submitted.

Any person may review and comment on a draft plan on or before June 01, 2023.

The plans may be viewed electronically at [WMCP Public Notice](#). Comments must cite specific provisions of concern in the draft plan, describe how each of the provisions cited do or do not satisfy the requirements of OAR Chapter 690, Division 086, suggest any modification in each provision that would be necessary to satisfy the relevant requirement, and include information to support any suggested modifications.

Plans have been submitted by the following agricultural and municipal water suppliers:

Wickiup Water District (Municipal)

To review any of the above plan(s) or to provide comments on the plan(s), contact Tamera Smith at 458-253-0597 or Tamera.L.Smith@water.oregon.gov.
