PUBLIC NOTICE OF WATER USE REQUESTS
May 9, 2023

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Emergency Water Use (Drought) Applications (OAR 690-019-0040)**
Applications for emergency water use permits to use surface water or groundwater during a drought declared under ORS 536.740.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

* **Certificate Issuance**

Included in this section is a listing of recently issued water right certificates.

The Public Notice is published each week on the Department's web site at www.oregon.gov/OWRD. If you would like to receive a **free** weekly notification when it is published, please send your request to Tonya.L.Miller@water.oregon.gov.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, June 08, 2023. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying \$35 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, June 23, 2023.

The protest filing fee is \$480 for the applicants and \$950 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$270 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$680 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **June 08, 2023**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the rediversion point(s).

Emergency Water Use (Drought) Applications (OAR 690-019-0040)

When a drought is declared under ORS 536.740, the Director is authorized to issue emergency use permits to replace water not available under an existing right because of the drought. The Director shall approve an application for emergency water use upon findings that the proposed use will not cause injury to existing water rights and will not impair or be detrimental to the public interest. OAR 690-019-0040(3). In evaluating whether the proposed use will impair or be detrimental to the public interest, the Director shall consider the factors described in OAR 690-310-0120 and 690-310-0130; and

- a) The need for water because of the drought emergency; and
- b) The short-term nature of the proposed emergency use.

The following is a list of emergency water use permit applications recently filed, or which have recently received a final order, pursuant to OAR 690-019-0040. For any emergency use permits issued, the expiration date will not exceed the term of the Governor's declared drought or one year. The Director will consider all comments received concerning the use, or proposed use, under the emergency use permit throughout the life of the permit. (OAR 690-019-0040(4)(b))

Proposed Final Orders Regarding Applications for Extensions of Time for Water Right Permits

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before June 23, 2023. There is no fee for submission of comments. The protest filing fee is \$480 for the applicant and \$950 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is May 30, 2023. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before June 08, 2023. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$950 protest fee for non-applicant and \$480.00 protest fee for applicant. Call (503) 986-0815 to obtain additional information. Protests must be received by the Department on or before June 08, 2023, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

[T-13937](#) filed by Von Derahe Orchards LLC, 56219 Marracci Rd., Warren, OR 97053, proposes a modification in point of appropriation under Registration Application GR-2808 (Certificate of Registration GR-2650). The registration allows the use of 250 gallons per minute from a well in Sec. 27, T6N, R35E, WM for irrigation in Sec. 27, T6N, R35E, WM. The applicant proposes to move the point of appropriation within Sec. 27, T6N, R35E, WM. The Water Resources Department proposes to approve the modification, based on the requirements of ORS Chapter 540 and OAR 690-382-1000.
