Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, July 20, 2023. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying \$35 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, August 04, 2023.

The protest filing fee is \$480 for the applicants and \$950 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$270 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$680 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Applications for Allocation of Conserved Water

The following applications for allocation of conserved water have been received pursuant to ORS 537.455 to 537.500 and OAR Chapter 690, Division 18. In reviewing the applications, the Department will consider whether the diversion for the uses allowed under the original water right will be reduced by the conservation project, whether existing water rights will be protected from injury, and whether the project is in compliance with local comprehensive land use plans.

Notice of Application for Allocation of Conserved Water CW-135

On April 27, 2023, Central Oregon Irrigation District (COID), 1055 SW Lake Court, Redmond, OR 97756, and North Unit Irrigation District (NUID), 2024 NW Beech Street, Madras, OR 97741, filed an application for Allocation of Conserved Water under ORS 537.470. Conserved water application CW-135 proposes to conserve approx. 5.0 CFS/1605.17 AF under Certificate 94956 (10/31/1900 and 12/2/1907 priority) from the Deschutes River. This phase of the conservation project proposes to replace approx. 3000 feet of open Central Oregon Canal with 132" diameter buried pipe. COID and NUID proposes to protect 100% of the conserved water instream. The project appears to be consistent with the requirements under ORS 537.470.

Any party may provide written comments directly related to CW-135 within 20 days of the last date of newspaper publication, being by 5:00 pm on **July 10, 2023**. Comments should be sent to ACW Program, Water Resources Department, 725 Summer Street NE, Suite A Salem, OR 97301-1266. Comments may be faxed to 503-986-0903. WRD will review all comments received when determining whether to approve the proposed ACW.

Establishment of Mitigation Credits in the Deschutes Basin

ORS 537.746 authorizes the Department to award mitigation credits in the Deschutes Basin to approved mitigation projects. Mitigation credits may be used in the Deschutes Basin, specifically the Deschutes Ground Water Study Area, to mitigate for the impacts of ground water use on surface water flows. Pursuant to OAR Chapter 690, Division 521, upon receipt of notification of a mitigation project, the Department shall give public notice of the intent to establish mitigation credits.

The public is invited to comment on establishment of mitigation credits for the project(s) described below. Comments must be received within 21 days of the date of this public notice. Comments should address the award of mitigation credits to the proposed project and its use for mitigation purposes. Included in this public notice is a preliminary determination as to the amount of mitigation credits that may be available from the proposed project.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

Transfer Applications: Temporary Transfer

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or enlarge the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.

Notice is given that the following applications for Temporary Transfers have been received by the Department:
