PUBLIC NOTICE OF WATER USE REQUESTS
October 24, 2023

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Water Management and Conservation Plans**
Water management and conservation plans submitted by municipalities and agricultural water suppliers under provisions of OAR Chapter 690, Division 86.
- * **Water Management and Conservation Plan Progress Reports**
Water management and conservation plan progress reports submitted by municipalities under provisions of OAR Chapter 690, Division 86.
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.
- * **HE 556 Proposed Final Order to Reauthorize Minor Hydroelectric Project**

- * **HE 552 Proposed Final Order to Reauthorize Minor Hydroelectric Project**
- * **Renewal of Aquifer Storage and Recovery (ASR) Limited Licenses**

The Public Notice is published each week on the Department's web site at www.oregon.gov/OWRD. If you would like to receive a **free** weekly notification when it is published, please send your request to Tonya.L.Miller@water.oregon.gov

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use. **The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, November 23, 2023.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying \$35 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, December 08, 2023.

The protest filing fee is \$480 for the applicants and \$950 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$270 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$680 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Proposed Final Orders Regarding Applications for Extensions of Time for Water Right Permits

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before December 08, 2023. There is no fee for submission of comments. The protest filing fee is \$480 for the applicant and \$950 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is November 14, 2023. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before November 23, 2023. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Water Management and Conservation Plans

The Department is required to give notice and to invite public review and comment on Water Management and Conservation Plans submitted pursuant to OAR Chapter 690, Division 086. The Department will consider all public comments in its review of the draft plan and will report the results of the review to the water supplier 90 days from the time the plan was submitted.

Any person may review and comment on a draft plan on or before November 23, 2023.

The plans may be viewed electronically at [WMCP Public Notice](#). Comments must cite specific provisions of concern in the draft plan, describe how each of the provisions cited do or do not satisfy the requirements of OAR Chapter 690, Division 086, suggest any modification in each provision that would be necessary to satisfy the relevant requirement, and include information to support any suggested modifications.

Plans have been submitted by the following agricultural and municipal water suppliers:

River Meadows Improvement District (Municipal)

To review any of the above plan(s) or to provide comments on the plan(s), contact Kerri Cope at 503-979-9544 or Kerri.H.Cope@water.oregon.gov or Tamera Smith at 458-253-0597 or Tamera.L.Smith@water.oregon.gov

Water Management and Conservation Plan Progress Reports

Pursuant to OAR 690-086-0120(4) and (5), the Department is required to give notice of progress reports on Water Management and Conservation Plans.

Any person may review and comment on these progress reports. The Department requests that comments be submitted no later than 30 days after the date of this notice.

Progress reports have been submitted by the following municipal supplier(s):

City of Dunes City (Municipal)

To review any of the above progress report(s) or to provide comments on the progress report(s), contact Kerri Cope at 503-979-9544 or Kerri.H.Cope@water.oregon.gov or Tamera Smith at 458-253-0597 or Tamera.L.Smith@water.oregon.gov

Renewal of Aquifer Storage and Recovery (ASR) Limited Licenses

ASR means the storage of water from a separate source that meets drinking water standards in a suitable aquifer for later recovery and not having as one of its primary purposes the restoration of the aquifer (ORS 537.531). The use of water for ASR testing purposes requires a limited license pursuant to ORS 537.534. The requirements and procedures of an ASR limited license are different than those for limited licenses pursuant to ORS 537.143. Only after completion of an ASR testing program under a limited license may an applicant apply for a permanent ASR permit. The appearance of a renewal request in the public notice commences a 30-day public comment period. Following the public comment period, the Department may request additional information regarding the renewal request, renew the limited license, renew the limited license with additional conditions, or deny the request.

An ASR Limited License may be renewed if the applicant demonstrates to the Director's satisfaction that further testing is necessary and that the applicant complied with the terms of the limited license. The standards, findings and process used in the license renewal process shall be as provided in OAR 690-350-0020. The Director may renew an ASR Limited License for a term of not more than 5 years.
