Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The applicant has asked the agency to proceed to the next stage of evaluation. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, May 13, 2010. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, May 28, 2010.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following Fridays: October 16, 2009; November 27, 2009; March 19, 2010; April 16, 2010; June 18, 2010; August 20, 2010; September 17, 2010; November 26, 2010; March 18, 2011; and May 20, 2011.

Emergency Water Use Permit Applications

Under OAR 690-19-040, after the Governor declares that a severe, continuing drought exists, the Director may accept applications for emergency use permits.

The Director shall approve an application for emergency water use upon findings that the proposed use will not cause injury to existing water rights and will not impair or be detrimental to the public interest. In evaluating whether the proposed use will impair or be detrimental to the public interest, the Director shall consider the factors described in OAR 690-310-0120 and 690-310-0130; and

- a) The need for water because of the drought emergency; and
- b) The short-term nature of the proposed emergency use.

An emergency use permit may be issued upon approval by the Director. No hearing under ORS 537.170 is required. The Director will consider all comments received concerning the use, or proposed use, under the emergency use permit throughout the life of the permit. Use of water under a emergency use permit may be regulated at any time in accordance with the terms and conditions of the permit. If use of water under a emergency use permit causes injury to an existing water right, the permit shall be revoked unless the injury is mitigated to the satisfaction of the injured water right holder. Any use of water under an emergency use permit shall not exceed the term of the Governor's declared drought or one year.

The law provides that within 60 days after the Department provides public notice of the application, any person may submit detailed, legally obtained information in writing, requesting the Department to deny the application for a permit on the basis that the reservoir:

- (A) Would result in injury to an existing water right; or
- (B) Would pose a significant detrimental impact to existing fishery resources as determined on the basis of information submitted by the State Department of Fish and Wildlife.

Such comments must be submitted on or before June 12, 2010.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after April 27, 2010, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

**Proposed Final Orders Regarding
Applications for Extensions of Time for Water Right Permits**

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate district watermaster office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before May 28, 2010. There is no fee for submission of comments. The protest filing fee is \$300 for the applicant and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is May 04, 2010. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant and \$300.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before May 13, 2010, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.
