

OREGON WATER RESOURCES DEPARTMENT

725 Summer Street NE Ste A
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS
August 31, 2010

*This notice is also available on our web page at the following address:
http://www1.wrd.state.or.us/cgi-bin/notices.pl?water_rights*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

- * **Transfer Applications: Drought Temporary Transfers**
Requests to temporarily change character of use, place of use or point of diversion during a drought declared under ORS 536.740.
- * **Transfer Applications: Permit Amendments**
Requests to amend permits.
- * **Aquifer Storage and Recovery (ASR) Limited Licenses**
Requests for use of water in an ASR testing program for 5 years or less. Licenses are subordinate to other rights if they are not based on use under an existing water right.
- * **Notice of Open Comment Period Public Hearing**
Swan Lake North Hydroelectric Project

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to "Jonnine.L.SKAUG@wrd.state.or.us".

Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The applicant has asked the agency to proceed to the next stage of evaluation. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, September 30, 2010. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, October 15, 2010.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following Fridays: October 16, 2009; November 27, 2009; March 19, 2010; April 16, 2010; June 18, 2010; August 20, 2010; September 17, 2010; November 26, 2010; March 18, 2011; and May 20, 2011.

How to Read the Listing

Applications on the next page are sorted by application number in the following format:

App#	Basin	Source	Township/Range	County	Priority	Quantity	Stage	Status
G-15693	DOE, JOHN PO BOX 123	EUGENE OR 97123	16.00S 03.00W 19 NESW	Lane	01/29/2002	0.3700 C	IR	3

Permit Application Final Orders

Following is a list of applications that have had final orders issued recently. If you would like a copy of any of the final orders, you may send a request with \$20.00 for each final order to the Water Rights Section, Oregon Water Resources Department, 725 Summer Street NE Ste A, Salem OR 97301. If you have any questions, please contact the Department's customer service staff by dialing 503-986-0801.

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **September 30, 2010**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the diversion point(s).

**Applications for Extensions of Time
to Perfect Water Right Permits filed pursuant to OAR 690-315**

Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until September 30, 2010. Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and \$20 (the charge required by law). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self copied. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person.

Extension file information is included in the following format:

- (a) Application Number;
- (b) Permit number;
- (c) Applicant name and address;
- (d) County of application;
- (e) Common name of water source(s) listed in the permit;
- (f) Amount of water use permitted in gallons per minute (gpm), cubic feet per second (cfs) or acre feet (af) of storage;
- (g) Use allowed in the permit;
- (h) Proposed extended date of completion as requested by the extension applicant;

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licenseses must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after September 14, 2010, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is September 21, 2010. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before September 30, 2010. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant and \$300.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before September 30, 2010, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-10987 filed by C G ENTERPRISES, LLC, proposes an additional point of diversion under Certificate 25550. The right allows the use of ONE-FORTIETH of one cubic foot per second per acre irrigated from April 1 to September 30; further limited to 1.0 acre-foot per acre per calendar month to July 1 and 3/4 acre-foot per acre thereafter; total 5.0 acre-feet per acre for each acre irrigated during the irrigation season of each year for IRRIGATION of 133.1 acres, LIVESTOCK and DOMESTIC (priority date 1867) from the JOHN DAY RIVER through the Tucker Ditch in Sec. 16, T 13 S, R 34 E, W.M. The applicant proposes an additional point of diversion approximately 1/2 mile downstream to: in Sec. 17, T 13 S, R 34 E, W.M. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-11077 filed by BROOKS CAPPS, P.O. BOX 2109, SISTERS, OR 97759, proposes a change in point of appropriation under Certificate 75982.

The right allows the use of 0.168 CUBIC FOOT PER SECOND (priority date MAY 16, 1991) from a well in Sec. 21, T 14 S, R 11 E, W.M. (Deschutes River Basin) for IRRIGATION in Sec. 21. The applicant proposes to move the point of appropriation approximately 50 feet northwesterly in Sec. 21, T 14 S, R 11 E, W.M.). The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Transfer Applications: Drought Temporary Transfer

During the effective time period of a drought declaration under ORS 536.740, the Commission or the Director may: (1) Allow a temporary transfer of a water right without complying with the notice and waiting requirements of ORS 540.520; (2) Allow a temporary exchange of water without giving notice as required under ORS 540.535; and (3) Use an expedited notice and waiting requirement for the substitution of a supplemental ground water right for a primary water right.

Notice is given that the following applications for Drought Temporary Transfers have been received by the Department. Consistent with the drought emergency, an order approving or denying the drought transfer will be issued as soon as the Department is able to process the application.

County:	KLAMATH
Transfer:	11124
Water Right:	CERT 80435

Aquifer Storage and Recovery (ASR) Limited Licenses

ASR means the storage of water from a separate source that meets drinking water standards in a suitable aquifer for later recovery and not having as one of its primary purposes the restoration of the aquifer (ORS 537.531). The use of water for ASR testing purposes requires a limited license pursuant to ORS 537.534. The requirements and procedures of an ASR limited license are different than those for limited licenses pursuant to ORS 537.143. Only after completion of an ASR testing program under a limited license may an applicant apply for a permanent ASR permit.

The appearance of the request in the public notice commences a 30-day public comment period for the application. Following the public comment period, the Department may request additional information from the applicant, issue the limited license with proper conditions, or deny the application.

WASHINGTON

ASR LL-17

Hillsboro School District
c/o Loren Rogers
3083 NE 49th Place
Hillsboro, OR 97124

A 5-year testing program

Diversion of 100 gpm from the Tualatin River, a tributary of the Willamette River, using authorization of Certificates 67891, 85913, 81026, and 81027 or from Sain Creek, a tributary of Scoggins Creek or Scoggins Creek, a tributary of the Tualatin River, using authorization of Certificates 81026 and 81027.

Storage of 30 million gallons in a basalt aquifer within the Columbia River Basalt Group
Maximum injection of 100 gpm into one well
Maximum withdrawal of 320 gpm from the same well
For municipal use (irrigation)

**Notice of Open Comment Period
Public Hearing
Swan Lake North Hydroelectric Project**

**August 31, 2010, 6:30 p.m.
Klamath County Government Center
305 Main Street; Klamath Falls, OR**

Comments on this application for preliminary permit for a new hydroelectric project are requested from interested citizens, organizations, governmental entities, and other parties. Comments are requested on whether the impacts of this project are such that they might be cumulative with other proposed or existing projects in the Klamath basin. Requests for additional studies related to project impacts may also be submitted.

The application and supporting documents may be viewed at the Water Resources Department, 725 Summer Street NE, Salem, Oregon 97301. The project is also filed with the Federal Energy Regulatory Commission (FERC) as docket p-13318

Comments may be submitted at the public hearing, or in writing to the Oregon Water Resources Department by September 15, 2010.

The Swan Lake North Hydro L.L.C. application for a preliminary permit for a major hydroelectric project in Klamath County.

Application #:	HE 592
Applicant:	Swan Lake North LLC
Address:	975 S State Highway, Logan, UT 84321
Amount of water:	15,922 cubic feet per second
Source of water:	Two existing permitted wells will be used for the initial fill of 13,965 acre-feet. 1,574 additional acre-feet will be needed annually for replacement due to evaporation.
Reservoir Location:	Sections 13, 14, 15, 22, 23 of Township 37 South, Range 10 East, W.M.
Purpose:	Hydroelectric power production.
Plant Capacity:	2,359,351 Theoretical Horsepower

PUBLIC NOTICE OF WATER USE REQUESTS
August 31, 2010

Use the back of this form to offer comments on water use requests or other items in this notice or to order copies of proposed final and final orders. You are welcome to submit comments on a separate sheet, but please be sure to include your name and address and reference the specific request or document that concerns you. Please mail your comments to the address listed above.

Your Name, Address, and Phone Number:

* We are required by law to charge a fee of \$20 to mail a copy of a proposed and final order on a pending water right application or permit extension to any interested person. Please include a check made out to the Oregon Water Resources Department in the amount of \$20 for each type of order you would like mailed to you. This fee entitles you to also receive a copy of the final order, when issued. (Copies of propose final order and final order are also available for viewing—at no charge—at our Salem office or at the local watermaster office.)
