## **Permit Application Initial Reviews and Proposed Final Orders**

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

### **Initial Review Stage (IR in the "Stage" column of the permit listing)**

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The applicant has asked the agency to proceed to the next stage of evaluation. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

**The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, February 03, 2011.** Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

### **Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)**

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

**The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, February 18, 2011.**

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following Fridays: October 16, 2009; November 27, 2009; March 19, 2010; April 16, 2010; June 18, 2010; August 20, 2010; September 17, 2010; November 26, 2010; March 18, 2011; and May 20, 2011.

## District Permanent Transfers (ORS 540.580)

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use. The final order approving the permanent transfer is subject to protest.

This public notice also includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

The Department seeks public comment on recently filed district transfer applications listed below. The deadline for comments or protests to the transfer application must be received by the Department on or before February 03, 2011. The Department will hold a contested case hearing if: 1) a protest and \$600 protest fee for non-applicant and \$300.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. (If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user.)
