

OREGON WATER RESOURCES DEPARTMENT

725 Summer Street NE Suite A
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS
January 14, 2025

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

* **Certificate Issuance**

Included in this section is a listing of recently issued water right certificates.

The Public Notice is published each week on the Department's web site at www.oregon.gov/OWRD. If you would like to receive a **free** weekly notification when it is published, please send your request to Tonya.L.Miller@water.oregon.gov.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, February 13, 2025. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying \$35 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, February 28, 2025.

The protest filing fee is \$480 for the applicants and \$950 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$270 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$680 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

**Applications for Extensions of Time
to Perfect Water Right Permits filed pursuant to OAR 690-315**

Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until February 13, 2025. Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and \$35 (the charge required by law). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self-copied. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person.

Applications for Limited Licenses

Application LL-1964 is being re-noticed to reflect changes made to the application.

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after January 28, 2025, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing "LL Application" under "Scanned Documents."

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is February 04, 2025. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before February 13, 2025. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$950 protest fee for non-applicant and \$480.00 protest fee for applicant. Call (503) 986-0815 to obtain additional information. Protests must be received by the Department on or before February 13, 2025, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

[T-14451](#) filed by Pine Ridge Associates, 18599 NE Archery Summit Road, Dundee, OR 97114, proposes a change in place of use under Certificate 91322. The right allows the use of 0.266 cubic foot per second from a well in Sec. 27, T3S, R3W, WM for irrigation in Sects. 22 and 27, T3S, R3W, WM. The applicant proposes change the place of use within Sects. 22 and 27, T3S, R3W, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

[T-14452](#) filed by Pine Ridge Associates, 18599 NE Archery Summit Road, Dundee, OR 97114, proposes a change in place of use under Certificate 91321. The right allows the use of 0.038 cubic foot per second from a well in Sec. 3, T4S, R3W, WM for irrigation in Sec. 34, T3S, R3W, WM; and Sec. 3, T4S, R3W, WM. The applicant proposes to change the place of use within Sec. 34, T3S, R3W, WM; and Sec. 3, T4S, R3W, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

[T-13911](#) filed by Willamette Valley Land LLC, c/o Paul Kuehne PO Box 99 Lafayette, OR 97127, proposes an additional point of diversion and changes in places of use under Certificates 11960, 20900, 24544, 43292, and 46454. Certificate 11960 allows the use of 0.33 cubic foot per second (cfs) from Crabtree Creek in Sec. 7, T11S, R1E, WM for irrigation in Sec. 7, T11S, R1E, WM and Sec 12, T11S R1W, WM. The applicant proposes an additional point of diversion in Sec. 1, T11S, R1W, WM and to change the place of use within Sec. 7 T11S, R1E, WM and Sec. 12, T11S, R1W, WM. Certificate 20900 allows the use of 0.25 cfs from Crabtree Creek in Sec. 1, T11S, R1W, WM for irrigation in Sec. 1 T11S, R1W, WM. The applicant proposes an additional point of diversion in Sec. 1, T11S, R1W, WM and to change the place of use to Sects. 1 and 12, T11S, R1W, WM. Certificate 24544 allows the use of 0.25 cfs from Crabtree Creek in Sec. 1, T11S, R1W, WM for irrigation in Sec. 12, T11S, R1W, WM. The applicant proposes an additional point of diversion in Sec. 1, T11S, R1W, WM and to change the place of use within Sec. 12, T11S, R1W, WM. Certificate 43292 allows the use of 0.41 cfs from Crabtree Creek in Sec. 7, T11S, R1E, WM for irrigation in Sec. 7, T11S, R1E, WM, and Sec. 12, T11S, R1W, WM. The applicant proposes an additional point of diversion in Sec. 1, T11S, R1W, WM and to change the place of use within Sec. 12, T11S, R1W, WM. Certificate 46456 allows the use of 0.32 cfs from Crabtree Creek in Sec. 1, T11S, R1W, WM for irrigation in Sec. 12, T11S, R1W, WM. The applicant proposes an additional point of appropriation in Sec. 1, T11S, R1W, WM, and to change the place of use within Sec. 12, T11S, R1W, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

[T-13880](#) filed by USDA Forest Service, Mt Hood National Forest, 16400 Champion Way, Sandy, OR 97055, proposes three additional points of appropriation under Certificate 89509. The right allows the use of 1.0 cubic foot per second from Well 1, Well 2 and Well 3 in Sec. 16, T3S, R8E, WM for quasi-municipal use in Sects. 11, 13, 14 and 24, T3S, R7E, WM and Sects. 17, 18, 19 and 20, T3S, R8E, WM. The applicant proposes three additional points of appropriation in Sec. 16, T3S, R8E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

[T-13406](#) filed by Russell Young, PO Box 171, Canyon City, OR 97820, proposes changes in points of diversion under Certificates 80557, 94172, and 94174, and changes in places of use under Certificates 44294, 65094, 80557, 94172, and 94173. Certificate 44294 allows the use of 1.428 cubic feet per second (cfs) from Mark Reeves Creek in Sec. 12, T13S, R27E, WM for irrigation in Sec. 12, T13S, R27E, WM. The applicant proposes to change the place of use within Sec. 12, T13S, R27E, WM. Certificate 65094 allows the use of 0.38 cfs from Marks Creek in Sec. 12, T13S, R27E, WM for irrigation in Sec. 12, T13S, R27E, WM. The applicant proposes to change the place of use within Sec. 12, T13S, R27E, WM. Certificate 80557 allows the use of 2.78 cfs from John Day River in Sec. 12, T13S, R27E, WM, and Sec. 18, T13S, R28E, WM for irrigation and supplemental irrigation in Sec. 12, T13S, R27E, WM. The applicant proposes to move the points of diversion to Sec. 12, T13S, R27E, WM and to change the place of use within Sec. 12, T13S, R27E, WM. Certificate 94172 allows the use of 1.31 cfs from John Day River in Sec. 12, T13S, R27E, WM for irrigation in Sec. 12, T13S, R27E, WM. The applicant proposes to move the point of diversion within Sec. 12, T13S, R27E, WM and to change the place of use within Sec. 12, T13S, R27E, WM. Certificate 94173 allows the use of 0.08 cfs from John Day River in Sec. 12, T13S, R27E, WM for irrigation in Sec. 12, T13S, R27E, WM. The applicant proposes to change the place of use within Sec. 12, T13S, R27E, WM. Certificate 94174 allows the use of 1.36 cfs from John Day River in Sec. 12, T13S, R27E, WM, and Sec. 18, T13S, R28E, WM for irrigation in Sec. 11, T13S, R27E, WM. The applicant proposes to move the point of diversion within Sec. 12, T13S, R27E, WM. The Water Resources Department proposes to approve the transfer, based on requirements of ORS Chapter 540 and OAR 690-380-5000. The applicant proposes to move the point of diversion for Certificate 94172 approximately 30 feet upstream on the John Day River in Sec. 12, T13S, R27E, WM. The Water Resources Department determined that the transfer would injure instream water right Certificate 59787. The Oregon Department of Fish and Wildlife (ODFW) concluded that the transfer would result in net benefits to the resource if conditioned as follows:

1. ODFW recommends the transfer applicant (permittee) comply with terms of the associated Mitigation Plan to minimize detrimental impacts to fish, wildlife, and/or their habitat. ODFW understands that the mitigation and following conditions will be fully incorporated into the requirements of the new certificate and may only be altered by written mutual agreement of all parties. ODFW recommends:
 - a. Regulation of the use and/or cancellation of the certificate if the required mitigation is not maintained.
2. This recommendation to consent to injury is contingent upon:
 - a. abandonment of POD 4 and POD 5, including any channel restoration necessary under OAR 635-412-0035(8).
 - b. Requirements for artificial obstruction removal are:
 - i. Artificial obstruction removals shall follow the requirements of OAR 635-412-0035(10);
 - ii. If not completely removed, no parts of the remaining artificial obstruction shall:
 1. Constrict the stream channel; or
 2. Cause low flow depths less than the surrounding stream channel.
 - iii. After an artificial obstruction is removed the stream channel shall be restored; and
 - iv. The stream channel restoration shall address impacts to stream habitat caused by the artificial obstruction while in place and by its removal, including but not limited to upstream and downstream channel degradation, and provisions shall be made to address unexpected fish passage issues resulting from removal.
3. The permittee shall install, maintain, and operate fish screening on the new point of diversion consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion. The required screen is to be in place and functional, and approved in writing by ODFW **prior to diversion** of water. The permittee is hereby directed to contact the ODFW Fish Screening Coordinator prior to diversion of water.

4. If the riparian area is disturbed in the process of *developing the new point of diversion*, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with the Oregon Department of Fish and Wildlife's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. Prior to development of the new point of diversion, the permittee shall submit, to the Oregon Water Resources Department, a Riparian Mitigation Plan approved in writing by ODFW unless ODFW provides documentation that riparian mitigation is not necessary. The permittee shall maintain the riparian area for the life of the permit and subsequent certificate per the approved Riparian Mitigation Plan. If ODFW determines the riparian area is not being maintained and is unsuccessful in working with the water user to fulfill the obligation, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the mitigation is sufficient. The permittee is hereby directed to contact the local ODFW Fish Biologist prior to development of the new point of diversion.
5. Construction must occur during the established in-water work period (July 15 - September 30) unless otherwise approved by ODFW.
6. Site-specific conditions: The permittee shall not construct, operate, or maintain any dam or artificial obstruction to fish passage without obtaining approval from the Oregon Department of Fish and Wildlife (ODFW). The permittee is hereby directed to contact an ODFW Fish Passage Coordinator prior to any modifications to the existing diversion structure. Any modification has the potential be a fish passage trigger and may require new fish passage approval.

Copies of the OWRD's Preliminary Determination proposing denial of the transfer and ODFW's recommendations are available for viewing at the Salem office of the Water Resources Department. Any person may review the recommendation and submit written comments or may submit a written request for a public meeting to review the recommendation. The comments or request for a meeting must be received by OWRD on or before _____ , 2025.

OWRD will provide copies of any comments submitted in response to this notice to ODFW. If a meeting is requested, OWRD will schedule a joint public meeting with ODFW to review the recommendation.

To review the recommendation, contact Dante Luongo at 971-304-5006 or e-mail dante.j.luongo@water.oregon.gov. Written comments and requests for a public meeting should be mailed to Attn: Dante Luongo, Water Resources Department, 725 Summer St NE, Suite A, Salem, OR 97301-1266 or faxed to 503-986-0901.

OREGON WATER RESOURCES DEPARTMENT

725 Summer Street NE Suite A
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS

January 14, 2025

Use this form to offer comments on water use requests or other items in this notice, or to order copies of proposed and final orders. You are welcome to submit comments on a separate sheet, but please be sure to include your name and address and reference the specific request or document that concerns you. Please mail your comments to the address listed above.

Alternatively, you may use our new Public Comment tool available on our website. Go to our website: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>, and enter identifying information about the application. On the Water Rights Information Query Results page, use the "Submit a Public Comment" link, or under 'View all Scanned Documents' use the "Submit a Public Comment" link.

Water Use Request Type & File Number

(e.g. "Permit Application G-12345" or "Transfer T-1234"):

Mail me the order

(payment enclosed)*

Your Name, Address, and Phone Number:

* We are required by law to charge a fee of \$35 to mail a copy of proposed and final orders on a pending permit or permit extension applications to any interested person. Please include a check made out to the Oregon Water Resources Department in the amount of \$35 for each type of order you would like mailed to you. This fee entitles you to also receive a copy of the final order, when issued. Copies of proposed and final orders are also available for viewing (at no charge) at our Salem office, at the local watermaster office, or online.
