PUBLIC NOTICE OF WATER USE REQUESTS
March 29, 2011

*This notice is also available on our web page at the following address:
http://www1.wrd.state.or.us/cgi-bin/notices.pl?water_rights*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

- * **Transfer Applications: Permit Amendments**
Requests to amend permits.

- * **Establishment of Mitigation Credits in the Deschutes Basin pursuant to OAR Chapter 690, Division 521 (ORS 537.746)**

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to "Jonnine.L.SKAUG@ wrd.state.or.us".

Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The applicant has asked the agency to proceed to the next stage of evaluation. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, April 28, 2011. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, May 13, 2011.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following Fridays: October 16, 2009; November 27, 2009; March 19, 2010; April 16, 2010; June 18, 2010; August 20, 2010; September 17, 2010; November 26, 2010; March 18, 2011; and May 20, 2011.

**Applications for Extensions of Time
to Perfect Water Right Permits filed pursuant to OAR 690-315**

Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until April 28, 2011. Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and \$20 (the charge required by law). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self copied. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person.

Extension file information is included in the following format:

- (a) Application Number;
- (b) Permit number;
- (c) Applicant name and address;
- (d) County of application;
- (e) Common name of water source(s) listed in the permit;
- (f) Amount of water use permitted in gallons per minute (gpm), cubic feet per second (cfs) or acre feet (af) of storage;
- (g) Use allowed in the permit;
- (h) Proposed extended date of completion as requested by the extension applicant;

**Proposed Final Orders Regarding
Applications for Extensions of Time for Water Right Permits**

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate district watermaster office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before May 13, 2011. There is no fee for submission of comments. The protest filing fee is \$300 for the applicant and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after April 12, 2011, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is April 19, 2011. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before April 28, 2011. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant and \$300.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before April 28, 2011, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-11183 filed by TERRY AND RUTH MOORE, 9491 NW 12TH STREET, TERREBONNE, OR 97760, proposes a change in place of use under Certificate 66864. The right allows the use of 0.04 CUBIC FOOT PER SECOND (priority date FEBRUARY 19, 1980) from a well in Sec. 16, T 14S, R 13E, W.M. (Deschutes Basin) for IRRIGATION in Sec. 16. The applicant proposes to change the place of use within the same tax lot in Sec. 16, T 14S, R13E, W.M. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Transfer Applications: Permit Amendments

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU) pursuant to ORS 537.211 (4).

Notice is given that the following applications for Permit Amendments have been received by the Department. If the proposed change in point of diversion or appropriation is for a distance greater than 1/4 mile or includes intervening diversion points, notice also will be published in a local newspaper.

Establishment of Mitigation Credits in the Deschutes Basin

ORS 537.746 authorizes the Department to award mitigation credits in the Deschutes Basin to approved mitigation projects. Mitigation credits may be used in the Deschutes Basin, specifically the Deschutes Ground Water Study Area, to mitigate for the impacts of ground water use on surface water flows. Pursuant to OAR Chapter 690, Division 521, upon receipt of notification of a mitigation project, the Department shall give public notice of the intent to establish mitigation credits.

The public is invited to comment on establishment of mitigation credits for the project(s) described below. Comments must be received within 21 days of the date of this public notice. Comments should address the award of mitigation credits to the proposed project and its use for mitigation purposes. Included in this public notice is a preliminary determination as to the amount of mitigation credits that may be available from the proposed project.
