Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The applicant has asked the agency to proceed to the next stage of evaluation. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, October 20, 2011. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, November 04, 2011.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following Fridays: October 16, 2009; November 27, 2009; March 19, 2010; April 16, 2010; June 18, 2010; August 20, 2010; September 17, 2010; November 26, 2010; March 18, 2011; and May 20, 2011.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant and \$300.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before October 20, 2011, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-11096 filed by ANDREW SANDLER, 1812 10TH AVENUE E, SEATTLE, WA 98102, proposes an additional point of appropriation under Certificate 26533. The right allows the use of 0.11 cubic foot per second (priority date OCTOBER 23, 1950) from a well in Sec. 33, T 6 N, R 35 E, W.M. (Dugger Creek Basin) for SUPPLEMENTAL IRRIGATION in Sec. 33. The applicant proposes an additional point of appropriation approximately 200 feet south in Sec. 33, T 6 N, R 35 E, W.M.). The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-11233 filed by Witt and Willow, LLC, 658 Shale City Rd, Ashland, OR 97520, proposes a change in place of use and a change in character of use under Certificate 76626. The right allows the use of 0.025 cubic foot per second (priority date June 4, 1948) from a Spring in Sec. 10, T 38 S, R 2 E, W.M. for stock use and a fish pond within Sec. 10. The applicant proposes to change the place of use within Sec. 10 and to change the character of use to commercial use for a campground. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

District Permanent Transfers (ORS 540.580)

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use. The final order approving the permanent transfer is subject to protest.

This public notice also includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

The Department seeks public comment on recently filed district transfer applications listed below. The deadline for comments or protests to the transfer application must be received by the Department on or before October 20, 2011. The Department will hold a contested case hearing if: 1) a protest and \$600 protest fee for non-applicant and \$300.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. (If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user.)
