BACKGROUND:

HB 2135, enacted into law by the Oregon Legislature in 2011, reduced the number of weeks that public notice is required to be published in newspapers by the department and/or applicants and petitioners to the department prior to the initiation of certain actions by the department. This rulemaking reflects proposed changes to rule relative to specific statutory changes made in HB 2135 and one proposed change (OAR 690-053-0015) consistent with the intent of HB 2135. The department views implementation of this

legislative authorization as a cost-saving and regulatory streamlining measure. Documents relied upon include:

HB 2135 – available for review via the internet at: http://www.leg.state.or.us/bills_laws/

OAR Chapter 690, Divisions 013, 310, 380, and 382 – available for review via the internet at: <http://www.wrd.state.or.us/OWRD/LAW/oar.shtml>

POSSIBLE FISCAL IMPACTS OF THE PROPOSED RULES:

The Department anticipates that the proposed rules, if adopted, will have a positive fiscal and economic impact on persons conducting business with the department that involves required newspaper notice (s). Also, the department anticipates that the proposed rules, if adopted, will have a minor negative impact on certain newspaper revenues as a result of the reduced newspaper notice requirement.

THE REVIEW PROCESS:

Please present your comments by speaking at the public hearing listed above, or by sending your written comments by mail, email, or fax to the Water Resources Department at the address listed above. Written comments must be received no later than 5:00 PM, Monday, October 31, 2011. It will be your responsibility to verify that faxed or emailed comments are received.

The Water Resources Commission is likely to consider these proposed rules at its meeting in January 2012. The Water Resources Commission may choose to receive additional oral public comment and written testimony on the proposed rules as part of an agenda item at any future Commission meeting. Written testimony presented to the Commission after the public comment period has closed will be limited to specific language suggestions related to changes made by the Department from the public hearing draft rules to the final proposed rules.
