Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The applicant has asked the agency to proceed to the next stage of evaluation. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, December 01, 2011. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, December 16, 2011.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following Fridays: October 16, 2009; November 27, 2009; March 19, 2010; April 16, 2010; June 18, 2010; August 20, 2010; September 17, 2010; November 26, 2010; March 18, 2011; and May 20, 2011.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant and \$300.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before December 01, 2011, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-11247 filed by PATRICIA SUE ELMENHURST TRUST, PO BOX 1040, MILTON-FREEWATER, OR 97862, proposes to modify the point of appropriation under Registration Application GR-3575 (Certificate of Registration GR-GR 3508). The ground water registration claims the use of 0.07 CUBIC FOOT PER SECOND (tentative priority date FEBRUARY 28, 1915) from a well in Sec. 25, T 6 N, R 35 E, W.M. (Walla Walla River Basin) for IRRIGATION in Sec. 25. The applicant proposes to modify the location of the original point of appropriation approximately 700 feet northeast within Sec. 25. The Water Resources Department has concluded that the proposed modification appears to be consistent with the requirements of ORS Chapter 537, ORS Chapter 540 and OAR 690-382-1000.

T-10688 filed by OREGON BERRY PACKING COMPANY c/o Roy Malensky, PO Box 1326, Hillsboro, OR 97123 proposes a change in point of diversion and a change in place of use under Certificate 14092. The right allows the use of 0.30 cubic foot per second (priority date Dec. 29, 1928) from the Tualatin River in Sec. 36, T 1 S, R 4 W, W.M. for irrigation in Sec. 36, T 1 S, R 4 W, W.M. and Sec. 1, T 2 S, R 4 W, W.M. The applicant proposes to move the point of diversion approximately 10.3 miles downstream to Sec. 18, T 1 S, R

2 W, W.M. and to change the place of use to Sec. 18, T 1 S, R 2 W, W.M.

T-10688 also proposes a change in point of diversion and a change in place of use under Determination of Satisfactory Proof for Permit S-35792 (Sp. Order Vol. 67, Pgs. 627-662). The right allows the use of 0.21 cubic foot per second (priority date Feb. 20, 1963) from the Tualatin River in Sec. 36, T 1 S, R 4 W, W.M. for supplemental irrigation in Sec. 36, T 1 S, R 4 W, W.M. and Sec. 1, T 2 S, R 4 W, W.M. The applicant proposes to move the point of diversion 10.45 miles downstream to Sec. 18, T 1 S, R 2 W, W.M. and to change the place of use to Sec. 18, T 1 S, R 2 W, W.M.
