

OREGON WATER RESOURCES DEPARTMENT

725 Summer Street NE Ste A
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS
March 20, 2012

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Applications for Allocation Of Conserved Water**
Applications made by a water user who conserves water to use a portion of the conserved water on additional lands, lease or sell the water, or dedicate the water to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.
- * **Transfer Applications: Temporary Transfers**
Requests to temporarily change place of use and, if necessary to convey the water to the new place of use, to temporarily change the point of diversion or appropriation.
- * **District Permanent Transfers (ORS 540.580)**
Petitions requesting transfers in place of use within a district's boundaries.
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to "Kim.R.French-Gorski@wrd.state.or.us".

Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The applicant has asked the agency to proceed to the next stage of evaluation. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, April 19, 2012. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, May 04, 2012.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following days: March 23, 2012, May 25, 2012, August 17, 2012, October 19, 2012, November 23, 2012, January 18, 2013, April 19, 2013 and May 24, 2013.

How to Read the Listing

Applications on the next page are sorted by application number in the following format:

App#	Basin	Source	Township/Range	County	Priority	Quantity	Stage	Status
G-15693	DOE, JOHN PO BOX 123	EUGENE OR 97123	16.00S 03.00W 19	NESW Lane	01/29/2002	0.3700 C	IR	3
	02	A WELL > SPRING CR						
	Uses: IR							

FIRST LINE:

- * Application number:
 - G: groundwater
 - R: reservoir
 - S: surface water
 - I: instream
- * Applicant name & address
- * Stage of review:
 - IR: Initial Review
 - PFO: Proposed Final Order
- * Decision status codes
 - 1: permit may be issued as requested
 - 2: permit may be issued with conditions
 - 3: permit unlikely to be issued

SECOND LINE:

- * Basin number (see map below right)
- * Source > what it flows into
 - (in the case of wells, this describes the basin in which the well is located)
- * General legal description
- * County & Priority date
- * Amount
- * Unit of measure:
 - C: cubic feet per second
 - G: gallons per minute
 - A: acre-feet

THIRD LINE:

- * Type of use (see abbreviations below)

BASINS:	
1. North Coast	11. Owyhee
2. Willamette	12. Malheur L.
3. Sandy	13. Goose/Summer L.
4. Hood	14. Klamath

Permit Application Final Orders

Following is a list of applications that have had final orders issued recently. If you would like a copy of any of the final orders, you may send a request with \$20.00 for each final order to the Water Rights Section, Oregon Water Resources Department, 725 Summer Street NE Ste A, Salem OR 97301. If you have any questions, please contact the Department's customer service staff by dialing 503-986-0801.

Application	Basin	County	Priority	Company	Name	FO Date

ADDENDUM TO THE MARCH 13, 2012, PUBLIC NOTICE OF WATER USE REQUESTS

R-87376	2	CLAC	01/15/2009		DAVE OBRIST	03/20/2012
-------------------------	---	------	------------	--	-------------	------------

The Oregon Water Resources Department's March 13, 2012 Public Notice of Water Use Requests prematurely published the Final Order (FO) for Application R-87376. We are herein re-noticing Application R-87376 with the correct FO date.

Applications for Allocation Of Conserved Water

The following applications for allocation of conserved water have been received pursuant to ORS 537.455 to 537.500 and OAR Chapter 690, Division 18. In reviewing the applications, the Department will consider whether the diversion for the uses allowed under the original water right will be reduced by the conservation project, whether existing water rights will be protected from injury, and whether the project is in compliance with local comprehensive land use plans.

Notice of Application for Allocation of Conserved Water CW-70

On August 11, 2011, Gregory J. Mohnen in conjunction with the Deschutes River Conservancy (DRC) and with the consent of Three Sisters Irrigation District (TSID) filed an Application for Allocation of Conserved Water under ORS 537.470.

The Department designated the application as CW-70. The Applicants propose to conserve water by replacing approximately 6,450 feet of the TSID Hurtley Lateral water conveyance system with, high density polyethylene (HDPE) pipe. Replacement of the existing, inefficient, damaged and leaky portions of the delivery system will completely eliminate water losses through this irrigation delivery system.

The Hurtley Lateral serves approximately 102 acres, of which 4.0 acres will be involved in this project. The project is expected to yield approximately 0.02 cfs of conserved water from Whychus Creek under Water Right Certificate 74135 with a priority date of 1895. It is proposed that 100% of the conserved water will be protected instream from the POD on Whychus Creek (at approximately River Mile 23.5) to the mouth of Whychus Creek and on to the Deschutes River to River Mile 120 on the Deschutes River (near Lake Billy Chinook).

Any interested person may comment in writing on CW-70. Comments must be received by May 23, 2011 or within 20 days of the last date of publication in the newspaper, whichever is later. Comments should be sent to Kody Thurgood, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301-1266. Comments may be faxed to 503-986-0903. The Department will review all comments received when determining whether to approve the proposed allocation of conserved water.

A copy of the application and other information on the allocation and use of conserved water may be obtained from the Department by contacting Kody Thurgood at 503-986-0892 or Kody.J.Thurgood@wrd.state.or.us.

Notice of Application for Allocation of Conserved Water CW-71

On January 12, 2012, Landowners of the Uncle John Ditch, with the consent of the Three Sisters Irrigation District (TSID), filed an Application for Allocation of Conserved Water under ORS 537.470. The Department designated the application as CW-71. The Applicants propose to conserve water by piping 3.8 miles of Uncle John Ditch which would eliminate loss due to seepage.

The project is expected to yield approximately 2.5 cfs of conserved water from the Uncle John Ditch on Whychus Creek (approx RM 23.75) under Water Right Certificates 86824, 83856, 83355, 85389, 85391, 86828, 86826, 85386, 85393, 85387, 85388 as well as T-10910, T-10900 and T-8900 with priority dates of 1880, 1886, 1895, 1900, 1908, and 1912. It is proposed that 100% of the conserved water will go instream from TSID's POD on Whychus Creek to the mouth of Whychus Creek into the Deschutes River to Lake Billy Chinook (RM 120).

Any interested person may comment in writing on CW-71. Comments must be received by April 9, 2012 or within 20 days of the last date of publication in the newspaper, whichever is later. Comments should be sent to Kody Thurgood, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301-1266. Comments may be faxed to 503-986-0903. The Department will review all comments received when determining whether to approve the proposed allocation of conserved water.

A copy of the application and other information on the allocation and use of conserved water may be obtained from the Department by contacting Kody Thurgood at 503-986-0892 or Kody.J.Thurgood@wrd.state.or.us.

**Notice of Application for
Allocation of Conserved Water
CW-72**

On March 12, 2012, Lon G. Wadekamper, LGW Ranch, filed an Application for Allocation of Conserved Water under ORS 537.470. The Department designated the application as CW-72. The Applicant proposes to conserve water by upgrading their existing 15 gpm/ac Center Pivot sprinklers to 7.5 gpm/ac sprinklers. The project is expected to yield approximately 307 acre feet per acre conserved water from an Unnamed Stream tributary to the Umatilla River under Water Right Certificate 83856 with a priority date of June 25, 1981. It is proposed that 25% of the conserved water will go instream from a pipe directly into the Umatilla River (at approximately River Mile 4).

Any interested person may comment in writing on CW-72. Comments must be received by April 9, 2012 or within 20 days of the last date of publication in the newspaper, whichever is later. Comments should be sent to Kody Thurgood, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301-1266. Comments may be faxed to 503-986-0903. The Department will review all comments received when determining whether to approve the proposed allocation of conserved water.

A copy of the application and other information on the allocation and use of conserved water may be obtained from the Department by contacting Kody Thurgood at 503-986-0892 or Kody.J.Thurgood@wrd.state.or.us.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licenseses must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after April 03, 2012, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before April 19, 2012. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Change: POINT OF DIVERSION
Source: PRONG CLEAR CREEK

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant and \$300.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before April 19, 2012, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-11278, filed by Monte and Jan Wasson, 6088 Eightmile Rd, The Dalles, OR 97058, proposes an additional point of appropriation under Certificate 56174. The right allows the use of 0.44 cubic foot per second from a well in Sec. 15, T 1 S, R 13 E, W.M. The applicant proposes an additional point of appropriation in Sec. 15. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-11272 filed by James R. and Phyllis A. Olson, 80840 Dufur Valley Rd, Dufur, OR 97021-3107, proposes a change in place of use and a change in character of use under Certificates 46843, 62741, 62742, 62743, 63794, 63795, and 63796. Certificate 46843 allows the use of up to 0.27 Cubic Foot per Second (CFS) (priority date 1875). Certificate 62741 allows the use of up to 0.57 CFS (priority date 1875). Certificate 62742 allows the use of up to 0.08 CFS (priority date May 24, 1919). Certificate 62743 allows the use of up to 0.33 CFS (priority date November 17, 1921). Certificate 62794 allows the use of up to 0.08 CFS (priority date 1875). Certificate 63795 allows the use of up to 0.06 CFS (priority date August 19, 1918). Certificate 63796 allows the use of up to 0.03 CFS (priority date May 5, 1926). All Certificates divert water from Fifteenmile Creek in Sec 1, T2S, R12E, W.M. for Irrigation in Sec. 1. The applicant proposes to change the place of use and character of use to create an instream use from each of the points of diversion to the mouth of Fifteenmile Creek. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540, OAR 690-380-5000, and OAR 690-077-.

Transfer Applications: Temporary Transfer

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or expand the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.

Notice is given that the following applications for Temporary Transfers have been received by the Department:

County: LAKE
Transfer: 11371

District Permanent Transfers (ORS 540.580)

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use. The final order approving the permanent transfer is subject to protest.

This public notice also includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

The Department seeks public comment on recently filed district transfer applications listed below. The deadline for comments or protests to the transfer application must be received by the Department on or before April 19, 2012. The Department will hold a contested case hearing if: 1) a protest and \$600 protest fee for non-applicant and \$300.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. (If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user.)

Certificate Issuance

Following is a list of certificates that have been recently issued. If you are viewing this electronically then you should be able to view the certificate by clicking on the underlined blue text. Appeal rights are provided on each certificate document.

If under the file number the "App:" abbreviation for application is provided then any person owning an application, permit or water right certificate subsequent in priority to a certificate listed here may file a protest within three months of issuance of the certificate. See Oregon Revised Statutes 537.260. Rules governing protests are in Oregon Administrative Rules Chapter 690 division 002. Any protest must be accompanied by a protest fee of \$600. (ORS 536.050(1)(j)(A)).

PUBLIC NOTICE OF WATER USE REQUESTS
March 20, 2012

Use the back of this form to offer comments on water use requests or other items in this notice or to order copies of proposed final and final orders. You are welcome to submit comments on a separate sheet, but please be sure to include your name and address and reference the specific request or document that concerns you. Please mail your comments to the address listed above.

Water Use Request Type & File Number
(e.g. "Permit Application G-12345" or "Transfer T-1234"):

Mail me the order
(payment enclosed)*

Your Name, Address, and Phone Number:

* We are required by law to charge a fee of \$20 to mail a copy of a proposed and final order on a pending water right application or permit extension to any interested person. Please include a check made out to the Oregon Water Resources Department in the amount of \$20 for each type of order you would like mailed to you. This fee entitles you to also receive a copy of the final order, when issued. (Copies of propose final order and final order are also available for viewing—at no charge—at our Salem office or at the local watermaster office.)
