

OREGON WATER RESOURCES DEPARTMENT

725 Summer Street NE Ste A
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS
May 29, 2012

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Alternate Reservoir Applications (ORS 537.409)**
Applications for storage permits for small ponds filed under a simplified review process.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Temporary Transfers**
Requests to temporarily change place of use and, if necessary to convey the water to the new place of use, to temporarily change the point of diversion or appropriation.
- * **District Permanent Transfers (ORS 540.580)**
Petitions requesting transfers in place of use within a district's boundaries.
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.
- * **Public Notice of summary of applications to the Water Conservation, Re-use and Storage Grant Program**
The Water Conservation, Re-use and Storage Grant Program, established by Senate Bill 1069 (2008), is designed to fund the qualifying costs of planning studies, up to \$500,000 per project, that evaluate the feasibility of developing water conservation, re-use or storage projects. The 2011 Legislature has approved continuation of this grant program for the 2011-13 biennium.

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to "Codi.N.Holmes@wrd.state.or.us".

How to Read the Listing

Applications on the next page are sorted by application number in the following format:

App#	Basin	Source	Township/Range	County	Priority	Quantity	Stage	Status
G-15693	DOE, JOHN PO BOX 123	EUGENE OR 97123	16.00S 03.00W 19	NESW Lane	01/29/2002	0.3700 C	IR	3
	02	A WELL > SPRING CR						
	Uses: IR							

FIRST LINE:

- * Application number:
 - G: groundwater
 - R: reservoir
 - S: surface water
 - I: instream
- * Applicant name & address
- * Stage of review:
 - IR: Initial Review
 - PFO: Proposed Final Order
- * Decision status codes
 - 1: permit may be issued as requested
 - 2: permit may be issued with conditions
 - 3: permit unlikely to be issued

SECOND LINE:

- * Basin number (see map below right)
- * Source > what it flows into
(in the case of wells, this describes the basin in which the well is located)
- * General legal description
- * County & Priority date
- * Amount
- * Unit of measure:
 - C: cubic feet per second
 - G: gallons per minute
 - A: acre-feet

THIRD LINE:

- * Type of use (see abbreviations below)

BASINS:	
1. North Coast	11. Owyhee
2. Willamette	12. Malheur L.
3. Sandy	13. Goose/Summer L.
4. Hood	14. Klamath
5. Deschutes	15. Rogue
6. John Day	16. Umpqua
7. Umatilla	17. S. Coast
8. Grande Ronde	18. Mid-Coast
9. Powder	19. Columbia
10. Malheur	20. Snake

- AG: Agriculture
- CF,CH,CL, CR: Cranberry uses
- CM: Commercial
- CS: Campground
- DI, DN: Domestic including non-commercial lawn & garden
- DO: Domestic
- DS: Domestic & stock
- FI: Fish
- FP: Fire protection
- FW: Fish & wildlife
- GD: Group domestic

Administrative Rules 690-300):

- GR: Groundwater recharge
- GT: Geothermal
- IC: Irrigation, primary & supplemental
- ID: Irrigation with domestic
- IL: Irrigation with livestock
- IM: Industrial or manufacturing
- IR: Irrigation
- IS: Irrigation, supplemental
- LV: Livestock
- LW: Livestock & wildlife
- MI: Mining
- MU: Municipal
- NU: Nursery use
- PA: Pollution abatement
- PW: Power
- QM: Quasi-municipal
- RC: Recreation
- RW: Road construction
- ST: Storage
- SW: Swimming
- TC: Temperature control
- WI: Wildlife

Alternate Reservoir Applications (ORS 537.409)

For alternate reservoir applications filed under ORS 537.409, the public is invited to comment within 60 days of this notice. The law provides that within 60 days after the Department provides public notice of the application, any person may submit detailed, legally obtained information in writing, requesting the Department to deny the application for a permit on the basis that the reservoir:

- (A) Would result in injury to an existing water right; or
- (B) Would pose a significant detrimental impact to existing fishery resources as determined on the basis of information submitted by the State Department of Fish and Wildlife.

Such comments must be submitted on or before July 28, 2012.

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **June 28, 2012**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the redirection point(s).

**Applications for Extensions of Time
to Perfect Water Right Permits filed pursuant to OAR 690-315**

Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until June 28, 2012. Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and \$20 (the charge required by law). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self-copied. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person.

Extension file information is included in the following format:

- (a) Application Number;
- (b) Permit number;
- (c) Applicant name and address;
- (d) County of application;
- (e) Common name of water source(s) listed in the permit;
- (f) Amount of water use permitted in gallons per minute (gpm), cubic feet per second (cfs) or acre feet (af) of storage;
- (g) Use allowed in the permit;
- (h) Proposed extended date of completion as requested by the extension applicant;

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licenseses must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after June 12, 2012, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is June 19, 2012. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department.

Transfer Applications: Temporary Transfer

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or expand the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.

Notice is given that the following applications for Temporary Transfers have been received by the Department:

County:	CROOK, JEFFERSON
Transfer:	11424
Water Right:	CERT 72197
Priority Date:	OCTOBER 31, 1900
Name:	CHARLES HEGELE 7950 N. LONE PINE ROAD TERREBONNE, OR 97760
Change:	PLACE OF USE
Source:	DESCHUTES RIVER

District Permanent Transfers (ORS 540.580)

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use. The final order approving the permanent transfer is subject to protest.

This public notice also includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

The Department seeks public comment on recently filed district transfer applications listed below. The deadline for comments or protests to the transfer application must be received by the Department on or before June 28, 2012. The Department will hold a contested case hearing if: 1) a protest and \$600 protest fee for non-applicant and \$300.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. (If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user.)

Certificate Issuance

Following is a list of certificates that have been recently issued. If you are viewing this electronically then you should be able to view the certificate by clicking on the underlined blue text. Appeal rights are provided on each certificate document.

If under the file number the “App:” abbreviation for application is provided then any person owning an application, permit or water right certificate subsequent in priority to a certificate listed here may file a protest within three months of issuance of the certificate. See Oregon Revised Statutes 537.260. Rules governing protests are in Oregon Administrative Rules Chapter 690 division 002. Any protest must be accompanied by a protest fee of \$600. (ORS 536.050(1)(j)(A)).

Public Notice of summary of applications to the Water Conservation, Re-use and Storage Grant Program

The Water Conservation, Re-use and Storage Grant Program, established by Senate Bill 1069 (2008), is designed to fund the qualifying costs of planning studies, up to \$500,000 per project, that evaluate the feasibility of developing water conservation, re-use or storage projects. The 2011 Legislature has approved continuation of this grant program for the 2011-13 biennium.

The Oregon Water Resources Commission authorized the department to seek applications from current applicants for a revised proposal. This is a publication under OAR 690-600-0060(1) of a summary of those applications. The full applications and recommendations of the Application Review Team are anticipated to be available in mid to late June. At that point there will be a public notice and opportunity to comment. If you have questions please contact Bill Fujii at 503 986 0887 or email at William.h.fujii@ wrd.state.or.us

Summary Tier Two Applications
<p><i>City of Corvallis – Reuse \$ 40,000</i> <i>The City is in the process of developing a plan for complying with the requirements of the Willamette River Total Maximum Daily Loads (TMDLs) for temperature and other pollutants. After completing a TMDL Alternatives Evaluation, undertaking an extensive citizen involvement process, and performing a Due Diligence Feasibility Study, the City selected an Alternative (the "East TMDL Alternative") for implementation. This Alternative involves reuse of up to 1 million gallons per day of Class A treated wastewater from the City's Wastewater Reclamation Plant (WWRP) for irrigation of Trysting Tree Golf Course (TTGC). TTGC currently uses groundwater for irrigation of the golf course grounds. The City will be proceeding with a Detailed Feasibility Study of the East TMDL Alternative, part of which is to verify the requirements and costs associated with the delivery of Class "A" recycled water to Trysting Tree Golf Course.</i></p>
<p><i>Eugene/Springfield Metropolitan Wastewater Management Commission – Reuse \$49,500</i> <i>The (MWMC) will study the feasibility of expanding recycled water use to neighboring industrial aggregate partners in lieu of river and groundwater sources. The potential demand is over 3 million gallons per day and could be the first recycled water use in Eugene/Springfield outside of MWMC 's facilities. This use could potentially provide more efficient use of water resources, benefits to river temperature and habitat, and enhance green business practices. The proposed study includes analytical water balance modeling, engineering design scoping, water quality evaluations, water rights issues assessment, stakeholder acceptability, and triple-bottom-line cost/benefit analysis. Potential industrial applications for recycled water include gravel washing, concrete and asphalt production, equipment rinsing, and dust control. These applications could demonstrate safe and effective recycled water use to the greater community, potentially expanding interest in regional use of recycled water for resource sustainability and water quality benefits.</i></p>

Clean Water Services – Reuse \$ 25,000

The purpose of this study is to evaluate the feasibility of decentralized reuse water production facilities to reduce demands on irrigation and potable water supplies and to improve water quality in tributaries of the Tualatin River. It will focus on a range of options to improve the health of tributary streams through offsetting irrigation withdrawals and stored water usage; local water reuse by new industrial or residential developments; and stream flow-augmentation through hyporheic or wetland recharge. Clean Water Services (CWS) has demonstrated the benefits of summer time flow augmentation in tributaries over the last five years that suffer from low flows (due to low rainfall and agricultural irrigation withdrawals). This study will therefore add to an existing body of work and support innovative approaches to wastewater management that benefit watershed health.

The study will evaluate:

- *Potential demand for reuse water from decentralized treatment facilities as the District expands.*
- *Strategies to utilize reuse water to indirectly restore tributary stream flows.*
- *Treatment, conveyance and O&M requirements necessary to protect public health and improve water quality*
- *Cost associated with different strategies*

Water and Stream Health Committee – Storage \$20,000

WASH is applying for this grant to further and broaden economic and environmental studies of the chosen four proposed dam sites.

Key tasks involved in this study include more finite evaluations:

- *Research to identify acceptable multiplier value for calculating multiplier effect to local communities.*
- *Applying and calculating the multiplier for each site and justifying findings and conclusions.*
- *Recalculate hydropower net benefit at each site utilizing new additional hydrological data (Appraisal Study, see section 9.1).*
- *Research if MODSIM can be utilized to run models of various flows of water left instream and consequent result of reservoir and stream flows on the environment.*

Polk County- Storage \$ 50,000

This grant application would be used to conduct assessments of alternative storage sites, withdrawal of Willamette River water, and water conservation. Components of the 2012-2013 storage concept analysis would include the following:

- 1. Alternative storage and withdrawal site assessments using information and models developed initially in the 2011 Valsetz Storage Concept Analysis*
- 2. Assessment of water conservation opportunities*
- 3. Collection of LIDAR data*
- 4. Modeling of flows and water temperature to evaluate potential use of variable level intakes to modify temperature and dissolved oxygen in the reservoir and downstream of the Valsetz alternative.*
- 5. Modeling of the effect of reservoir management options on dissolved oxygen*

Lane Council of Governments Conservation and Reuse \$ 49,830

This project ignites a conservation and reuse initiative for small cities in the upper region of the Willamette River Basin. Through an examination of information about current supply and future demand needs, the Lane Council of Governments (LCOG) will work with two cities to develop water conservation and reuse policies that include existing and successful models to reduce water supply needs. This pilot project of two cities initiates a regional platform for water conservation/reuse and provides feedback from stakeholders throughout the process. Strategies developed will serve as models for other cities, will be scalable and transferable, will build relationships and support broader outreach. Extensive resources are leveraged in partnership with the Willamette Water 2100 Project and efficiencies are achieved that provide for communication, coordination, and participation of a diverse partnership supporting the goals of SB 1069.

PUBLIC NOTICE OF WATER USE REQUESTS
May 29, 2012

Use the back of this form to offer comments on water use requests or other items in this notice or to order copies of proposed final and final orders. You are welcome to submit comments on a separate sheet, but please be sure to include your name and address and reference the specific request or document that concerns you. Please mail your comments to the address listed above.

Water Use Request Type & File Number

(e.g. "Permit Application G-12345" or "Transfer T-1234"):

Mail me the order

(payment enclosed)*

Your Name, Address, and Phone Number:

* We are required by law to charge a fee of \$20 to mail a copy of a proposed and final order on a pending water right application or permit extension to any interested person. Please include a check made out to the Oregon Water Resources Department in the amount of \$20 for each type of order you would like mailed to you. This fee entitles you to also receive a copy of the final order, when issued. (Copies of propose final order and final order are also available for viewing—at no charge—at our Salem office or at the local watermaster office.)
