Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, August 02, 2012. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, August 17, 2012.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following days: March 23, 2012, May 25, 2012, August 17, 2012, October 19, 2012, November 23, 2012, January 18, 2013, April 19, 2013 and May 24, 2013.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is July 24, 2012. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before August 02, 2012. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant and \$300.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before August 02, 2012, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-10822 filed by Eunice Goodrich, P.O. Box 466, Dayton, Oregon 97114 proposes an additional point of appropriation under Registration Application GR-886 (Certificate of Registration GR-860). The ground water registration claims the use of 200 gallons per minute (tentative priority date October 1952) from a well in Sec. 36, T 4 S, R 4 W, W.M. (West Fork Palmer Creek Basin) for irrigation in Sec. 36. The applicant proposes an additional point of appropriation approximately 40 feet east within Sec. 36, T 4 S, R 4 W, W.M. The Water Resources Department has concluded that the proposed modification appears to be consistent with the requirements of ORS Chapter 537, ORS Chapter 540 and OAR 690-382-1000.

T-11313 filed by Duane Neiffer, 67795 McNab Lane, Ione, OR 97843, proposes a place of use change under Certificate 64437 and Permit S-54649. Certificate 64437 allows the use of 0.17 cubic foot per second from a well in Sec. 12, T 1 S, R 23 E, W.M. for irrigation in Secs. 1 and 2. Permit S-54649 allows the use of 41.9 acre feet from Willow Creek Reservoir in Sec. 35, T 2 S, R 26 E, W.M. for supplemental irrigation in Secs. 1 and 2, T 1 S, R 23 E, W.M. The applicant proposes to change the place of use to Secs. 1 and 12, T 1 S, R 23 E, W.M. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-11314 filed by Duane Neiffer, 67795 McNab Lane, Ione, OR 97843, proposes a place of use change under Certificates 184½ and Permit S-54649. Certificate 184½ allows the use of 0.04 cubic foot per second from Willow Creek in Sec. 28, T 1 S, R 25 E, W.M. for irrigation within Sec. 28. Permit S-54649 allows the use of 7.5 acre feet from Willow Creek Reservoir in Sec. 35, T 2 S, R 26 E, W.M. for irrigation and supplemental irrigation in Sec. 28, T 1 S, R 25 E, W.M. The applicant proposes to move the place of use to Sec. 27, T. 1 S, R 25 E, W.M. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

Transfer Applications: Temporary Transfer

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or expand the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.
