

OREGON WATER RESOURCES DEPARTMENT

725 Summer Street NE Ste A
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS
September 11, 2012

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Alternate Reservoir Applications (ORS 537.409)**
Applications for storage permits for small ponds filed under a simplified review process.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Emergency Water Use Permit Applications**
Final Orders issued approving applications for temporary water use permits during a drought declared under ORS 536.740.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

- * **District Permanent Transfers (ORS 540.580)**
Petitions requesting transfers in place of use within a district's boundaries.
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to "Codi.N.Holmes@ wrd.state.or.us".

Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, October 11, 2012. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, October 26, 2012.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following days: March 23, 2012, May 25, 2012, August 17, 2012, October 19, 2012, November 23, 2012, January 18, 2013, April 19, 2013 and May 24, 2013.

How to Read the Listing

Applications on the next page are sorted by application number in the following format:

App#	Basin	Source	Township/Range	County	Priority	Quantity	Stage	Status
G-15693	DOE, JOHN PO BOX 123	EUGENE OR 97123	16.00S 03.00W 19 NESW	Lane	01/29/2002	0.3700 C	IR	3
	02 A WELL > SPRING CR							
	Uses: IR							

FIRST LINE:

* Application number:

G: groundwater

R: reservoir

S: surface water

I: instream

* Applicant name & address

* Stage of review:

IR: Initial Review

PFO: Proposed Final Order

* Decision status codes

1: permit may be issued as requested

2: permit may be issued with conditions

3: permit unlikely to be issued

SECOND LINE:

* Basin number (see map below right)

* Source > what it flows into
(in the case of wells, this describes the basin in which the well is located)

* General legal description

* County & Priority date

* Amount

* Unit of measure:
C: cubic feet per second

G: gallons per minute

A: acre-feet

Permit Application Final Orders

Following is a list of applications that have had final orders issued recently. If you would like a copy of any of the final orders, you may send a request with \$20.00 for each final order to the Water Rights Section, Oregon Water Resources Department, 725 Summer Street NE Ste A, Salem OR 97301. If you have any questions, please contact the Department's customer service staff by dialing 503-986-0801.

Alternate Reservoir Applications (ORS 537.409)

For alternate reservoir applications filed under ORS 537.409, the public is invited to comment within 60 days of this notice. The law provides that within 60 days after the Department provides public notice of the application, any person may submit detailed, legally obtained information in writing, requesting the Department to deny the application for a permit on the basis that the reservoir:

- (A) Would result in injury to an existing water right; or
- (B) Would pose a significant detrimental impact to existing fishery resources as determined on the basis of information submitted by the State Department of Fish and Wildlife.

Such comments must be submitted on or before November 10, 2012.

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **October 11, 2012**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the rediversion point(s).

Emergency Water Use Permit Applications

Under OAR 690-19-040, after the Governor declares that a severe, continuing drought exists, the Director may accept applications for emergency use permits.

The Director shall approve an application for emergency water use upon findings that the proposed use will not cause injury to existing water rights and will not impair or be detrimental to the public interest. In evaluating whether the proposed use will impair or be detrimental to the public interest, the Director shall consider the factors described in OAR 690-310-0120 and 690-310-0130; and

- a) The need for water because of the drought emergency; and
- b) The short-term nature of the proposed emergency use.

An emergency use permit may be issued upon approval by the Director. No hearing under ORS 537.170 is required. The Director will consider all comments received concerning the use, or proposed use, under the emergency use permit throughout the life of the permit. Use of water under a emergency use permit may be regulated at any time in accordance with the terms and conditions of the permit. If use of water under a emergency use permit causes injury to an existing water right, the permit shall be revoked unless the injury is mitigated to the satisfaction of the injured water right holder. Any use of water under an emergency use permit shall not exceed the term of the Governor's declared drought or one year.

G-17579	14	Klamath	08/30/2012	BALIN RANCHES 136	9/10/2012

**Applications for Extensions of Time
to Perfect Water Right Permits filed pursuant to OAR 690-315**

Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until October 11, 2012. Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and \$20 (the charge required by law). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self-copied. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person.

Extension file information is included in the following format:

- (a) Application Number;
- (b) Permit number;
- (c) Applicant name and address;
- (d) County of application;
- (e) Common name of water source(s) listed in the permit;
- (f) Amount of water use permitted in gallons per minute (gpm), cubic feet per second (cfs) or acre feet (af) of storage;
- (g) Use allowed in the permit;
- (h) Proposed extended date of completion as requested by the extension applicant;

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licenseses must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after September 25, 2012, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is October 02, 2012. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before October 11, 2012. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$600 protest fee for non-applicant and \$300.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before October 11, 2012, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-11299 filed by Steve V. and Constance A. Johnson, 10404 Hazelgreen Rd., Silverton, OR 97381, proposes changes in point of appropriation and place of use under Certificate 86681. The right allows the use of 0.19 cfs from Well #2 in Sec. 29, T 7 S, R 2 W, W.M. for irrigation in Sec. 29. The applicant proposes to move the point of appropriation to Sec. 19, T 6 S, R 1 W, and to change the place of use to Sec. 19, T 6 S, R 1 W. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-11402 filed by Christophe Baron, of Deep Roots, LLC, PO Box 1622, Walla Walla, Wa 99362, proposes to modify the point of appropriation under Registration Application GR-4229 (Certificate of Registration GR-3768). The groundwater registration claims the use of 226 Gallons per Minute (tentative priority date 1924) from a well within the Walla Walla River basin, located in the Sec. 33, T6N, R35E, W.M., for irrigation in Section 33. The applicant proposes to modify the location of the recognized point of appropriation within Sec. 33. The Water Resources Department has concluded that the proposed modification appears to be consistent with the requirements of ORS Chapter 537, ORS Chapter 540 and OAR 690-382-1000.

District Permanent Transfers (ORS 540.580)

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use. The final order approving the permanent transfer is subject to protest.

This public notice also includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

The Department seeks public comment on recently filed district transfer applications listed below. The deadline for comments or protests to the transfer application must be received by the Department on or before October 11, 2012. The Department will hold a contested case hearing if: 1) a protest and \$600 protest fee for non-applicant and \$300.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. (If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user.)

PUBLIC NOTICE OF WATER USE REQUESTS
September 11, 2012

Use the back of this form to offer comments on water use requests or other items in this notice or to order copies of proposed final and final orders. You are welcome to submit comments on a separate sheet, but please be sure to include your name and address and reference the specific request or document that concerns you. Please mail your comments to the address listed above.

Water Use Request Type & File Number
(e.g. "Permit Application G-12345" or "Transfer T-1234"):

Mail me the order
(payment enclosed)*

Your Name, Address, and Phone Number:

* We are required by law to charge a fee of \$20 to mail a copy of a proposed and final order on a pending water right application or permit extension to any interested person. Please include a check made out to the Oregon Water Resources Department in the amount of \$20 for each type of order you would like mailed to you. This fee entitles you to also receive a copy of the final order, when issued. (Copies of propose final order and final order are also available for viewing—at no charge—at our Salem office or at the local watermaster office.)
