## **Initial Review and Proposed Final Orders**

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

### **Initial Review (IR) Stage**

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use. **The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, April 09, 2026.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

### **Proposed Final Order (PFO) Stage**

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$53. (Any person paying \$53 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFOs may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest. Detailed information related to filing a protest can be found within the PFO.

**The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, April 24, 2026.**

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

## Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

**The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is March 31, 2026.** Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

## Application for District Temporary Transfer

A district with a manager may request to temporarily change a water use within district boundaries for one irrigation season pursuant to ORS 540.570. District temporary transfers may include a change: (1) in place of use; (2) in type of use of a water right to store water; (3) in type of use from a primary right to a supplemental right; (4) in point of diversion/appropriation to facilitate a change in place of use; (5) in point of diversion in response to an emergency; and (6) from a surface water point of diversion to a ground water appropriation. A district may allow proposed changes to occur upon submission of an Application for District Temporary Water Right Transfer to the Department.

The Department shall approve the request provided it does not cause injury to any existing water right or expand the water use. A district temporary transfer may be conditioned or revoked at any time to avoid injury to other water rights. The use of water reverts to the prior authorized place of use, type of use, point of diversion/appropriation upon expiration of the temporary change.

The Department is requesting public comments on the recently filed district temporary transfer application(s) listed below. Comments may be submitted by any person (please follow the instructions on the last page of this public notice). The Department shall consider all comments that pertain to the potential for injury to an existing water right or to the enlargement of the water use subject to transfer in determining whether to condition, reject or revoke a temporary transfer. **Comments must be received by the Department on or before April 09, 2026.**
