PUBLIC NOTICE OF WATER USE REQUESTS
April 14, 2026

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Establishment of Mitigation Credits in the Deschutes Basin pursuant to OAR Chapter 690, Division 521 (ORS 537.746)**
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Proposed Final Orders**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's proposed final order.
- * **Transfer Applications: District Temporary - ORS 540.570**
Petitions requesting temporary changes in water use within a district's boundary for one irrigation season.
- * **Water Management and Conservation Plans**
Water management and conservation plans submitted by municipalities and agricultural water suppliers under provisions of OAR Chapter 690, Division 86.
- * **Aquifer Storage and Recovery (ASR) Limited Licenses – Renewal and Modification**

The Public Notice is published each week on the Department's web site at www.oregon.gov/OWRD. If you would like to receive a **free** weekly notification when it is published, please send your request to Tonya.L.Miller@water.oregon.gov.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Initial Review (IR) Stage

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use. **The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, May 14, 2026.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order (PFO) Stage

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$53. (Any person paying \$53 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFOs may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest. Detailed information related to filing a protest can be found within the PFO.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, May 29, 2026.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Establishment of Mitigation Credits in the Deschutes Basin

ORS 537.746 authorizes the Department to award mitigation credits in the Deschutes Basin to approved mitigation projects. Mitigation credits may be used in the Deschutes Basin, specifically the Deschutes Ground Water Study Area, to mitigate for the impacts of ground water use on surface water flows. Pursuant to OAR Chapter 690, Division 521, upon receipt of notification of a mitigation project, the Department shall give public notice of the intent to establish mitigation credits.

The public is invited to comment on establishment of mitigation credits for the project(s) described below. Comments must be received within 21 days of the date of this public notice. Comments should address the award of mitigation credits to the proposed project and its use for mitigation purposes. Included in this public notice is a preliminary determination as to the amount of mitigation credits that may be available from the proposed project.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is May 05, 2026. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Proposed Final Order

A Proposed Final Order provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued proposed final orders on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(5) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than $\frac{1}{4}$ mile where there are no intervening diversion points between the authorized and proposed points of diversion.

Any person may protest a proposed final order to request a contested case hearing on the proposed final order. Protests must meet the requirements of Oregon Laws 2025, chapter 575, section 3a(1), 3a(3)(b), and 3(a)(3)c), including being accompanied by a \$1,425 protest fee for a nonapplicant and \$720 protest fee for an applicant. Protests must be received by the Department on or before May 14, 2026 (being 30 days from the date of this notice). If a protest is filed, any person who supports the proposed final order may file a request for party status to request to participate in any contested case proceeding in support of the proposed final order. Requests for party status must meet the requirements of Oregon Laws 2025, chapter 575, section 3a(2)(b), including being accompanied by \$1,425 request for party status fee. Requests for party status must be received by the Department within 30 days after the deadline for filing a protest. For additional information concerning protests and requests for party status, review the information included in the proposed final order or call the Protest Program Coordinator at (503) 507-2749.

[T-13897](#) filed by Philip H. and Penelope P. Knight, 34645 SW Cloudrest Ln, Hillsboro, OR 97123, proposes a change in point of diversion, place of use, and character of use under Certificate 94473. The right allows the use of 0.137 cubic foot per second from the Crooked River in Sec. 22, T14S, R14E, WM for irrigation in Sec. 23, T14S, R14E, WM. The applicant proposes to move the point of diversion to Sec. 34, T13S, R13E, WM, to change the place of use to Sec. 34, T13S, R13E, WM and to change the character of use to Nursery Use. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

Application for District Temporary Transfer

A district with a manager may request to temporarily change a water use within district boundaries for one irrigation season pursuant to ORS 540.570. District temporary transfers may include a change: (1) in place of use; (2) in type of use of a water right to store water; (3) in type of use from a primary right to a supplemental right; (4) in point of diversion/appropriation to facilitate a change in place of use; (5) in point of diversion in response to an emergency; and (6) from a surface water point of diversion to a ground water appropriation. A district may allow proposed changes to occur upon submission of an Application for District Temporary Water Right Transfer to the Department.

The Department shall approve the request provided it does not cause injury to any existing water right or expand the water use. A district temporary transfer may be conditioned or revoked at any time to avoid injury to other water rights. The use of water reverts to the prior authorized place of use, type of use, point of diversion/appropriation upon expiration of the temporary change.

The Department is requesting public comments on the recently filed district temporary transfer application(s) listed below. Comments may be submitted by any person (please follow the instructions on the last page of this public notice). The Department shall consider all comments that pertain to the potential for injury to an existing water right or to the enlargement of the water use subject to transfer in determining whether to condition, reject or revoke a temporary transfer. **Comments must be received by the Department on or before May 14, 2026.**

Water Management and Conservation Plans

The Department is required to give notice and to invite public review and comment on Water Management and Conservation Plans submitted pursuant to OAR Chapter 690, Division 086. The Department will consider all public comments in its review of the draft plan and will report the results of the review to the water supplier 90 days from the time the plan was submitted.

Any person may review and comment on a draft plan on or before May 14, 2026.

Copies of the plans may be requested by emailing the [Water Management and Conservation Planning Team](#). Comments must cite specific provisions of concern in the draft plan, describe how each of the provisions cited do or do not satisfy the requirements of OAR Chapter 690, Division 086, suggest any modification in each provision that would be necessary to satisfy the relevant requirement, and include information to support any suggested modifications.

Plans have been submitted by the following agricultural and municipal water suppliers:

Kernville-Gleneden Beach-Lincoln Beach Water District (Municipal)

To review any of the above plan(s) or to provide comments on the plan(s), contact Kerri Cope at 503-979-9544 or Kerri.H.Cope@water.oregon.gov or Tamera Smith at 458-253-0597 or Tamera.L.Smith@water.oregon.gov

Aquifer Storage and Recovery (ASR) Limited Licenses – Renewal and Modification

ASR means the storage of water from a separate source that meets drinking water standards in a suitable aquifer for later recovery and not having as one of its primary purposes the restoration of the aquifer (ORS 537.531). The use of water for ASR testing purposes requires a limited license pursuant to ORS 537.534. The requirements and procedures of an ASR limited license differ from those for limited licenses pursuant to ORS 537.143. Only after completion of an ASR testing program under a limited license may an applicant apply for a permanent ASR permit.

An ASR Limited License may be renewed if the applicant demonstrates, to the satisfaction of the Director, that further testing is necessary and that the applicant complied with the terms of the limited license. The standards, findings and process used in the license renewal process shall be as provided in OAR 690-350-0020. The Director may renew an ASR Limited License for a term of not more than 5 years. Publication of a renewal request in the public notice initiates a 30-day public comment period. After the comment period, the Department may request additional information regarding the renewal request, renew the limited license, renew it with additional conditions, or deny the request.

OAR 690-350-0020(5) requires that an ASR limited license contain a condition that provides for license modification. Either the licensee or the Water Resources Department can initiate changes for items that are specified in the condition. Some small modifications are termed minor adjustments and can be approved without public notice or comment. Other changes require public notice and a 30-day public comment period. Following the comment period, the Department may request additional information from the applicant, modify the ASR limited license, or deny the modification request.
