Permit Applications – Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Initial Review (IR) Stage

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, September 24, 2026. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order (PFO) Stage

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$53. (Any person paying \$53 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFOs may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest. Detailed information related to filing a protest can be found within the PFO.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, October 09, 2026.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Emergency Water Use (Drought) Applications (OAR 690-019-0040)

When a drought is declared under ORS 536.740, the Director is authorized to issue emergency use permits to replace water not available under an existing right because of the drought. The Director shall approve an application for emergency water use upon findings that the proposed use will not cause injury to existing water rights and will not impair or be detrimental to the public interest. OAR 690-019-0040(3). In evaluating whether the proposed use will impair or be detrimental to the public interest, the Director shall consider the factors described in OAR 690-310-0120 and 690-310-0130; and

- a) The need for water because of the drought emergency; and
- b) The short-term nature of the proposed emergency use.

The following is a list of emergency water use permit applications recently filed, or which have recently received a final order, pursuant to OAR 690-019-0040. For any emergency use permits issued, the expiration date will not exceed the term of the Governor's declared drought or one year. The Director will consider all comments received concerning the use, or proposed use, under the emergency use permit throughout the life of the permit. (OAR 690-019-0040(4)(b))

Proposed Order Approving District Water Right Remapping Petition HB 3111

An irrigation district, cooperative or other qualifying association formed to distribute irrigation water had until July 1, 1994, to petition the Water Resources Commission for a change in its water right to reflect actual water use under the provisions of ORS 541.325 to 541.333. The Director must issue a proposed order approving petition and maps if the petitioner has met the statutory requirements of ORS 541.325 to 541.333 and the changes described in the proposed order would not result in injury to existing water rights.

Within 30 days of the Director issuing a proposed order approving the petition and maps, the petitioner is required to publish notice in a local newspaper that a proposed order has been issued. Copies of the proposed order, proposed certificates and maps are available for public review at Water Resources Department's Eastern Region Office and the Burnt River Irrigation District Office.

Any users may file a written protest on the proposed order approving the petition and maps. As defined in ORS 541.325(3), a user means an owner of land with an appurtenant water right that is subject to assessment by a district and that would be altered by the petition and map filed under ORS 541.329. Detailed requirements for filing a protest are included in the proposed order approving the petition and maps. Written public comments may be submitted by any person (please follow the instructions on the last page of this public notice). Any protest must be filed with the Water Resources Department within 60 days of the date of first publication of the petitioner's newspaper notice ORS 541.331(1). Any person may file written comments on this proposed order with the Department within 120 days after the date of first newspaper publication of notice of the proposed order OAR 690-013-0310(4).
