Permit Applications – Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Initial Review (IR) Stage

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.
The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, December 24, 2026. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order (PFO) Stage

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of $53. (Any person paying $53 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFOs may be viewed free of charge online at: http://apps.wrd.state.or.us/apps/wr/wrinfo/. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest. Detailed information related to filing a protest can be found within the PFO.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, January 08, 2027.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Applications for Allocation of Conserved Water

The following applications for allocation of conserved water have been received pursuant to ORS 537.455 to 537.500 and OAR Chapter 690, Division 18. In reviewing the applications, the Department will consider whether the diversion for the uses allowed under the original water right will be reduced by the conservation project, whether existing water rights will be protected from injury, and whether the project is in compliance with local comprehensive land use plans.

Notice of Application for Allocation of Conserved Water CW-152

CW-152 filed by Richard M. Braden et UX, 13511 N. Applegate Rd., Grants Pass, OR 97527, proposes to conserve water by converting from an open ditch and flood irrigation to a pump and drip irrigation system. The conservation project from Sucker Creek is expected to conserve approximately 0.33 cubic foot per second (cfs) and 139.6 Acre-Feet (AF) under Certificate 7128 with a priority date of 1875.

The Applicant proposes 25% of the conserved water (0.08 cfs/34.9 AF) be protected in Sucker Creek for Certificate 7128.

The project appears to be consistent with the requirements under ORS 537.470. Any interested person may submit written comments directly related to CW-152 within 30 days of the Department's public notice, being by 5:00pm on **December 14, 2026.** Comments should be sent to the attention of the ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301.

Notice of Application for Allocation of Conserved Water CW-153

CW-153 filed by Padre Properties LLC, 13511 N. Applegate Rd., Grants Pass, OR 97527, proposes to conserve water by installing lower flow drip emitters from a size of 0.79 gallon per hour (gph) emitter to 0.53 gph emitter. The conservation project from Sucker Creek is expected to conserve approximately 0.11 cubic foot per second (cfs) and 47.29 Acre-Feet (AF) under Certificate 75327 with a priority date of 1857, and approximately 0.035 cfs and 15.68 AF under Certificate 88666 with a priority date of 1857.

The Applicant proposes 25% of the conserved water (0.03 cfs/11.82 AF) be protected in Sucker Creek for Certificate 75327, and (0.009 cfs/3.92 AF) be protected in Sucker Creek for Certificate 88666.

The project appears to be consistent with the requirements under ORS 537.470. Any interested person may submit written comments directly related to CW-153 within 30 days of the Department's public notice, being by 5:00pm on **December 14, 2026.** Comments should be sent to the attention of the ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after December 08, 2026, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing "LL Application" under "Scanned Documents."
