Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, April 04, 2013. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$20. (Any person paying \$20 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, April 19, 2013.

The protest filing fee is \$300 for the applicants and \$600 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$150 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$300 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date. In addition to the usual state or federal office closures, the Oregon Water Resources Department headquarters office will be closed on the following days: March 23, 2012, May 25, 2012, August 17, 2012, October 19, 2012, November 23, 2012, January 18, 2013, April 19, 2013 and May 24, 2013.

Recommendation to Consent to Injury

Pursuant to ORS 540.530(1)(c) and OAR 690-380-5050, the state agency that requested establishment of an instream water right has recommended that the Water Resources Department consent to the injury of the instream water right resulting from a proposed change in point of diversion. Copies of the transfer documents and the state agency's recommendation are available for viewing at the Salem office of the Water Resources Department.

Any person may review the recommendation and submit written comments or may submit a written request for a public meeting to review the recommendation. The comments or request for a meeting must be received on or before April 04, 2013. To review the recommendation, contact the Water Resources Department Transfers Section. Written comments and requests for a public meeting should be mailed to Transfers Section, Water Resources Department, 725 Summer St NE, Suite A, Salem, OR 97301-1271 or faxed to 503-986-0903.

Notice of Receipt of Recommendations to Consent to Injury

T-11451 filed by City of Toledo, c/o Adam Denlinger, PO Box 220, Toledo, OR 97391, proposes changes in point of diversion and place of use under Certificates 87645 and 14396. The applicant proposes to move the point of diversion (POD) approximately 520 feet upstream in the Siletz River and to change the place of use of the rights to within the service boundaries of the City of Toledo. The Department determined that the transfer would injure instream water right Certificates 67712 and 67713, however, the Oregon Department of Fish and Wildlife (ODFW) concluded that the transfer would result in net benefits to the resource if conditioned to require the City of Toledo to: 1) construct the proposed POD during an appropriate in-water work period, 2) install an ODFW-approved fish screen at the proposed POD, and 3) choose either proximity mitigation (transfer a minimum of 0.016 cfs instream from the new POD to the head of tide), or off-proximity mitigation (adopt a resolution committing to meet with ODFW annually in September to discuss options for water management on Mill Creek in the Yaquina Basin). The Oregon State Parks and Recreation Department (Parks) concluded that the transfer would result in net benefits to the resource for recreation if conditioned as requested by ODFW.

Copies of the WRD's Preliminary Determination proposing denial of the transfer and ODFW's and Parks' recommendations are available for viewing at the Salem office of the Water Resources Department. Any person may review the recommendations and submit written comments or may submit a written request for a public meeting to review the recommendations.

WRD will provide copies of any comments submitted in response to this notice to ODFW and to Parks. If a meeting is requested, WRD will schedule a joint public meeting with ODFW and/or with Parks to review the recommendations.

To review the recommendations, contact Dorothy Pedersen at 503-986-0890 or e-mail Dorothy.I.Pedersen@wrd.state.or.us. Written comments and requests for a public meeting should be mailed to Attn: Dorothy Pedersen, Water Resources Department, 725 Summer St NE, Suite A, Salem, OR 97301-1266 or faxed to 503-986-0903.
