Application for continuing education credit has been submitted for this course and will be reviewed at the next Well Constructor Continuing Education Committee meeting. Results will be posted after that.

Description: Taught by NHI-approved instructors, this course is part of a series to develop a training and qualification/certification program for geotechnical inspectors and field personnel. This course is intended for drillers, drilling inspectors, engineers, geologists, and technicians involved in field data collection and quality assurance of subsurface investigations. The course follows FHWA guidelines and practices for subsurface investigations.
