

OSU Hydrophiles

Overview

- Introduction
- Mission
- Activities
 - Social & Educational
 - Service Learning
 - Professional Development
- Summary

Introduction – Who We Are

- Founded in 1997
- A collection of student, faculty, and affiliates from a diverse set of disciplines at OSU and in Corvallis
- Affiliations
 - American Water Resources Association (AWRA)
 - American Institute of Hydrology (AIH)

Mission

Hydrophiles' goal is to provide a forum for professional, academic and social interaction amongst students, faculty, and other members of the Oregon State University community who share a common interest in water-related resources and issues.

Social & Educational

- Film screening: Last Call at the Oasis
- Rafting Trips: Willamette, McKenzie & Umpqua
- Water Industry Facility Tours
- Brownbags & Hydro-Happy Hour

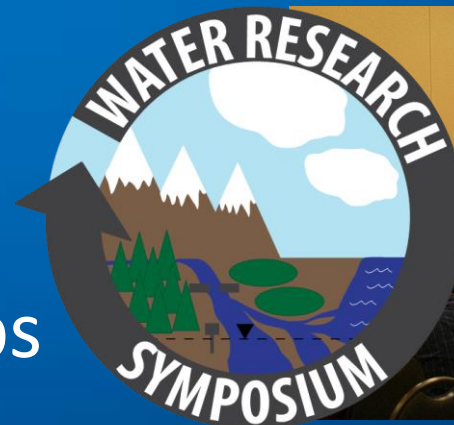

Service Learning

- Mary's River Clean Up
- Girls Science and Engineering Club
- Salmon Watch Student Education
- Walk for Water: Ethiopia

Professional Development

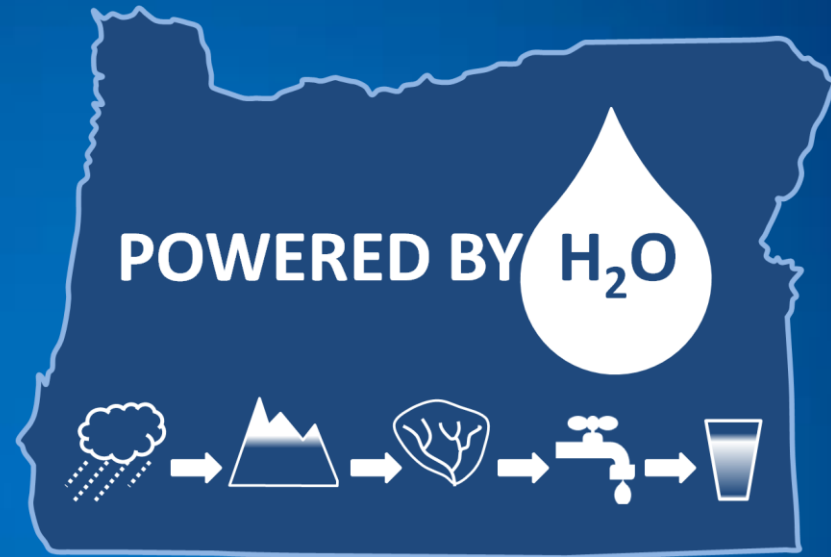

- Water Research Symposium
- Mary's River Watershed Council
- Working Together with Tribes on Natural Resources
- Hydro-Career Panel
- Mentoring
- Technical skill workshops

Summary

“The increasing recognition for the value of restoring ecosystems to their natural condition will demand more scientists trained in ecological areas such as soils, biology, zoology, chemistry, geology, as well as environmental, civil, and mechanical engineering.”
