PUBLIC NOTICE OF WATER USE REQUESTS
December 17, 2013

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.
- * **Transfer Applications: Permit Amendments**
Requests to amend permits.
- * **District Permanent Transfers (ORS 540.580)**
Petitions requesting transfers in place of use within a district's boundaries.
- * **Notice of Application for Allocation of Conserved Water**

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to "Codi.N.Holmes@wrdd.state.or.us".

Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, January 16, 2014. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, January 31, 2014.

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$500 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date.

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **January 16, 2014**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the rediversion point(s).

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after December 31, 2013, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before January 16, 2014. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before January 16, 2014, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-11474 filed by Elizabeth A. & Timothy C. Dewsnup, 13683 S Myrtle Rd, Myrtle Creek, OR 97457, proposes a point of diversion change under Certificate 86821. The right allows the use of 0.03 cfs from Weaver Creek in Sec.16, T29S, R3W, W.M. for irrigation in Section 16. The applicant proposes to move the point of diversion 0.35 mile downstream in Sec. 16, T 29 S, R 3W, W.M. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-11603 filed by Jennifer D. & James D. Cline Jr., 22598 S. Lewellen Rd., Beaver Creek, OR 97004-8732, proposes to change the character of use under Certificate 85968. The right allows the use of 0.11 cubic foot per second from WELL 2 in Sec. 26, T 15 S, R 10 E, W.M. for supplemental irrigation within Sec. 26. The applicant proposes to change the character of use to primary irrigation. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

Transfer Applications: Permit Amendments

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU) pursuant to ORS 537.211 (4).

Notice is given that the following applications for Permit Amendments have been received by the Department. If the proposed change in point of diversion or appropriation is for a distance greater than 1/4 mile or includes intervening diversion points, notice also will be published in a local newspaper.

District Permanent Transfers (ORS 540.580)

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use. The final order approving the permanent transfer is subject to protest.

This public notice also includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

The Department seeks public comment on recently filed district transfer applications listed below. The deadline for comments or protests to the transfer application must be received by the Department on or before January 16, 2014. The Department will hold a contested case hearing if: 1) a protest and \$700 protest fee for non-applicant and \$350.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. (If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user.)

**Notice of Application for
Allocation of Conserved Water
CW-57**

CW-57 was filed by the City of Milton Freewater, PO Box 6, Milton-Freewater, OR 97862, on May 19, 2008. The project has yielded approximately 0.42 cfs of conserved water from the Walla Walla River under Certificates 13037, 86916, and 86950 (priority dates of 1885, 1875, 1887, and 1893) through a more accurate and efficient sprinkler system for the golf course which receives water from Walla Walla River Irrigation District's Milton Pipeline. The applicant proposes the 0.42 cfs of conserved water to be protected instream. CW-57 proposes to move the authorized point of diversion for Cert. 13037 approximately 1-1/3 mile downstream to Sec. 12, T5N, R35E, W.M. The project appears to be consistent with the requirements under ORS 537.470.

Any interested person may submit written comments for the applications. Comments must be received within 20 days of the last date of publication in the newspaper, **12/20/2013**. Comments should be sent to the attention of the ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301.

**Notice of Application for
Allocation of Conserved Water
CW-82**

CW-82 was filed by Pine Meadow Ranch, Inc., PO Box 969, Sisters, OR 97759. The project is expected to yield approximately 1 cfs of conserved water from Wychus Creek under Certificates 75141 (1885, 0.49 cfs), 293 (1886, 0.35 cfs), and 44043 (1886, 0.16 cfs), by moving the point of diversion approximately 1.25 miles downstream from Sec. 17, T15S, R10E, W.M. to Sec. 9, T15S, R10E, W.M. eliminating approx. 1 mile of unlined open ditch losses. The applicant proposes to protect the entire 1 cfs instream. The project appears to be consistent with the requirements under ORS 537.470.

Any interested person may submit written comments for the applications. Comments must be received within 20 days of the last date of publication in the newspaper, **12/28/2013**. Comments should be sent to the attention of the ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301.

Certificate Issuance

Following is a list of certificates that have been recently issued. If you are viewing this electronically then you should be able to view the certificate by clicking on the underlined blue text. Appeal rights are provided on each certificate document.

If under the file number the "App:" abbreviation for application is provided then any person owning an application, permit or water right certificate subsequent in priority to a certificate listed here may file a protest within three months of issuance of the certificate. See Oregon Revised Statutes 537.260. Rules governing protests are in Oregon Administrative Rules Chapter 690 division 002. Any protest must be accompanied by a protest fee of \$700. (ORS 536.050(1)(j)(A)).
