## **Permit Application Initial Reviews and Proposed Final Orders**

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

### **Initial Review Stage (IR in the "Stage" column of the permit listing)**

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

**The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, August 28, 2014.** Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

### **Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)**

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

**The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, September 12, 2014.**

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$500 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date.

## Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

**The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is August 19, 2014.** Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. ## Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before August 28, 2014. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

## **Transfer Preliminary Determinations**

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before August 28, 2014, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-11600 filed by Camp Morrison LLC, 1494 N 6th Ave Stayton, OR 97383, proposes a point of appropriation and place of use change under Groundwater Registration Application GR-325 (Certificate of Registration GR-307). The registration allows the use of 148 gpm from well 1, 419 gpm from well 2, and 160 gpm from well 3, all in Sec. 4, T10S, R3W, WM for irrigation in Sec. 4. The applicant proposes to move the points of appropriation within Sec. 4, T10S, R3W, WM and to change the place of use within Sec. 4. The Water Resources Department proposes to approve the modification, based on the requirements of ORS Chapter 540 and OAR 690 382 1000.

T-11626 filed by Eric and Pamela Erickson Trust, 2001 NW McDaniel Rd, Powell Butte, OR 97753, proposes a change in place of use and character of use under Certificate 81282. The right allows the use of one-eightieth of one cfs per acre from a well in Sec. 31, T14S, R15E, WM for supplemental irrigation in Sec. 31. The applicant proposes to change the place of use to within Sec. 31 and change the character of use to primary irrigation. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-11648 filed by Dillon Irrigation Co, 31466 Andrews Rd, Echo, OR 97826, proposes a point of diversion change under the Umatilla River Decree Vol. 3 Page 127 and Vol. 15 Page 378. The right allows the use of 23.71 cfs from the Umatilla River for irrigation, livestock and domestic uses in Sec.1, T3N, R28E; Sec. 6, T 3N R 29E; Sects. 34, 35, and 36, T4N, R28E; Sec. 31, T4N R29E, WM. The applicant proposes to move the point of diversion to Sec. 21, T3N, R29E, WM. The Water Resources Department proposes to deny the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000, due to injury of an instream water right. The Department is seeking

a recommendation from ODFW under OAR 690-380-5050. T-11648 will be denied unless ODFW recommends the Department consent to injury of the instream right because T-11648 would result in a net benefit to the resource, and no protests are filed.

T-11724 filed by City Of Keizer, PO Box 21000, Keizer, OR 97307-1000, proposes a point of appropriation change under Groundwater Registration Modification Application GR-3065 (Certificate of Registration GR-2868). The registration allows the use of 700 gpm from the Shoreline well in Sec. 3, T7S, R3W, WM for municipal use in Sections 34 and 35, T6S, R3W and Sections 1, 2, 3, 10, 11, 12, 14, and 15, T7S, R3W.
