This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week’s Public Notice include:

* **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
  Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.

* **Applications for Extensions of Time to Perfect Water Right Permits**
  New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.

* **Extension of TimeCheckpoint Progress Reports filed pursuant to OAR 690-315**
  Documents the progress made toward development of the water use project since approval of the last permit extension and/or the last progress report checkpoint. (OAR 690-315 pertains to permit extension applications filed on or after July 1, 2001.)

* **Application for Instream Lease**
  Application by water right holder to lease existing water rights to instream use.

* **Transfer Applications: Regular**
  Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.

* **Transfer Preliminary Determinations**
  Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

* **Transfer Applications: Permit Amendments**
  Requests to amend permits.

* **District Permanent Transfers (ORS 540.580)**
  Petitions requesting transfers in place of use within a district’s boundaries.

* **Certificate Issuance**
  Included in this section is a listing of recently issued water right certificates.

* **Application for Existing Water Right for Hydroelectric**
The Public Notice is published each week on the Department’s web site at http://www.wrd.state.or.us/. If you would like to receive a free weekly notification when it is published, please send your request to “Codi.N.Holmes@wrd.state.or.us”.

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

**Initial Review Stage (IR in the "Stage" column of the permit listing)**

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency’s decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

**The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, October 23, 2014.** Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

**Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)**

The proposed final order is the Department’s preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency’s decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of $25. (Any person paying $25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO’s may be viewed for free at the Department’s Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department’s decision as expressed in the PFO have 45 days to file a protest. **The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, November 07, 2014.**

The protest filing fee is $350 for the applicants and $700 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a “standing” fee of $200 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional $500 will be required at the time of the proceeding.

If a protest or comment deadline falls on a day that the office is closed then the next open business day automatically becomes the deadline date.

Applications for Extensions of Time
to Perfect Water Right Permits filed pursuant to OAR 690-315

Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until October 23, 2014. Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and $25 (the charge required by law). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self-copied. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person.

Extension file information is included in the following format:

(a) Application Number;
(b) Permit number;
(c) County of application;
(d) Applicant name and address;
(e) Common name of water source(s) listed in the permit;
(f) Use allowed in the permit; Amount of water use permitted in gallons per minute (gpm), cubic feet per second (cfs) or acre feet (af) of storage;
(g) Proposed extended date of completion as requested by the extension applicant;

Proposed Final Orders Regarding
Applications for Extensions of Time for Water Right Permits

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO’s) are the Department’s preliminary decision on extension requests. They document the agency’s decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of $25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO’s may be viewed for free at the Department’s Salem Office or at the appropriate district watermaster office.

Extension of Time Public Notice and Comment Procedures
Written comments on or written protests against a PFO must be submitted on or before November 07, 2014. There is no fee for submission of comments. The protest filing fee is $350 for the applicant and $700 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Extensions of Time Progress
Checkpoint Progress Reports filed pursuant to OAR 690-315

Consistent with OAR 690-315-0050(6), the Department will accept public comment on the following Extension of time Checkpoint Progress Reports until October 23, 2014. Comments must be in writing and must indicate the application file and permit numbers. Following the comment period, the Department shall review evidence to determine whether or not the permit holder has been diligent in developing and perfecting the water use permit and has complied with all terms and conditions of the permit and/or extension of time. Additionally, the Department will provide notice of its determination to anyone who has submitted comments.

Extension file information is included in the following format:

(a) Permit holder's name and address;
(b) Application file number / permit number
(c) County of use
(d) Common name of water source(s) listed in the permit;
(e) Use of water allowed under the permit;

Public Notice date September 23, 2014, Page 15
Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is October 14, 2014. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before October 23, 2014. Any person who provides comments within the comment period will receive a copy of the Department’s preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a $700 protest fee for non-applicant and $350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at http://www.oregon.gov/OWRD/PUBS/forms.shtml or by calling 503-986-0888. Protests must be received by the Department on or before October 23, 2014, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-11495 filed by Weske-Windflower Revocable Living Trust, PO Box 218 Philomath, OR 97370, proposes a point of diversion and place of use change under Certificate 42989. The right allows the use of 0.011 cfs from Greasy Creek in Sec. 6, T13S, R6W, WM for irrigation and fish culture in Sec. 6. The applicant proposes to move the point of diversion approximately 379 feet upstream and change the place of use within Sec. 6, T13S, R6W, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-11615 filed by Andy Root, 524 Hwy 20 N, Hines, OR 97738, proposes additional points of appropriation under Certificate 88868. The right allows the use of 3.21 cfs from three wells in Sec. 18, T23S, R32E, WM for irrigation in Sec. 18. The applicant proposes additional points of appropriation within Sec. 18, T23S, R32E, WM. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.
Transfer Applications: Permit Amendments

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU) pursuant to ORS 537.211 (4).

Notice is given that the following applications for Permit Amendments have been received by the Department. If the proposed change in point of diversion or appropriation is for a distance greater than 1/4 mile or includes intervening diversion points, notice also will be published in a local newspaper.

**District Permanent Transfers (ORS 540.580)**

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use. The final order approving the permanent transfer is subject to protest.

This public notice also includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

The Department seeks public comment on recently filed district transfer applications listed below. The deadline for comments or protests to the transfer application must be received by the Department on or before October 23, 2014. The Department will hold a contested case hearing if: 1) a protest and $700 protest fee for non-applicant and $350.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. (If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user.)

* We are required by law to charge a fee of $25 to mail a copy of proposed and final orders on a pending permit or permit extension applications to any interested person. Please include a check made out to the Oregon Water Resources Department in the amount of $25 for each type of order you would like mailed to you. This fee entitles you to also receive a copy of the final order, when issued. (Copies of proposed and final orders are also available for viewing – at no charge – at our Salem office or at the local watermaster office or online.)
