Continuing education credits (CECs) have been assigned for the courses listed below as follows:

- ▶ “Geothermal Technique” - John Lower, Total Energy Concepts. Geothermal systems capture the ground’s natural energy and have the advantage of being simple, safe and leave virtually no footprint on th environment. Come learn about this “new” technology and its offerings for you. 1.5 CEC
- ▶ “Well Siting and Procedure Of Local Health Departments” - presenter varies depending on location of class, not offered at the Spokane class. A county overview of how to reference parcels, well siting requirements, tracking processes, water quality concerns and issues at the drilling sites. 1.0 CEC
- ▶ “Mapping as a Resource” - Robinson, Noble & Saltbush. Come learn about resources available to aid you in locating the drilling site for the county and the Department of Ecology. 1.0 CEC
- ▶ “Are You In Compliance?” - Washington State Patrol. An overview of requirements

including safety, recordkeeping, legal weights and sizes, vehicle and brake inspection, and load securement. 2.0 CECs

- ▶ “Geotechnical Drilling 101” - Larry Gregory, Gregory Drilling (only offered at the Spokane location). The right rigs for the right jobs and the equipment to go along with them on the ever-changing situations at the site can help your job run more smoothly. 1.0 CEC
