PUBLIC NOTICE OF WATER USE REQUESTS
December 8, 2015

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Alternate Reservoir Applications (ORS 537.409)**
Applications for storage permits for small ponds filed under a simplified review process.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Establishment of Mitigation Credits in the Deschutes Basin pursuant to OAR Chapter 690, Division 521 (ORS 537.746)**
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **District Permanent Transfers (ORS 540.580)**
Petitions requesting transfers in place of use within a district's boundaries.
- * **Aquifer Storage and Recovery Permit**
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to Bethanie.R.Williamson@ wrd.state.or.us.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, January 07, 2016. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, January 22, 2016.

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$500 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Alternate Reservoir Applications (ORS 537.409)

For alternate reservoir applications filed under ORS 537.409, the public is invited to comment within 60 days of this notice. The law provides that within 60 days after the Department provides public notice of the application, any person may submit detailed, legally obtained information in writing, requesting the Department to deny the application for a permit on the basis that the reservoir:

- (A) Would result in injury to an existing water right; or
- (B) Would pose a significant detrimental impact to existing fishery resources as determined on the basis of information submitted by the State Department of Fish and Wildlife.

Such comments must be submitted on or before February 06, 2016.

Proposed Final Orders Regarding Applications for Extensions of Time for Water Right Permits

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before January 22, 2016. There is no fee for submission of comments. The protest filing fee is \$350 for the applicant and \$700 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after December 22, 2015, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is December 29, 2015. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Establishment of Mitigation Credits in the Deschutes Basin

ORS 537.746 authorizes the Department to award mitigation credits in the Deschutes Basin to approved mitigation projects. Mitigation credits may be used in the Deschutes Basin, specifically the Deschutes Ground Water Study Area, to mitigate for the impacts of ground water use on surface water flows. Pursuant to OAR Chapter 690, Division 521, upon receipt of notification of a mitigation project, the Department shall give public notice of the intent to establish mitigation credits.

The public is invited to comment on establishment of mitigation credits for the project(s) described below. Comments must be received within 21 days of the date of this public notice. Comments should address the award of mitigation credits to the proposed project and its use for mitigation purposes. Included in this public notice is a preliminary determination as to the amount of mitigation credits that may be available from the proposed project.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0888. Protests must be received by the Department on or before January 07, 2016, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-12065 filed by International Paper Company, 3521 Old Salem Road NE, Albany, OR 97321, proposes a change in point of diversion, place of use, and character of use under Certificate 85736. The right allows the use of 7.75 cubic feet per second from the Willamette River in Sec. 32, T10S, R3W, WM for industrial/manufacturing use in Sects. 29, 32, and 33. The applicant proposes to move the point of diversion to within Sects. 22 and 27, T4S, R3W, WM, to change the place of use to within the service boundaries McMinnville Water and Light, City of Dayton, City of Lafayette, and City of Carlton, and to change the character of use to municipal use. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before January 07, 2016. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

District Permanent Transfers (ORS 540.580)

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use.

This public notice includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

Any potentially affected holder of an existing water right may file, jointly or severally, with the department, a protest against approval of the petition on or before January 07, 2016. The Department will hold a contested case hearing if: 1) a protest and \$700 protest fee for non-applicant and \$350.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user. Within 20 days after the Department issues a final order, the district or any protestant may file with the Water Resources Commission exceptions to the final order.

Aquifer Storage and Recovery (ASR) Permits

ASR means the storage of water from a separate source that meets drinking water standards in a suitable aquifer for later recovery and not having as one of its primary purposes the restoration of the aquifer (ORS 537.531). Only after completion of an ASR testing program under a limited license may an applicant apply for a permanent ASR permit. The appearance of the request in the public notice commences a 60-day public comment period for the application. Following the public comment period, the Director shall issue a proposed final order on the permit application. Notice of the proposed final order shall be given in the weekly notice published by the Department.
