## **Initial Review and Proposed Final Orders**

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

### **Initial Review Stage (IR)**

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

**The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, April 21, 2016.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

### **Proposed Final Order Stage (PFO)**

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

**The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, May 06, 2016.**

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$500 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

**Proposed Final Orders Regarding  
Applications for Extensions of Time for Water Right Permits**

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

**Extension of Time Public Notice and Comment Procedures**

**Written comments on or written protests against a PFO must be submitted on or before May 06, 2016.** There is no fee for submission of comments. The protest filing fee is \$350 for the applicant and \$700 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

## Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licenses must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after April 05, 2016, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing "LL Application" under "Scanned Documents."

## Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

**The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is April 12, 2016.** Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

## Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0807. Protests must be received by the Department on or before April 21, 2016, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

**T-11738** filed by Michael A. Becker, PO Box 1159, La Grande, OR 97850, proposes an additional point of diversion and a change the place of use under two existing decreed water rights, Umatilla River Decree, J.E. Smith Livestock Co, Vol. 3, Pg. 127 and Browns Dairy, Vol. 15. 378. These water rights both allow the use of 1/80th of one cfs from a diversion on the Umatilla River in Sec. 14, T2N, R31E, WM, for irrigation within in Sects. 14 and 15, T2N, R31E, WM. The applicant proposes an additional point of diversion on Umatilla River within Sec. 15, and change the place of use elsewhere within Sects. 14 and 15. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540, OAR 690-380-2110 and 690-380-5000.

**T-12115** filed by FJD 2 LLC, 13445 SW Davies Rd, Beaverton, OR 97008, proposes an additional point of appropriation and place of use changes under Registration Application GR-1592 (Certificate of Registration GR-1540). The registration allows the use of 313 gpm from a well in Sec. 30, T4S, R2W, WM for irrigation in Secs. 30 and 31. The applicant proposes an additional point of appropriation in Sec. 30, T4S, R2W, WM, and to change the place of use within Secs. 30 and 31. The Water Resources Department proposes to approve the modification, based on the requirements of ORS Chapter 540 and OAR 690-382-1000.

**T-11972** filed by Raphael and Sandra Davis, 48306 Cribbage Lane, Robert and Stacy Cox, 50214 Hwy 402, both of Monument, OR 97864, and Harold and Dixie Reynolds, 4202 SW Vista Ave., Pendleton, OR 97801, propose a change in points of diversion under Certificate 36598. Certificate 36598 allows the use of 1/40th of one cubic foot per second (cfs) per acre irrigated to June 1 and 1/80th of one cfs per acre thereafter from diversions on Cottonwood Creek within Sec. 12, T9S, R27E, WM, and within Sec. 18, T9S, R28E, WM for irrigation in Sects. 1 and 12, T9S, R27E, WM. The applicants propose to change the points of diversion within Sects. 12 and 18. The Water Resources Department proposes to deny the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000 due to injury of Instream Right Certificate 63251. The Department is seeking a recommendation from both the Oregon Department of Fish and Wildlife (ODFW) and Oregon Parks and Recreation Department (OPRD) to consent to the injury under OAR 690-380-5050. Transfer Application T-11972 will be denied unless ODFW and OPRD recommend consent to injury of the instream water right because T-11972 would result in a net benefit to the resource, and no protests are filed.

**T-11973** filed by John and Deborah Cole, PO Box 421A, Leonard P. Osburn, 42018 Deer Cr Road, Ada McMillan, 50233 Hwy 402, Michele Engle, 50339 Hwy 402, all of Monument, OR 97864, and Daryl Andersen, PO Box 402, Westhope, ND 58793, propose a change in points of diversion under Certificates 24889, 24910 and 8419. Certificates 24889 and 24910 both allow the use of 1/40th of one cubic foot per second (cfs) per acre irrigated to June 1 and 1/80th of one cfs per acre thereafter from diversions on Cottonwood Creek within Sec. 18, T9S, R28E, WM, for irrigation in Sects. 1 and 12, T9S, R27E, WM and within Sec. 7, T9S, R28E, WM. Certificate 8419 allows the use of 1/80th of one cfs from a diversion on Cottonwood Creek within Sec. 18, T9S, R28E, WM, for irrigation in Sec. 12, T9S, R27E, WM and within Sec. 7, T9S, R28E, WM. The applicants propose to change the points of diversion all to within Sec. 18, T9S, R28E, WM. The Water Resources Department proposes to deny the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000 due to injury of Instream Water Right Certificate 63251. The Department is seeking a recommendation from both the Oregon Department of Fish and Wildlife (ODFW) and Oregon Parks and Recreation Department (OPRD) to consent to the injury under OAR 690-380-5050. Transfer Application T-11973 will be denied unless ODFW and OPRD recommend consent to injury of the instream water right because T-11973 would result in a net benefit to the resource, and no protests are filed.

**T-11971** filed by Roy Milton, PO Box 104, Dannie and Wanda Derowitsch, 50300 Hwy 402, both of Monument, OR 97864, propose a change in place of use and points of diversion under Certificates 80230, 36481 and 17283. Certificate 80230 allows the use of 0.07 cubic foot per second (priority date July 5, 1979); Certificate 36481 allows the use of 0.28 cfs (priority date December 9, 1917) and Certificate 17283 allows the use of 0.51 cfs (priority date April 20, 1944), all from Cottonwood Creek within Sec. 18, T9S, R28E, WM, for irrigation in Sec. 12, T9S, R27E, WM. The applicants propose to move the points of diversion approximately 700 feet upstream within Sec. 18, T9S, R28E, WM. The Water Resources Department proposes to deny the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000, due to injury of an instream water right. The Department is seeking a recommendation from Oregon Department of Fish and Wildlife (ODFW) and Oregon Parks and Recreation Department (OPRD) under OAR 690-380-5050. T-11971 will be denied unless ODFW and OPRD recommend the Department consent to the injury of the instream right because T-11971 would result in a net benefit to the resource, and no protests are filed.

## Transfer Applications: Temporary Transfer

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or enlarge the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.

## **District Temporary Transfers (ORS 540.570)**

A district with a manager may request to temporarily make the following changes in water rights within district boundaries for one irrigation season: (1) The place of use of a water use subject to transfer; (2) The point of diversion/appropriation to facilitate a change in place of use; (3) The type of use from a primary right to a supplemental right; and (4) From a surface water point of diversion to a ground water appropriation.

The Department shall approve the request provided it does not cause injury to existing right or expand the water use. A district temporary transfer may be conditioned or revoked at any time to avoid injury to other water rights. The use of water reverts to the authorized place of use, type of use, point of diversion/appropriation upon expiration of the temporary change.

The Department seeks public comments on the recently filed district temporary transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before April 21, 2016. The Department shall consider the comments in determining whether to condition, reject, or revoke a temporary district transfer.
