RULE SUMMARY

A reservation of water for future economic development sets aside a quantity of water for multipurpose storage to meet future needs. The rules establishing the Hood Basin reservations are set to expire on October 17, 2016, unless extended in rule by the Water Resources Commission. This revised rule would extend reservations of water for future economic development for the West Fork Hood River Subbasin, East Fork Hood River Subbasin, Neal Creek Subbasin, Mosier Creek Subbasin, Eightmile Creek Subbasin and Fifteenmile Creek Subbasin of the Hood Basin for an additional 20 years, and would change reporting requirements that apply to the Oregon Department of Agriculture and Oregon Water Resources Department. In addition, the rules include expansion of classified uses to clarify that the allowable uses include agricultural, commercial, and flow augmentation for instream use; pursuant to ORS 538.200, addition of withdrawal of rivers that form waterfalls; and to address inconsistencies in terminology.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing negative economic impact of the rule on business.
