## **Initial Review and Proposed Final Orders**

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

### **Initial Review Stage (IR)**

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

**The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, July 07, 2016.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

### **Proposed Final Order Stage (PFO)**

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

**The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, July 22, 2016.**

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$500 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

## Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after June 21, 2016, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing "LL Application" under "Scanned Documents."

## Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. To get assistance with submitting protests please call 503-986-0807. Protests must be received by the Department on or before July 07, 2016, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

**T-11921** filed by Central Oregon Irrigation District, 1055 SW Lake Court, Redmond, OR 97756 and City of Redmond, 243 E. Antler Avenue #100, Redmond, OR 97756, proposes a place of use and character of use change under Certificate 83571. The applicant proposes to create an instream use in Deschutes River from the point of diversion to Lake Billy Chinook at a maximum of 4.488 cfs, and to establish mitigation credits in the Deschutes Groundwater Study Area. The applicant has also requested that the portion of Certificate 76714 that is layered with Certificate 83571 be canceled. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540, OAR 690-380-5000 and OAR 690-077-0075. The Department has also concluded that the proposed transfer appears to result in mitigation credits pursuant to OAR 690-521-0300 & OAR 690-521-0400.

**T-12045** filed by KCK Partners LLC, 11483 SE Amity-Dayton Hwy, Dayton, OR 97114 and Northwest Farm Credit Services FLCA, 650 Hawthorne Ave Suite 210, Salem, OR 97301, proposes a point of appropriation change under Registration Application GR-980 (Certificate of Registration GR-950). The registration allows the use of 400 gpm from a well in Sec. 36, T4S, R4W, WM for irrigation in Sec. 36. The applicant proposes to move the point of appropriation within Sec. 36. The Water Resources Department proposes to approve the modification, based on the requirements of ORS Chapter 540 and OAR 690-382-1000.

## **Notice of Receipt of Recommendations to Consent to Injury**

**T-11986** filed by City of Rockaway Beach, c/o Luke Shepard, PO Box 5, Rockaway, OR 97136, proposes changes in point of diversion under Certificates 47592 and 88869. The applicant proposes to move the point of diversion (POD) approximately 200 feet upstream in Jetty Creek. The Department determined that the transfer would injure instream water right Certificate 59625, however, the Oregon Department of Fish and Wildlife (ODFW) concluded that the transfer would result in net benefits to the resource if conditioned to require the City of Rockaway Beach to: 1) The diversion must be monitored and adjusted accordingly to meet the instream water right (including 5 cfs from October 16-March 31) as flow and senior rights allow. 2) construct the proposed POD during an appropriate in-water work period, 3) install an ODFW-approved fish screen at the proposed POD.

Copies of the WRD's Preliminary Determination proposing denial of the transfer and ODFW's recommendations are available for viewing at the Salem office of the Water Resources Department. Any person may review the recommendations and submit written comments or may submit a written request for a public meeting to review the recommendations. The comments or request for a meeting must be received by WRD on or before **July 7, 2016**.

WRD will provide copies of any comments submitted in response to this notice to ODFW. If a meeting is requested, WRD will schedule a joint public meeting with ODFW to review the recommendations. To review the recommendations, contact Joan Smith at 503-986-0892 or e-mail [Joan.m.smith@wrд.state.or.us](mailto:Joan.m.smith@wrд.state.or.us). Written comments and requests for a public meeting should be mailed to:

Salem, OR 97301-1266 or faxed to 503-986-0903.

**T-12160** filed by the Oregon Department of Fish and Wildlife (ODFW), proposes an additional point of diversion under Certificates 53427 and 82966. Certificate 53427 allows the use of 45.0 cfs, Certificate 82966 allows the use of 5.0 cfs both from the Clackamas River in Sec. 19, Lot 2, T3S, R4 E, WM for fish hatchery/fish culture use in Sec. 19, T3S, R4E, WM. The applicant proposes an additional point of diversion approximately 0.6 mil upstream in Sec. 20, T3S, R4E, WM. The Water Resources Department determined that the transfer would injure instream water right Certificate 59491.

The ODFW concluded that the transfer would result in net benefits to the resource due to an instream transfer of 1.5 cfs from Rivermill Dam to the mouth of the Clackamas River, increased year-round flow and improved water quality in Dog Creek, increased attraction into Dog Creek to reduce hatchery fish straying, and protections to native fish provided by the updated fish screen.

Copies of the WRD's Preliminary Determination proposing denial of the transfer and ODFW's recommendation are available for viewing at the Salem office of the Water Resources Department. Any person may review the recommendation and submit written comments or may submit a written request for a public meeting to review the recommendation. The comments or request for a meeting must be received by WRD on or before **July, 7 2016**.

WRD will provide copies of any comments submitted in response to this notice to ODFW. If a meeting is requested, WRD will schedule a joint public meeting with ODFW to review the recommendation. To review the recommendation, contact Tracy Fox at 503-986-0827 or by e-mail [Tracy.L.Fox@wrд.state.or.us](mailto:Tracy.L.Fox@wrд.state.or.us). Written comments and requests for a public meeting should be mailed to:

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or enlarge the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.

## District Permanent Transfers (ORS 540.580)

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use.

This public notice includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

Any potentially affected holder of an existing water right may file, jointly or severally, with the department, a protest against approval of the petition on or before **July 07, 2016**. The Department will hold a contested case hearing if: 1) a protest and \$700 protest fee for non-applicant and \$350.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user. Within 20 days after the Department issues a final order, the district or any protestant may file with the Water Resources Commission exceptions to the final order.
