Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, October 27, 2016. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, November 11, 2016.

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$500 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after October 11, 2016, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing "LL Application" under "Scanned Documents."

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0807. Protests must be received by the Department on or before October 27, 2016, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

**Notice of Proposed Final Order on an Amendment to
Deschutes Valley Water District's Opal Springs Hydroelectric Project**

The Oregon Water Resources Department seeks public comments and/or protests on the Proposed Final Order of an Amendment to the Opal Springs Hydroelectric Project under water right Permit S-47591. If you would like a copy of the proposed final order, you must send a request with \$10.00 to the Hydroelectric Section, 725 Summer St, NE, Suite A, Salem, OR 97301-1271. If you have questions, please contact Mary Graineey (Mary.S.Graineey@ wrd.state.or.us) 503-983-0833.

Applicant: Deschutes Valley Water District (DVWD)
Address: 881 SW Culver Highway
Madras, OR 67741
County: Jefferson

Amendment: To increase the elevation of the diversion inlet from 2000 feet mean sea level (msl) to 2012 msl to facilitate operation of a fish ladder and anadromous fish passage. The water diversion from the Crooked River for hydroelectric use is authorized under Permit S-47591. The reservoir's maximum operating pool would inundate approximately 3.9 additional acres under management by the U.S. Bureau of Land Management. The new pool would approach, but not encroach on, the downstream boundary of the Wild and Scenic segment of the Crooked River. This Amendment would result in no increase in the total diversion of 1772.5 cfs authorized under the Project. This increased head would add 2,417 theoretical horsepower to the project, but no increase is being made to the turbine, generator or nameplate generation capacity. This proposed Amendment is endorsed by Oregon Department of Fish and Wildlife (ODFW) as meeting the standards of the State Fish Passage Law and is agreed upon in an October 2015 Settlement Agreement signed by the DVWD, U.S. Bureau of Indian Affairs, U.S. Bureau of Land Management, U.S. Fish and Wildlife Service, U.S. National Marine Fisheries, ODFW, and Trout Unlimited.

Any person may file with the Department a protest against the approval of the application on the grounds of injury to an existing water right and impacts to fish and wildlife values or water quality.

The deadline for comments or protestss to the Amendment to Opal Springs Hydroelectric Project is 5 pm, Monday, November 14, 2016.

Please send comments or objections to:
