PUBLIC NOTICE OF WATER USE REQUESTS
December 20, 2016

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Extension of Time Checkpoint Progress Reports filed pursuant to OAR 690-315**
Documents the progress made toward development of the water use project since approval of the last permit extension and/or the last progress report checkpoint. (OAR 690-315 pertains to permit extension applications filed on or after July 1, 2001.)
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Aquifer Storage and Recovery (ASR) Limited Licenses**
Requests for use of water in an ASR testing program for 5 years or less. Licenses are subordinate to other rights if they are not based on use under an existing water right.
- * **Renewal of Aquifer Storage and Recovery (ASR) Limited Licenses (OAR 690-350-020(5)(c))**
Requests to renew ASR Limited Licenses for 5 years or less.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Applications: Permit Amendments**
Requests to amend permits.
- * **Transfer Applications: District Permanent for Place of Use – (ORS 540.580)**
Petitions requesting permanent changes in place(s) of use within a district’s boundary.
- * **Transfer Notice: District Permanent Transfers for Place of Use - ORS 540.580(4)**
District notices filed for place of use changes within a district’s boundary.
- * **Ground Water Registration Modifications**
Applications requesting Department recognition of changes in point of appropriation, place of use and character of use under a ground water certificate of registration.
- * **Water Management and Conservation Plans**
Water management and conservation plans submitted by municipalities and agricultural water suppliers under provisions of OAR Chapter 690, Division 86.
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.

The Public Notice is published each week on the Department’s web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to Marissa.L.Andrews@oregon.gov

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, January 19, 2017. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, February 03, 2017.

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$500 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Proposed Final Orders Regarding Applications for Extensions of Time for Water Right Permits

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before February 03, 2017. There is no fee for submission of comments. The protest filing fee is \$350 for the applicant and \$700 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Extensions of Time Progress
Checkpoint Progress Reports filed pursuant to OAR 690-315

Consistent with OAR 690-315-0050(6), the Department will accept public comment on the following Extension of time Checkpoint Progress Reports until January 19, 2017. Comments must be in writing and must indicate the application file and permit numbers. Following the comment period, the Department shall review evidence to determine whether or not the permit holder has been diligent in developing and perfecting the water use permit and has complied with all terms and conditions of the permit and/or extension of time. Additionally, the Department will provide notice of its determination to anyone who has submitted comments.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after January 03, 2017, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing “LL Application” under “Scanned Documents.”

Renewal of Aquifer Storage and Recovery (ASR) Limited Licenses

ASR means the storage of water from a separate source that meets drinking water standards in a suitable aquifer for later recovery and not having as one of its primary purposes the restoration of the aquifer (ORS 537.531). The use of water for ASR testing purposes requires a limited license pursuant to ORS 537.534. The requirements and procedures of an ASR limited license are different than those for limited licenses pursuant to ORS 537.143. Only after completion of an ASR testing program under a limited license may an applicant apply for a permanent ASR permit. The appearance of a renewal request in the public notice commences a 30-day public comment period. Following the public comment period, the Department may request additional information regarding the renewal request, renew the limited license, renew the limited license with additional conditions, or deny the request.

An ASR Limited License may be renewed if the applicant demonstrates to the Director's satisfaction that further testing is necessary and that the applicant complied with the terms of the limited license. The standards, findings and process used in the license renewal process shall be as provided in OAR 690-350-0020. The Director may renew an ASR Limited License for a term of not more than 5 years.

Aquifer Storage and Recovery (ASR) Limited Licenses

ASR means the storage of water from a separate source that meets drinking water standards in a suitable aquifer for later recovery and not having as one of its primary purposes the restoration of the aquifer (ORS 537.531). The use of water for ASR testing purposes requires a limited license pursuant to ORS 537.534. The requirements and procedures of an ASR limited license are different than those for limited licenses pursuant to ORS 537.143. Only after completion of an ASR testing program under a limited license may an applicant apply for a permanent ASR permit. The appearance of an application in the public notice commences a 30-day public comment period. Following the public comment period, the Department may request additional information regarding the application, issue the limited license, issue the limited license with additional conditions, or deny the request.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is January 10, 2017. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before January 19, 2017. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0807. Protests must be received by the Department on or before January 19, 2017, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-12338 filed by Golden Rule Farms Inc., P.O. Box 255, Christmas Valley, OR 97641, proposes a change in point of appropriation and a change in place of use under Certificate 82390. Certificate 82390 allows the use of 0.022 cfs from a well in Sec. 33, T25S, R31E, WM for irrigation in Sec. 28, T25S, R31E, WM. The applicant proposes to move the point of appropriation to Sec. 6, T27S, R34E, WM and to change the place of use to Sec. 6, T27S, R34E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-12337 filed by Golden Rule Farms Inc., P.O. Box 255, Christmas Valley, OR 97641, proposes a change in points of appropriation and a change in places of use under Certificates 65928 and 82390. Certificate 65928 allows the use of 1.95 cfs from two wells in Sec. 28, T25S, R31E, WM for irrigation in Sec. 28. The applicant proposes to move the points of appropriation to Sects. 1 and 2, T23S, R26E, WM and to change the place of use to within Sects. 1 and 2. Certificate 82390 allows the use of 1.36 cfs from a well in Sec. 33, T25S, R31E, WM for irrigation in Sects. 28 and 33, T25S, R31E, WM. The applicant proposes to move the point of appropriation to Sec. 1, T23S, R26E, WM and to change the place of use to Sec. 1, T23S, R26E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-12336 filed by Golden Rule Farms Inc., P.O. Box 255, Christmas Valley, OR 97641, proposes a change in point of appropriation and a change in place of use under Certificate 82390. The right allows the use of 0.39 cfs from a well in Sec. 33, T25S, R31E, WM for irrigation in Sec. 28, T25S, R31E, WM. The applicant proposes to move the point of appropriation to Sec. 1, T27S, R31E, WM and Sec. 6, T27S, R32E, WM and to change the place of use to Sec. 6, T27S, R32E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

Transfer Applications: Permit Amendments

The holder of a water right permit may apply to change a point of diversion or appropriation or to change the place of use pursuant to ORS 537.211 (4).

Notice is given that the following applications for Permit Amendments have been received by the Department. If the proposed change in point of diversion or appropriation is for a distance greater than 1/4 mile or includes intervening diversion points, notice also will be published in a local newspaper.

Applications for District Permanent Transfer for Place of Use

A district may request to permanently change the place of use within district boundaries. A district may provide notice to the Department of a change before it is made, and shall submit a district permanent application prior to the end of the calendar year in which the change occurs. The Department shall approve the transfer application provided it does not cause injury to existing water rights or expand the water use.

This public notice includes district notices of proposed changes. The Department will accept comments on injury and enlargement of changes in place of use associated with the notice and use those comments in the review of the proposed change.

Any potentially affected holder of an existing water right may file, jointly or severally, with the department, a protest against approval of the petition on or before January 19, 2017. The Department will hold a contested case hearing if: 1) a protest and \$700 protest fee for non-applicant and \$350.00 protest fee for applicant are received within the time allowed; or 2) the Department finds a hearing is needed to determine whether the proposed changes would result in injury to existing rights. If a water user believes that a proposed change could injure a water delivery within a district's boundaries, the matter will be resolved directly between the district and the water user. Within 20 days after the Department issues a final order, the district or any protestant may file with the Water Resources Commission exceptions to the final order.

Transfer Applications: Ground Water Registration Modification

The holder of a ground water certificate of registration may request that the Department recognize a change in point of appropriation, place of use or character of use under the ground water registration. Modifications of ground water registrations are authorized under ORS 537.610(4) and OAR Chapter 382.

The Department seeks public comment on the recently-filed applications for recognition of modifications in ground water registrations listed below. Any person may comment on an application for a ground water registration modification. Comments must be received by the Department on or before January 19, 2017. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be recognized after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Water Management and Conservation Plans

The Department is required to give notice and to invite public review and comment on Water Management and Conservation Plans submitted pursuant to OAR Chapter 690, Division 086. The Department will consider all public comments in its review of the draft plan and will report the results of the review to the water supplier 90 days from the time the plan was submitted.

Any person may review and comment on a draft plan on or before January 19, 2017. The plans are available for viewing at the Salem office of the Water Resources Department. Comments should focus on elements in the draft that do not meet the requirements of OAR Chapter 690, Division 086 and should include suggestions on how to bring the draft into compliance with the rules.

Plans have been submitted by the following agricultural and municipal water suppliers:

Stanfield Irrigation District (Agricultural)

To review any of the above plan(s) or to provide comments on the plan(s), contact Chris Kowitz at 503-986-0883 or Chris.C.Kowitz@oregon.gov.

Certificate Issuance

Following is a list of certificates that have been recently issued. If you are viewing this electronically then you should be able to view the certificate by clicking on the underlined blue text. Appeal rights are provided on each certificate document.

If under the file number the “App:” abbreviation for application is provided then any person owning an application, permit or water right certificate subsequent in priority to a certificate listed here may file a protest within three months of issuance of the certificate. See Oregon Revised Statutes 537.260. Rules governing protests are in Oregon Administrative Rules Chapter 690 division 002. Any protest must be accompanied by a protest fee of \$700. * We are required by law to charge a fee of \$25 to mail a copy of proposed and final orders on a pending permit or permit extension applications to any interested person. Please include a check made out to the Oregon Water Resources Department in the amount of \$25 for each type of order you would like mailed to you. This fee entitles you to also receive a copy of the final order, when issued. Copies of proposed and final orders are also available for viewing (at no charge) at our Salem office, at the local watermaster office, or online.
