PUBLIC NOTICE OF WATER USE REQUESTS
February 7, 2017

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Alternate Reservoir Applications (ORS 537.409)**
Applications for storage permits for small ponds filed under a simplified review process.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Municipal permit extension applications referred to Oregon Department of Fish and Wildlife for review under provisions of OAR 690- 315-0080.**
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.
- * **Transfer Applications: District Permanent for Place of Use - ORS 540.580**
Petitions requesting permanent changes in place(s) of use within a district's boundary.

- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Applications: Permit Amendments**
Requests to amend permits.
- * **Transfer Notice: District Permanent Transfers for Place of Use- ORS 540.580(4)**
District notices filed for place of use changes within a district's boundary.
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.
- * **Extending Comment Period for Hells Canyon Hydroelectric Project**

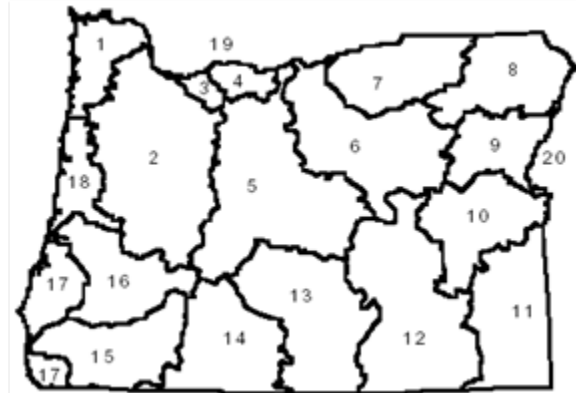

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to Marissa.L.Andrews@oregon.gov.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, March 09, 2017. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, March 24, 2017.

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$500 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Alternate Reservoir Applications (ORS 537.409)

For alternate reservoir applications filed under ORS 537.409, the public is invited to comment within 60 days of this notice. The law provides that within 60 days after the Department provides public notice of the application, any person may submit detailed, legally obtained information in writing, requesting the Department to deny the application for a permit on the basis that the reservoir:

- (A) Would result in injury to an existing water right; or
- (B) Would pose a significant detrimental impact to existing fishery resources as determined on the basis of information submitted by the State Department of Fish and Wildlife.

Such comments must be submitted on or before April 08, 2017.

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **March 09, 2017**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the redirection point(s).

**Pending Municipal Permit Extension Applications
Sent to Oregon Department of Fish and Wildlife for Review**

Consistent with OAR 690-315-0080 the Department must notify Oregon Department of Fish and Wildlife of certain pending municipal water use extension applications. If applicable under OAR 690-315-0080 any undeveloped portion of a municipal permit must be conditioned to maintain the persistence of listed fish species in the portions of waterways affected by water use under the permit. The following application was referred to the Oregon Department of Fish and Wildlife on **January 24, 2017.**

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after February 21, 2017, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing “LL Application” under “Scanned Documents.”

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is February 28, 2017. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before March 09, 2017. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0807. Protests must be received by the Department on or before March 09, 2017, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-12496 filed by Guido Land and Equipment Co LLC and Callahan Ridge, LLC, 640 Shady Drive, Roseburg, OR, 97471, proposes additional points of diversion, change in place of use and change in character of use under Certificates 35454 and 43742; additional points of diversion, a change in point of diversion, change in place of use, and and change in character of use under Certificates 49020 and 61946; a change in point of diversion, change in place of use and change in character of use under Certificates 49118 and 91507. Certificate 35454 allows the use of 0.23 cfs from the South Umpqua River in Sec. 4, T27S, R6W, WM for irrigation in Sec. 4. The applicant proposes additional points of diversion in Sects. 4 and 5, T27S, R6W, WM and to change the place of use to Sects. 32 and 33, T26S, R6W, WM and Sects. 4 and 5, T27S, R6W, WM and to change the character of use to quasi-municipal use. Applications for District Permanent Transfer for Place of Use

A district may request to permanently change the place of use within district boundaries pursuant to ORS 540.580. A petition (application) for a district permanent water right transfer may be submitted subsequent to (specific noticing requirements apply) or prior to the change in place of use, but no later than the end of the calendar year in which the change occurs. The petition may include an unlimited number of place of use transfers within the same petition. Any recently filed Application for District Permanent Water Right Transfer for Place of Use is listed below.

Public comments may be submitted by any person (please follow the instructions on the last page of this public notice). A protest may be filed by any potentially affected holder of an existing water right, either jointly or severally with other persons, provided the protest is not by a user within a district alleging injury to the delivery of water by the district. Each person submitting a protest shall raise all reasonably ascertainable issues and submit all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue precludes consideration of the issue during the hearing. Protests must be accompanied by a \$700 protest fee for non-applicants and a \$350 protest fee for the applicant, and filed in accordance with OAR Chapter 690, Division 2. **Comments or protests must be received by the Department on or before March 09, 2017.**

Pursuant to ORS 540.580(8), if a water user within the district files a protest claiming injury to a water right delivery by the district, no contested case hearing shall be required, but the district shall resolve the matter directly with the water user.

EXTENDING COMMENT PERIOD

SECOND UNIFIED STATE POSITION Hells Canyon Complex Hydroelectric Project Oregon State Water Rights HE 161, HE 188 and HE 189

Oregon Water Resources Department (OWRD) seeks public comment on the Second Unified State Position (SUSP) concerning the relicensing of the Hells Canyon Complex Hydroelectric Project. Oregon law requires state agencies to conduct a coordinated review of hydroelectric projects seeking federal license and state water right renewal. The coordinated review is conducted by OWRD and other affected state agencies referred to as the Hydroelectric Application Review Team (HART).

In addition to OWRD, the HART for this Project includes the Oregon Department of Environmental Quality (ODEQ), Oregon Department of Fish and Wildlife (ODFW), Oregon Parks and Recreation Department (OPRD), Oregon State Marine Board, and the Oregon Department of State Lands.

The SUSP includes: proposed recommendations to the Federal Energy Regulatory Commission (FERC) for mitigation measures to be included in a FERC license, a draft proposed final order to reauthorize the water rights, and a draft water right certificate. Section 10(j) recommendations, terms and conditions were provided to FERC in January 2006. The proposed water quality certification is available at the following link:

<http://www.oregon.gov/deq/wq/wqpermits/Pages/Section-401-Hydropower.aspx>

The SUSP documents are available at this link:

<http://filepickup.wrd.state.or.us/files/uploads/Hells%20Canyon%20Reauthorization%20Documents/>

The comment period has been extended two weeks. Comments on these documents must be received by the Department by **February 28, 2017**.

Project Name:	Hells Canyon Complex Hydroelectric Project
County:	Wallowa, Baker
Stream and Basin:	Snake River
State License Numbers:	HE 161, HE 188, HE 189
State Expiration Dates:	December 31, 2017
FERC Docket Number:	p-1971

Project Description: The Hells Canyon Hydroelectric Project is located on the Oregon-Idaho border of the Snake River. The Project consists of a three-dam complex with associated reservoirs and powerhouses constructed from 1957-1967. These dams are Brownlee, Oxbow and Hells Canyon. The Project lies 45 miles east of Baker City, Oregon, 20 miles northwest of Cambridge, Idaho, and 90 miles northwest of Boise, Idaho.

(Continued on next page)

The State will consider comments received when revising and submitting the Final Unified State Position to FERC at the time that ODEQ finalizes its decision on the water quality certification under the Clean Water Act.

Please send comments on this SUSP, including the draft proposed final order on the reauthorization of water rights HE 161, 188, and 189 to:

or email to Mary.S.Grainey@wrд.state.or.us

Comments must be received by 5:00 p.m. on, **February 28, 2017**.

Oregon Department of Environmental Quality has concurrently issued a proposed water quality certification for the relicensing of the Hells Canyon Complex Hydroelectric Project. Comments are also due by **February 28, 2017**. Information on the DEQ proposed certification documents is available at the following link:
