## **Initial Review and Proposed Final Orders**

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

### **Initial Review Stage (IR)**

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

**The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, April 20, 2017.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

### **Proposed Final Order Stage (PFO)**

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

**The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, May 05, 2017.**

The protest filing fee is \$350 for the applicants and \$700 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$500 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

## **Applications for Allocation Of Conserved Water**

The following applications for allocation of conserved water have been received pursuant to ORS 537.455 to 537.500 and OAR Chapter 690, Division 18. In reviewing the applications, the Department will consider whether the diversion for the uses allowed under the original water right will be reduced by the conservation project, whether existing water rights will be protected from injury, and whether the project is in compliance with local comprehensive land use plans.

**CW-97** filed by Barbara and Fred Foulke, 12145 Elkins Road, Monmouth, OR 97361, proposes to conserve water by converting from sprinklers to drip irrigation. The conservation project from a well, tributary to the Willamette River, is expected to conserve approximately 0.09 cubic feet per second (CFS) and 39.7 acre-feet (AF) under Certificate 48577 with a priority date of March 31, 1975. The Applicants propose 25% (0.02 cfs, 9.9 AF) of the conserved water be protected in the source aquifer for Certificate 48577.

The project appears to be consistent with the requirements under ORS 537.470. Any interested person may submit written comments for the applications. Comments must be received within 20 days of the last day of publication, **03/21/2017**. Comments should be sent to the attention of the ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301.

## Establishment of Mitigation Credits in the Deschutes Basin

ORS 537.746 authorizes the Department to award mitigation credits in the Deschutes Basin to approved mitigation projects. Pursuant to OAR Chapter 690, Division 521, upon receipt of notification of a mitigation project, the Department shall give public notice of the intent to establish mitigation credits.

The public is invited to comment on establishment of mitigation credits for the project(s) described below. Comments must be received within 21 days of the date of this public notice. Comments should address the award of mitigation credits to the proposed project and its use for mitigation purposes. Included in this public notice is a preliminary determination as to the amount of mitigation credits that may be available from the proposed project.

## Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after April 04, 2017, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing "LL Application" under "Scanned Documents."

## Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

**The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is April 11, 2017.** Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

## **Transfer Preliminary Determinations**

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0807. Protests must be received by the Department on or before April 20, 2017, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.
