## **Initial Review and Proposed Final Orders**

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

### **Initial Review Stage (IR)**

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

**The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, June 22, 2017.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

### **Proposed Final Order Stage (PFO)**

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

**The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, July 07, 2017.**

The protest filing fee is currently \$350 for the applicants and \$700 for non-applicants. ***It is likely that all of the protest related fees will increase on July 1, 2017. You should contact the Department to confirm the correct fee before filing any protest or request for standing after June 30, 2017.*** Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$200 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$500 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

### **Extension of Time Public Notice and Comment Procedures**

**Written comments on or written protests against a PFO must be submitted on or before July 07, 2017.** There is no fee for submission of comments. The protest filing fee is currently \$350 for the applicant and \$700 for non-applicants. *It is likely that all of the protest related fees will increase on July 1, 2017. You should contact the Department to confirm the correct fee before filing any protest or request for standing after June 30, 2017.* Detailed requirements for filing a protest will be sent with copies of the PFO.

## Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after June 06, 2017, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing “LL Application” under “Scanned Documents.”

## Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

**The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is June 13, 2017.** Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

## Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$700 protest fee for non-applicant and \$350.00 protest fee for applicant. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0807. Protests must be received by the Department on or before June 22, 2017, or within 30 days of the last date of publication in a newspaper, whichever is later. ***It is likely that all of the protest related fees will increase on July 1, 2017. You should contact the Department to confirm the correct fee before filing any protest or request for standing after June 30, 2017.*** If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

## Application for District Temporary Transfer

A district with a manager may request to temporarily change a water use within district boundaries for one irrigation season pursuant to ORS 540.570. District temporary transfers may include a change: (1) in place of use; (2) in type of use of a water right to store water; (3) in type of use from a primary right to a supplemental right; (4) in point of diversion/appropriation to facilitate a change in place of use; (5) in point of diversion in response to an emergency; and (6) from a surface water point of diversion to a ground water appropriation. A district may allow proposed changes to occur upon submission of an Application for District Temporary Water Right Transfer to the Department.

The Department shall approve the request provided it does not cause injury to any existing water right or expand the water use. A district temporary transfer may be conditioned or revoked at any time to avoid injury to other water rights. The use of water reverts to the prior authorized place of use, type of use, point of diversion/appropriation upon expiration of the temporary change.

The Department is requesting public comments on the recently filed district temporary transfer application(s) listed below. Comments may be submitted by any person (please follow the instructions on the last page of this public notice). The Department shall consider all comments that pertain to the potential for injury to an existing water right or to the enlargement of the water use subject to transfer in determining whether to condition, reject or revoke a temporary transfer. **Comments must be received by the Department on or before June 22, 2017.**

**Notice of Receipt of Recommendation to Consent to Injury for  
Water Right Transfer T-12166**

[T- 12166](#) filed by Don Rathburn, PO Box 846 Battle Mountain, NV 89820, proposes a point of diversion change under Certificate 48868. The right allows the use of 0.07 cfs from North Myrtle Creek in Sec. 33, T28S, R4W, WM for irrigation in Sec.33. The applicant proposes to move the point of diversion in Sec. 33, T28S, R4W, WM. The Water Resources Department proposed to deny the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000, due to injury of an instream water right, Certificate 59837. The Department sought recommendation from Oregon Department of Fish and Wildlife (ODFW) under OAR 690-380-5050.

The ODFW concluded that the transfer would result in net benefit to the resource if the applicant consents to the cancellation of 0.01 cfs, thereby increasing the amount of water available downstream of the approved pod by 0.004 cfs. ODFW recommends the following conditions: The pod must be moved during the recommended in-water work period; and the water user shall install an ODFW approved fish screen at the new point of diversion. The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards.

Copies of WRD's Draft Preliminary Determination proposing denial of the transfer and ODFW's recommendation are available for viewing at the Salem office of the Water Resources Department. Any person may review the recommendation and submit written comments or may submit a written request for a public meeting to review the recommendations. The comments or request for a meeting must be received by WRD on or before June 22, 2017.

WRD will provide copies of any comments submitted in response to this notice to ODFW. If a meeting is requested, WRD will schedule a joint public meeting with ODFW to review the recommendations.

To review the recommendation, contact Joan smith at 503-986-0892 or e-mail [Joan.M.Smith@oregon.gov](mailto:Joan.M.Smith@oregon.gov) . Written comments and requests for a public meeting should be mailed to Attn: Joan Smith, Water Resources Department, 725 Summer St NE, Suite A, Salem, OR 97301-1266 or faxed to 503-986-0901.
