Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, February 08, 2018. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$30. (Any person paying \$30 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, February 23, 2018.

The protest filing fee is \$410 for the applicants and \$810 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$230 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$580 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after January 23, 2018, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing “LL Application” under “Scanned Documents.”

Applications for District Permanent Transfer for Place of Use

A district may request to permanently change the place of use within district boundaries pursuant to ORS 540.580. A petition (application) for a district permanent water right transfer may be submitted subsequent to (specific noticing requirements apply) or prior to the change in place of use, but no later than the end of the calendar year in which the change occurs. The petition may include an unlimited number of place of use transfers within the same petition. Any recently filed Application for District Permanent Water Right Transfer for Place of Use is listed below.

Public comments may be submitted by any person (please follow the instructions on the last page of this public notice). A protest may be filed by any potentially affected holder of an existing water right, either jointly or severally with other persons, provided the protest is not by a user within a district alleging injury to the delivery of water by the district. Each person submitting a protest shall raise all reasonably ascertainable issues and submit all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue precludes consideration of the issue during the hearing. Protests must be accompanied by a \$810.00 protest fee for non-applicants and a \$410.00 protest fee for the applicant, and filed in accordance with OAR Chapter 690, Division 2. **Comments or protests must be received by the Department on or before February 08, 2018.**

Pursuant to ORS 540.580(8), if a water user within the district files a protest claiming injury to a water right delivery by the district, no contested case hearing shall be required, but the district shall resolve the matter directly with the water user.
