RULE SUMMARY

Under current rules, except for holders of municipal water use permits, all new applications for permit extensions must be filed under the provisions of OAR Chapter 690, Division 315.

The Water Resources Department formed a Community Water Supply Work Group to address the unique issues of community water suppliers, including possible future rulemaking regarding

extensions of municipal water use permits. To provide the group more time to develop rule recommendations on permit extensions, the Department amended OAR 690-315-0010(4) to provide that the rules "shall not be effective for municipal use permits until July 1, 2003." The intent of the modification was to allow the work group more time and to indicate that holders of municipal use permits are not required to apply for an extension until July 1, 2003. However, this modification inadvertently precluded holders of municipal use permits, if they so desire, from making an extension application under OAR Chapter 690, Division 315. This rule amendment modifies OAR 690-315-0010(4) so that holders of municipal water use permits have the option of applying for a permit extension under the current provisions of OAR Chapter 690 Division 315. The modification also clarifies that holders of municipal use permits are not required to apply for an extension until July 1, 2003, unless through subsequent rulemaking, the Water Resources Commission changes the July 1, 2003 effective date to expedite development and implementation of the work group's recommendations.

**OREGON ADMINISTRATIVE RULES
WATER RESOURCES DEPARTMENT
CHAPTER 690
DIVISION 315
WATER RIGHT PERMIT EXTENSIONS**

690-315-0010

Purpose

(1) OAR 690-315-0010 through 690-315-0060 establish the procedures and standards by which the Department shall evaluate applications for extensions of time for water right permit holders to:

(a) Begin actual construction pursuant to ORS 537.248 or as otherwise authorized by law, or

(b) Complete construction or completely apply water to the full beneficial use pursuant to ORS 537.230 and 537.630.

(2) OAR 690-315-0010 through 690-315-0060 do not apply to permit holders requiring Federal Energy Regulatory Commission permits pursuant to ORS 537.240.

(3) Except for subsection (4) of this Section, these rules shall become effective July 1, 2001, superceding OAR 690-320-0010. All applications requesting extensions of time to begin construction and perfect water rights permits filed with the Department on or after July 1, 2001 shall be governed by OAR 690-315-0010 through 690-315-0075.

(4) ~~[Notwithstanding Subsection (3), these rules shall not be effective for municipal use permits until July 1, 2003. The Department has convened a work group to address issues relating to water rights for municipal water uses. The work group is developing recommendations for rules and/or legislation to address issues specific to water rights for municipal water uses, including extensions of such water rights. The Water Resources Commission shall review the progress of the work group no later than July 1, 2002, and may, through subsequent rulemaking, change the July 1, 2003 effective date in order to expedite development and implementation of the work group's recommendations.]~~ **Notwithstanding Subsection (3), until July 1, 2003, holders of municipal water use permits may, but are not required to, apply for a permit extension. During this time, for water right permits for municipal water uses that require an extension, the Department will not require submission of proof of completion, attempt to cancel, or compel an application for an extension. This time period is offered to allow the Community Water Supply Work Group to develop recommendations regarding permit extensions for community water suppliers. The Water Resources Commission may, through subsequent rulemaking, change the July 1, 2003, effective date herein in order to expedite development and implementation of the work group's recommendations.**
