**Proof of Appropriation**

690-330-010 (1) ORS 537.250(1) and 537.630(3) prescribe that the Director shall issue a certificate of water right upon satisfactory proof of appropriation. Satisfactory proof shall be following:

(a) A determination by the Department that appropriation of water to beneficial use under the terms of the permit has been accomplished to the extent authorized;

(b) A determination by the Department that appropriation of water to a beneficial use under the terms of the permit was accomplished to an extent less than authorized shall constitute proof for that portion of the appropriation.

(2) If the Department determines that proof has been made to an extent different from or less than that granted by the permit, a proposed certificate of water right shall be prepared. The proposed certificate shall describe the right determined completed under the provisions of the permit. The proposed certificate shall be mailed first class to the permittee at the last known address, together with notice that the permittee or landowner has a period of 60 days from the date of mailing to request the Department reconsider the contents of the proposed certificate of water right. If no request for reconsideration is received within the 60-day period, the Director shall issue a water right certificate to the permittee pursuant to ORS 537.250(1) or 537.630 (4).

(3) If the Department determines that proof has been made on the full extent granted by the permit, a certificate may be issued without the necessity of a proposed certificate.

(2) Diminution of a water right: A primary right may, at the request of the owner of the right, be diminished to a supplemental status to allow for a new primary right application from a more dependable source of water.

(3) Supplemental rights: Where more than one right exists, water shall be used from the primary source so long as there is sufficient quantity to satisfy the terms of the permit or certificate.
