Exemptions:

- Maintenance of existing homes
- Modifications to existing dwellings, construction of garages necessary to the use of existing homes, if screened, unobtrusive, and compatible with the scenic qualities of the area
- Changes to home-site landscaping, which do not impair vegetation screening structures from view from the river
- Construction of protective fences necessary to use of the home
- Cutting of firewood for dwelling
- Cutting of danger trees

State Parks
Department
directed by
statute to
periodically study
new waterway
recommendations

Studies for new designations Criteria

- The river is relatively free flowing and the scene as viewed from the river and related adjacent land is pleasing. Whether primitive, rural-pastoral, or these conditions are restorable.
- The river and its setting possess natural and recreation values of outstanding quality.
- The river and its setting are large enough to sustain substantial recreation use without undue impairment of the natural values of the resource or quality of the recreation experience.
