Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, January 10, 2019. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, January 25, 2019.

The protest filing fee is \$410 for the applicants and \$810 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$230 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$580 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Applications for Allocation Of Conserved Water

The following applications for allocation of conserved water have been received pursuant to ORS 537.455 to 537.500 and OAR Chapter 690, Division 18. In reviewing the applications, the Department will consider whether the diversion for the uses allowed under the original water right will be reduced by the conservation project, whether existing water rights will be protected from injury, and whether the project is in compliance with local comprehensive land use plans.

Notice of Application for Allocation of Conserved Water CW-105

CW-105 filed by Roloff Farms, Inc., 151 Bradley Street, Walla Walla, WA 99362, and Ku'uilei Orchards, LLC, 83618 Chuckhole Lane, Milton-Freewater, OR 97862, filed an application for Allocation of Conserved Water under ORS 537.470 under Certificates 92480 and 92518. The portion of Cert. 92480 is for 0.339 CFS for irrigation of 9.03 acres from the Little Walla Walla River with priority dates of 1878, 1888, 1889, and 1902. The portion of Cert. 92518 is for 3.76 CFS for irrigation of 100.34 acres from the Little Walla Walla River with priority dates ranging from 1881 – 1908. The conservation project involves converting from flood irrigation to sprinkler irrigation. The project proposes to conserve approximately 1.36 CFS with approx. 83% of the conserved water to be protected instream under the multiple priority dates. The project appears to be consistent with the requirements under ORS 537.470.

Any interested person may submit written comments for the applications. Comments must be received within 20 days of the last day of publication, **12/14/2018**. Comments should be sent to the attention of the ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301.

**Applications for Extensions of Time
to Perfect Water Right Permits filed pursuant to OAR 690-315**

Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until January 10, 2019. Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and \$25 (the charge required by law). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self-copied. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person.

Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before January 25, 2019. There is no fee for submission of comments. The protest filing fee is \$410 for the applicant and \$810 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after December 25, 2018, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing “LL Application” under “Scanned Documents.”

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is January 01, 2019. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Each person submitting a protest shall raise all reasonably ascertainable issues and submit all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue precludes consideration of the issue during the hearing. Protests must be accompanied by a \$810 protest fee for non-applicants and a \$410 protest fee for the applicant, and filed in accordance with OAR Chapter 690, Division 2. **Comments or protests must be received by the Department on or before January 10, 2019.**

Pursuant to ORS 540.580(8), if a water user within the district files a protest claiming injury to a water right delivery by the district, no contested case hearing shall be required, but the district shall resolve the matter directly with the water user.
