Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, February 07, 2019. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, February 22, 2019.

The protest filing fee is \$410 for the applicants and \$810 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$230 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$580 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Application for District Permanent Transfer for Non-Use

Pursuant to ORS 540.574, a district which is implementing a conservation plan approved by the Department, has a full-time manager, and has complied with the requirements of ORS 540.572 to 540.580 may request to permanently change the place of use for land within the district boundary no longer irrigated or susceptible of irrigation over a period of four successive irrigation seasons. The application must be submitted no later than the end of the calendar year of the fifth year of Non-Use. Any recently filed Application for District Permanent Water Right Transfer for Non-Use is listed below.

Prior to submitting to the Department an Application for District Permanent Water Right Transfer for Non-Use, the district shall provide written notice meeting the requirements of OAR 690-385-5100 to the user and any security interest holders of record in the land to which the water right is appurtenant.

Upon submitting to the Department an Application for District Permanent Water Right Transfer for Non-Use, the district shall provide notice meeting the requirements of OAR 690-385-5400 to the users of affected lands that a district permanent transfer application was submitted to the Department. The user has the right to protest the application to the Department as described in OAR 690-385-5700 within 60 days of the mailing of the notice. Any user may submit a protest.
