725 Summer Street NE Suite A
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS
April 16, 2019

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Applications for Allocation of Conserved Water**
Applications made by a water user who conserves water to use a portion of the conserved water on additional lands, lease or sell the water, or dedicate the water to instream use.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Renewal of Aquifer Storage and Recovery (ASR) Limited Licenses**
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

- * **Transfer Applications: Temporary Transfers**
Requests to temporarily change place of use and, if necessary to convey the water to the new place of use, to temporarily change the point of diversion or appropriation.
- * **Transfer Applications: District Temporary - ORS 540.570**
Petitions requesting temporary changes in water use within a district's boundary for one irrigation season.
- * **Transfer Notice: District Permanent Transfers for Place of Use- ORS 540.580(4)**
District notices filed for place of use changes within a district's boundary.
- * **Notice of Intent to Reauthorize HE 331, HE 287**
- * **Application to Reauthorize HE 319, HE 349**

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to Tonya.L.Miller@oregon.gov.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, May 16, 2019. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, May 31, 2019.

The protest filing fee is \$410 for the applicants and \$810 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$230 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$580 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Applications for Allocation Of Conserved Water

The following applications for allocation of conserved water have been received pursuant to ORS 537.455 to 537.500 and OAR Chapter 690, Division 18. In reviewing the applications, the Department will consider whether the diversion for the uses allowed under the original water right will be reduced by the conservation project, whether existing water rights will be protected from injury, and whether the project is in compliance with local comprehensive land use plans.

Notice of Application for Allocation of Conserved Water CW-110

CW-110 filed by Bruce Anderson, 94705 Oklea Dr., Junction City, OR 97448, proposes to conserve water by converting from sprinkler to drip tape emitter irrigation. The conservation project from a well, tributary to the Willamette River, in Section 30, T 15S, R 4W, W.M. is expected to conserve approximately 0.18 cubic foot per second (cfs) and 35.64 acre-feet (AF) under Certificate 40768 with a priority date of January 17, 1969. The Applicant proposes 25% (0.045 cfs, 13.50 AF) of the conserved water be protected in the source aquifer for Certificate 40768.

The project appears to be consistent with the requirements under ORS 537.470. Any interested person may submit written comments for the application. Comments must be received within 20 days of the last day of publication, **4/21/2019**. Comments should be sent to the attention of the ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301.

Proposed Final Orders Regarding Applications for Extensions of Time for Water Right Permits

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before May 31, 2019. There is no fee for submission of comments. The protest filing fee is \$410 for the applicant and \$810 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

Renewal of Aquifer Storage and Recovery (ASR) Limited Licenses

ASR means the storage of water from a separate source that meets drinking water standards in a suitable aquifer for later recovery and not having as one of its primary purposes the restoration of the aquifer (ORS 537.531). The use of water for ASR testing purposes requires a limited license pursuant to ORS 537.534. The requirements and procedures of an ASR limited license are different than those for limited licenses pursuant to ORS 537.143. Only after completion of an ASR testing program under a limited license may an applicant apply for a permanent ASR permit. The appearance of a renewal request in the public notice commences a 30-day public comment period. Following the public comment period, the Department may request additional information regarding the renewal request, renew the limited license, renew the limited license with additional conditions, or deny the request.

An ASR Limited License may be renewed if the applicant demonstrates to the Director's satisfaction that further testing is necessary and that the applicant complied with the terms of the limited license. The standards, findings and process used in the license renewal process shall be as provided in OAR 690-350-0020. The Director may renew an ASR Limited License for a term of not more than 5 years.

Max Storage Volume	475 MILLION GALLONS

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after April 30, 2019, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing "LL Application" under "Scanned Documents."

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is May 07, 2019. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before May 16, 2019. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$810 protest fee for non-applicant and \$410.00 protest fee for applicant. Call (503) 986-0815 to obtain additional information. Protests must be received by the Department on or before May 16, 2019, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-12871 filed by Lamb Weston Inc, 78153 Westland Rd., Hermiston, OR 97838, proposes additional points of appropriation under Certificate 43934. The right allows the use of 3.02 cubic foot per second (cfs) from Well No. 2 in Sec. 19, T4N,R28E, WM for Industrial (Food Processing) uses within Sects. 19 and 30, T4N, R28E, WM. The applicant proposes to two additional wells within Sects. 19 and 30, T4N, R28E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-12947 filed by Brandi Waits, 4923 Hwy 66 Ashland, OR 97520, proposes a change in point of diversion under Certificates 54029 and 54030. 54029 allows the use of 0.051 cubic foot per second from Neil Creek in Sec. 19, T39S, R2E, WM for irrigation in Sec. 19. 54030 allows the use of 0.005 cubic foot per second from Neil Creek in Sec. 19, T39S, R2E, WM for irrigation in Sec. 19. The applicant proposes to move the point of diversion in Sec. 19, T39S, R2E, WM.). The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

Transfer Applications: Temporary Transfer

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or enlarge the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.

Notice is given that the following applications for Temporary Transfers have been received by the Department:

Application for District Temporary Transfer

A district with a manager may request to temporarily change a water use within district boundaries for one irrigation season pursuant to ORS 540.570. District temporary transfers may include a change: (1) in place of use; (2) in type of use of a water right to store water; (3) in type of use from a primary right to a supplemental right; (4) in point of diversion/appropriation to facilitate a change in place of use; (5) in point of diversion in response to an emergency; and (6) from a surface water point of diversion to a ground water appropriation. A district may allow proposed changes to occur upon submission of an Application for District Temporary Water Right Transfer to the Department.

The Department shall approve the request provided it does not cause injury to any existing water right or expand the water use. A district temporary transfer may be conditioned or revoked at any time to avoid injury to other water rights. The use of water reverts to the prior authorized place of use, type of use, point of diversion/appropriation upon expiration of the temporary change.

The Department is requesting public comments on the recently filed district temporary transfer application(s) listed below. Comments may be submitted by any person (please follow the instructions on the last page of this public notice). The Department shall consider all comments that pertain to the potential for injury to an existing water right or to the enlargement of the water use subject to transfer in determining whether to condition, reject or revoke a temporary transfer. **Comments must be received by the Department on or before May 16, 2019.**

Notice of Intent to Reauthorize

Application Number: HE 331
Name: Wallowa Resources Community Solutions Inc.
County: Wallowa
Basin: Grande Ronde
Stream: Spring Creek, tributary to Wallowa Lake
State Expiration Date: December 31, 2021
Project Description: A minor hydroelectric project using 0.2 cubic feet per second (CFS) from Spring Creek, with a priority date of June 4, 1981 to generate up to 25.0 theoretical horsepower for onsite hydroelectric use. The project powerhouse is located in Township 3 South, Range 45 East, Section 28 NW 1/4, NW 1/4.

Application Number: HE 287
Name: Lynn E. Martin
County: Lane
Basin: Willamette
Stream: Rough Creek, tributary to McKenzie River
State Expiration Date: December 31, 2021
Project Description: A minor hydroelectric project using 4.5 cubic feet per second (CFS) from Rough Creek, with 2.9 CFS having a priority date of June 18, 1999 and 1.6 CFS having a priority date of November 10, 1980 to generate up to 4.0 theoretical horsepower for onsite hydroelectric use. The project powerhouse is located in Township 16 South, Range 3 East, Section 32 NW 1/4, SW 1/4.

To provide comments or receive future notices about the application and to participate in the reauthorization process, please contact Craig Kohanek at Ron.c.kohanek@oregon.gov or mail him at 725 Summer Street NE, Suite A, Salem, OR 97301-1266.

Application to Reauthorize A Minor Hydroelectric Project

The Oregon Water Resources Department seeks public comment on the following applications to reauthorize minor hydroelectric project HE 319 in Lane County and minor hydroelectric project HE 349 in Grant County. Comments on the application and requests by interested parties who want to obtain future notices must be submitted within 45 days of publication of the notice. The application and supporting documents can be viewed at the Water Resources Department, 725 Summer St. NE, Suite A, Salem, OR 97301-1271. If you would like a copy of the application please contact Craig Kohanek (503) 986-0823 or ron.c.kohanek@oregon.gov A copying fee will be assessed as allowed in ORS Chapter 536.050(1)(e).

Application: HE 319
Applicant: David & Katrina Radtke Trust
Project Address: 6975 SW Larkspur Place, Beaverton, OR 97498
Amount of water: 1.0 cubic feet per second (cfs)
Source of water: Unnamed Stream, tributary to Ten Mile Creek
Point of Diversion: SW¹/₄ SE¹/₄ of Section 25, Township 15 South, Range 12 West, W.M.
Place of Use: NW¹/₄ NE¹/₄ of Section 36, Township 15 South, Range 12 West, W.M.
Purpose: Hydroelectric for on-site use.
Power developed: Up to 9.5 Theoretical horsepower

Application: HE 349
Applicant: Joseph C. & Deborah Letosky
Project Address: PO Box 63 Dayville, OR 97825
Amount of water: 0.8 cubic feet per second (cfs)
Source of water: Overholt Creek, tributary to John Day River
Point of Diversion: SE¹/₄ SW¹/₄ of Section 14, Township 14 South, Range 33 East, W.M.
Place of Use: NW¹/₄ SE¹/₄ of Section 14, Township 14 South, Range 33 East, W.M.
Purpose: Hydroelectric for on-site use.
Power developed: Up to 16.8 Theoretical horsepower

Comments and requests to obtain future notices are due by May 31, 2019
