Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, June 27, 2019. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying \$25 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, July 12, 2019.

The protest filing fee is \$410 for the applicants and \$810 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$230 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$580 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

Applications for Allocation Of Conserved Water

The following applications for allocation of conserved water have been received pursuant to ORS 537.455 to 537.500 and OAR Chapter 690, Division 18. In reviewing the applications, the Department will consider whether the diversion for the uses allowed under the original water right will be reduced by the conservation project, whether existing water rights will be protected from injury, and whether the project is in compliance with local comprehensive land use plans.

Notice of Application for Allocation of Conserved Water CW-111 and Additional Point of Diversion

CW-111 filed by Ken & Bobbie Baker, 81705 Hwy 82, Wallowa, OR 97885, and Perry Johnston, 81703 Hwy 82, Wallowa, OR 97885, proposes to convert approx. 235.6 acres from flood irrigation to high efficiency pivot irrigation. The project on the Lostine (aka South Fork Wallowa) is expected to conserve approx. 1.98 cubic feet per second (CFS) and 353.4 acre-feet (AF) as follows:

Certificate 3153: 1883 Priority; Lostine River; conserving 0.63 CFS and 112.65 AF on 75.1 acres located in SW $\frac{1}{4}$ of Sec. 29, and NE $\frac{1}{4}$ and NW $\frac{1}{4}$ of Sec. 32, T1N, R43E, W.M.

Certificate 94327: 1883 Priority; Lostine River; conserving 0.75 CFS and 134.55 AF on 89.7 acres located in NE $\frac{1}{4}$ and SE $\frac{1}{4}$ of Sec. 32, T1N, R43E, W.M.

Certificate 94163: 1882 Priority; Lostine River, conserving 0.59 CFS and 106.2 AF on 70.8 acres located in the SE $\frac{1}{4}$ of Sec. 32, T1N, R43E, W.M. The applicants also propose the Foster Ditch as an additional point of diversion downstream approx. 1.2 miles from the Miles Ditch.

The Applicants propose 100% of the conserved water (353.4 AF) be allocated to the state for instream purposes. The Applicants propose to change the place of use for 3.3 acres of Cert. 3153 and 7.2 acres of Cert 94327 to accommodate the pivot irrigation.

The project appears to be consistent with the requirements under ORS 537.470. Any interested person may submit written comments for the applications. Comments must be received within 20 days of the last day of publication, **06/05/2019**. Comments should be sent to the attention of the ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301.

Notice of Application for Allocation of Conserved Water CW-112

On April 26, 2019, Dustin Jinks, 1061 Westside Road, Camas Valley, OR 97416, filed an application for Allocation of Conserved Water under ORS 537.470. Certificate 14664 is for 0.35 cubic feet per second (CFS) from Middle Fork of the Coquille River for irrigation of 27.8 acres with a priority date of 8/25/1939. The conservation project proposes to convert leaking aluminum piping with poly-pipe and replacing impact sprinklers with 2.0 gph drip emitters. The project proposes to conserve approx. 0.34 CFS. The applicant proposes to protect 25% (0.09 CFS) of the conserved water instream.

Any party may provide written comments directly related to CW-112 within 20 days of the last date of newspaper publication, **6/4/2019**. Comments should be sent to ACW Program, Water Resources Department, 725 Summer Street NE, Suite A, Salem, OR 97301-1266. WRD will review all comments received when determining whether to approve the proposed ACW.

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is June 18, 2019. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$810 protest fee for non-applicant and \$410.00 protest fee for applicant. Call (503) 986-0815 to obtain additional information. Protests must be received by the Department on or before June 27, 2019, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.
