

OREGON WATER RESOURCES DEPARTMENT

725 Summer Street NE Suite A
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS
June 30, 2020

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.
- * **Transfer Applications: Temporary Transfers**
Requests to temporarily change place of use and, if necessary to convey the water to the new place of use, to temporarily change the point of diversion or appropriation.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

- * **Transfer Applications: District Permanent for Place of Use - ORS 540.580**
Petitions requesting permanent changes in place(s) of use within a district's boundary.
- * **Transfer Notice: District Permanent Transfers for Place of Use- ORS 540.580(4)**
District notices filed for place of use changes within a district's boundary.
- * **Notice of Receipt of Recommendation to Consent to Injury for Water Right Transfer T-12837**
- * **Water Management and Conservation Plan Progress Reports**
Water management and conservation plan progress reports submitted by municipalities under provisions of OAR Chapter 690, Division 86.
- * **Certificate Issuance**
Included in this section is a listing of recently issued water right certificates.
- * **PC 909 Proposed Final Order**

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to Tonya.L.Miller@oregon.gov

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

IMPORTANT: Due to COVID-19, the Department’s office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, July 30, 2020. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$30. (Any person paying \$30 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, August 14, 2020.

The protest filing fee is \$410 for the applicants and \$810 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$230 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$580 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

<p>IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.</p>

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **July 30, 2020**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the redirection point(s).

Proposed Final Orders Regarding Applications for Extensions of Time for Water Right Permits

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$25. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

Extension of Time Public Notice and Comment Procedures

Written comments on or written protests against a PFO must be submitted on or before August 14, 2020. There is no fee for submission of comments. The protest filing fee is \$410 for the applicant and \$810 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after July 14, 2020, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing “LL Application” under “Scanned Documents.”

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is July 21, 2020. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before July 30, 2020. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$810 protest fee for non-applicant and \$410.00 protest fee for applicant. Call (503) 986-0815 to obtain additional information. Protests must be received by the Department on or before July 30, 2020, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

[T-12971](#) filed by Mike Wampler, Wampler Ranches, PO Box 5144, Klamath Falls, OR 97601, proposes changes in place of use and character of use under Certificates 19959 and 29534. The rights allow the use of up to 5.73 Cubic Feet Per Second (CFS) from Crane Creek in Government Lot 12, Sec. 1, T34S, R6E, W.M. and up to 3.6 CFS from Threemile Creek in Government Lot 19, Sec. 1, T34S, R6E, W.M. for Irrigation and Stock in Sec.1. The applicant proposes to create an instream use in Threemile Creek, at a maximum rate of 1.0 CFS, from the point of diversion to the mouth of Crane Creek and in Crane Creek, at a maximum of 4.24 CFS, from the point of diversion to the mouth of Crane Creek. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540, OAR 690-380-5000 and OAR 690-077-0075.

[T-12909](#) filed by Marc and Pamela Thalacker, 70625 NW Lower Bridge Way, Terrebonne, OR 97760, proposes a change in point of appropriation and a change in place of use under Certificate 75762. The right allows the use of 0.4063 cubic foot per second from a well in Sec. 17, T14S, R12E, WM for supplemental irrigation in Sec. 17, T14S, R12E, WM. The applicant proposes to move the point of appropriation to Sec. 31, T14S, R11E, WM and to change the place of use to Sec. 31, T14S, R11E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

[T-13060](#) filed by City of Independence, PO Box 7, Independence, OR 97351 proposes additional points of appropriation, a modification in point of appropriation and a modification in place of use of use under Registration Application GR-3183 (Certificate of Registration GR-3141). The registration allows the use of 250 gallons per minute from a well in Sec. 28, T8S, R4W, WM for municipal supply for the City of Independence in Secs. 21, 28 and 29, T8S, R4W, WM. The applicant proposes to add additional points of appropriation in Sec. 28, T8S, R4W, WM, move the point of appropriation in Sec. 28, T8S, R4W, WM, and to change the place of use to the City of Independence Service Area. The Water Resources Department proposes to approve the modification, based on the requirements of ORS Chapter 540 and OAR 690-382-1000.

[T-13061](#) filed by City of Independence, PO Box 7, Independence, OR 97351 proposes additional points of appropriation, a modification in point of appropriation and a modification in place of use under Registration Application G-3184 (Certificate of Registration GR-3142). The registration allows the use of 400 gallons per minute from a well in Sec. 28, T8S, R4W, WM for municipal supply for the City of Independence in Secs. 21, 28 and 29, T8S, R4W, WM. The applicant proposes to add additional points of appropriation in Sec. 28, T8S, R4W, WM to move the point of appropriation in Sec. 28, T8S, R4W, WM, and to change the place of use to the City of Independence Service Area. The Water Resources Department proposes to approve the modification, based on the requirements of ORS Chapter 540 and OAR 690-382-1000.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

[T-13062](#) filed by City of Independence, PO Box 7 Independence, OR 97351 proposes additional points of appropriation, a modification in point of appropriation and a modification in place of use under Registration Application T-3185 (Certificate of Registration GR-3143). The registration allows the use of 400 gallons per minute from a well in Sec. 28, T8S, R4W, WM for municipal supply for the City of Independence in Sects. 21, 28 and 29, T8S, R4W, WM. The applicant proposes add additional points of appropriation in Sec. 28, T8S, R4W, WM and to move the point of appropriation in Sec. 28, T8S, R4W, WM, to change the place of use to the City of Independence Service Area. The Water Resources Department proposes to approve the modification, based on the requirements of ORS Chapter 540 and OAR 690-382-1000.

[T-13227](#) filed by Jim Hatley, 64880 E. Birch Creek Rd, Pilot Rock, OR, 97868, proposes changes in place of use and point of diversion under Certificate 2488. Certificate 2488 allows the use of 0.1145 cfs from East Birch Creek, tributary to Birch Creek from a diversion within Sec. 11, T2S, R32E, WM, for irrigation within Sec. 11, T2S, R32E, WM. The applicant proposes to change the point of diversion and place of use within Sec. 11, T2S, R32E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

[T-13151](#) filed by Warren H. and Bernice S. Bean, 12909 SE 68th Parkway, Ste. 430 Tigard, OR 97223, proposes a point of diversion change under Certificates 90218 and 94129. Certificate 90218 allows the use of 0.12 cfs from the Rock Creek in Sec. 31, T4S, R1E, WM for irrigation in Sec. 31. The applicant proposes to move the point of diversion in Sec. 31, T 4S, R 1E, WM. Certificate 94129 allows the use of 0.03 cfs from Rock Creek in Sec. 31, T 4S, R1E, WM for irrigation in Sec. 31. The applicant proposes to move the point of diversion in Sec. 31, T 4S, R1 E, WM. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

[T-12366](#) filed by Chandele A. Bowen, PO Box 287, Adrian, OR 97901, proposes a change in point of diversion and a change in place of use under Certificates 4978 and 27852. Certificate 4978 allows the use of 0.51 cubic foot per second (cfs) from the Snake River in Sec. 6, T22S, R47E, WM for irrigation in Sec. 6, T22S, R47E, WM. The applicant proposes to move the point of diversion to Sec. 1, T22S, R46E, WM, and to change the place of use to Sec. 1, T22S, R46E, WM. Certificate 27852 allows the use of 1.08 cfs from the Snake River in Sec. 6, T22S, R47E, WM for irrigation to Sec. 1, T22S, R46E, WM, and supplemental irrigation in Sec. 6, T22S, R47E, WM. The applicant proposes to move the point of diversion in Sec. 1, T 22 S, R 46 E, W.M. The Water Resources Department proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

Transfer Applications: Temporary Transfer

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation. The Department shall approve the request provided it does not cause injury to existing water rights or enlarge the water use. If after the change is approved, it is found to cause injury, the approved change may be revoked. The use of water reverts to the authorized place of use upon expiration of the temporary change.

Notice is given that the following applications for Temporary Transfers have been received by the Department:

Applications for District Permanent Transfer for Place of Use

A district may request to permanently change the place of use within district boundaries pursuant to ORS 540.580. A petition (application) for a district permanent water right transfer may be submitted subsequent to (specific noticing requirements apply) or prior to the change in place of use, but no later than the end of the calendar year in which the change occurs. The petition may include an unlimited number of place of use transfers within the same petition. Any recently filed Application for District Permanent Water Right Transfer for Place of Use is listed below.

Public comments may be submitted by any person (please follow the instructions on the last page of this public notice). A protest may be filed by any potentially affected holder of an existing water right, either jointly or severally with other persons, provided the protest is not by a user within a district alleging injury to the delivery of water by the district. Each person submitting a protest shall raise all reasonably ascertainable issues and submit all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue precludes consideration of the issue during the hearing. Protests must be accompanied by a \$810 protest fee for non-applicants and a \$410 protest fee for the applicant, and filed in accordance with OAR Chapter 690, Division 2. **Comments or protests must be received by the Department on or before July 30, 2020.**

Pursuant to ORS 540.580(8), if a water user within the district files a protest claiming injury to a water right delivery by the district, no contested case hearing shall be required, but the district shall resolve the matter directly with the water user.

Notice of District Permanent Transfer for Place of Use

A district may allow a change in place of use prior to the Department issuing a final order approving a district permanent transfer application provided, in part, that (1) the District files a notice with the Department of the change in place of use prior to making the change, and (2) prior to the end of the calendar year in which the change in place of use occurs the District submits a district permanent transfer application for the same change in place of use [ORS 690-385-4100(1)(a) and (b)]. Notices for District Permanent Transfers for Place of Use submitted to the Department are listed below.

Notice of Receipt of Recommendation to Consent to Injury for Water Right Transfer T-12837

T-12837 filed by Andreas and Carole Blech, 1867 Williams Highway #260, Grants Pass, OR 97527, proposes a change in point of diversion, a change in place of use, and a change in character of use under Certificate 3943. The right allows the use of 0.81 cubic foot per second from Grave Creek in Sec. 8, T34S, R5W, WM for irrigation within Sects. 7 and 8, T34S, R5W, WM. The applicant proposes to move the point of diversion in Sec. 8, T34S, R5W, WM and to change the place of use to Sects. 7 and 8, T34S, R5W, WM and to change the character of use to mining uses. The applicant proposes to move the point of diversion approximately 560 feet upstream on Grave Creek in Sec. 8, T34S, R5W, WM. The Water Resources Department determined that the transfer would injure instream water right Certificate 72697. The Oregon Department of Fish and Wildlife (ODFW) concluded that the transfer would result in net benefits to the resource if conditioned as follows:

- a. ODFW recommends the transfer applicant (permittee) comply with terms of the associated Mitigation Proposal to minimize detrimental impacts to fish, wildlife, and/or their habitat. ODFW understands that the mitigation and following conditions will be fully incorporated into the requirements of the new certificate and may only be altered by written mutual agreement of all parties. ODFW recommends:
 - i) Regulation of the use and/or possible cancellation of the certificate if the required mitigation is not maintained. This recommendation to consent to injury is contingent upon: implementation of the mitigation measures outlined in the attached Mitigation Plan prior to diversion of water. The Mitigation Plan can be found at:
https://apps.wrd.state.or.us/apps/wr/wrinfo/wr_transfer_centric.aspx?transfer_nbr=12837&transfer_char=T
- b. As required by ORS 509.585, the permittee (transfer applicant) shall not construct, operate, or maintain any dam or artificial obstruction to fish passage without obtaining approval from the Oregon Department of Fish and Wildlife (ODFW). The permittee is hereby directed to contact an ODFW Fish Passage Coordinator prior to construction of any in-channel obstruction or prior to diversion of water that may create an artificial obstruction due to low flow.
- c. The permittee (transfer applicant) shall install, maintain, and operate fish screening on the new point of diversion consistent with current ODFW standards. Fish screening is to prevent fish from entering the proposed diversion. The required screen is to be in place and functional, and approved in writing by ODFW prior to diversion of water. The permittee is hereby directed to contact the ODFW Fish Screening Coordinator prior to diversion of water.
- d. If the riparian area is disturbed in the process of *developing the new point of diversion*, the permittee (transfer applicant) shall be responsible for restoration and enhancement of such riparian area in accordance with the Oregon Department of Fish and Wildlife's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. Prior to development of the new point of diversion, the permittee shall submit, to the Oregon Water Resources Department, a Riparian Mitigation Plan approved in writing by ODFW unless ODFW provides documentation that riparian mitigation is not necessary. The permittee shall maintain the riparian area for the life of the permit and subsequent certificate per the approved Riparian Mitigation Plan. If ODFW determines the riparian area is not being maintained, and is unsuccessful in working with the water user to fulfill the obligation, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the mitigation is sufficient. The permittee is hereby directed to contact the local ODFW Fish Biologist prior to development of the new point of diversion.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

- e. Construction must occur during the established in-water work period (June 15 to September 15) unless otherwise approved by ODFW.
- f. Site-specific condition(s): Riparian plantings in Mitigation Action 4 must be maintained to ensure a minimum 80% survival five years post-implementation.

Copies of the OWRD's Preliminary Determination proposing approval of the transfer and ODFW's recommendations are available for viewing at the Salem office of the Water Resources Department. Any person may review the recommendation and submit written comments or may submit a written request for a public meeting to review the recommendation. The comments or request for a meeting must be received by OWRD on or before July 30, 2020.

OWRD will provide copies of any comments submitted in response to this notice to ODFW. If a meeting is requested, OWRD will schedule a joint public meeting with ODFW to review the recommendation.

To review the recommendation, contact Corey Courchane at 503-986-0825 or e-mail corey.a.courchane@oregon.gov.

Written comments and requests for a public meeting should be mailed to Attn: Corey Courchane, Water Resources Department, 725 Summer St NE, Suite A, Salem, OR 97301-1266 or faxed to 503-986-0901.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

Water Management and Conservation Plan Progress Reports

Pursuant to OAR 690-086-0120(4) and (5), the Department is required to give notice of progress reports on Water Management and Conservation Plans.

Any person may review and comment on these progress reports. The Department requests that comments be submitted no later than 30 days after the date of this notice.

Progress reports have been submitted by the following municipal supplier(s):

City of Veneta (Municipal)

To review any of the above progress report(s) or to provide comments on the progress report(s), contact Kerri H. Cope at 503-986-0919 or Kerri.H.Cope@oregon.gov.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.
