PUBLIC NOTICE OF WATER USE REQUESTS
December 14, 2021

*This notice is also available on our web page at the following address:
http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Alternate Reservoir Applications (ORS 537.409)**
Applications for storage permits for small ponds filed under a simplified review process.
- * **Expedited Secondary Applications to Use Stored Water**
Applications to use stored water exclusively, filed under a simplified review process.
- * **Application for Instream Lease**
Application by water right holder to lease existing water rights to instream use.
- * **Transfer Applications: Regular**
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.
- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.
- * **Transfer Applications: Permit Amendments**
Requests to amend permits.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

* **HE 619 PacifiCorp Hydroelectric Project**

The Public Notice is published each week on the Department's web site at www.oregon.gov/OWRD. If you would like to receive a *free* weekly notification when it is published, please send your request to Julie.C.Baustain@oregon.gov.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

Initial Review and Proposed Final Orders

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

Initial Review Stage (IR)

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, January 13, 2022. Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

Proposed Final Order Stage (PFO)

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying \$35 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, January 28, 2022.

The protest filing fee is \$480 for the applicants and \$950 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$270 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$680 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

Alternate Reservoir Applications (ORS 537.409)

For alternate reservoir applications filed under ORS 537.409, the public is invited to comment within 60 days of this notice. The law provides that within 60 days after the Department provides public notice of the application, any person may submit detailed, legally obtained information in writing, requesting the Department to deny the application for a permit on the basis that the reservoir:

- (A) Would result in injury to an existing water right; or
- (B) Would pose a significant detrimental impact to existing fishery resources as determined on the basis of information submitted by the State Department of Fish and Wildlife.

Such comments must be submitted on or before February 12, 2022.

Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **January 13, 2022**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the rediversion point(s).

Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is January 04, 2022. Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before January 13, 2022. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream, historic POD, exchange, substitution or ground water registration modification).

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3) and OAR 690-382-0900, protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$950 protest fee for non-applicant and \$480.00 protest fee for applicant. Call (503) 986-0815 to obtain additional information. Protests must be received by the Department on or before January 13, 2022, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

Application for Preliminary Permit
PacifiCorp's
Chewaucan River and Crooked Creek
Hydroelectric Pumped Storage Projects

Lake County

Comments on this application for preliminary permit for new pumped storage hydroelectric projects are requested from interested citizens, organizations, governmental entities, and other parties. Comments are requested on whether the impacts of these projects are such that they might be cumulative with other proposed or existing hydroelectric projects in the Goose and Summer Lakes basin. Requests for additional studies related to project impacts may also be submitted.

The application and supporting documents may be viewed

<http://filepickup.wrd.state.or.us/files/Uploads/PacifiCorp%20Pumped%20Storage%20Project/>

The project is also filed with the Federal Energy Regulatory Commission (FERC) as dockets p-15239 and 15246

A public hearing will be scheduled in Lake County for this Project upon receipt of a draft study plan for the project consistent with OAR 690-051-0095(1)(c)(A-J).

PacifiCorp's application for a preliminary permit for a major hydroelectric project in Lake County.

Application #: HE 619
Applicant: PacifiCorp
Address: 825 NE Multnomah, Suite 1700, Portland, OR 97232
Amount of water: A maximum of 20 cubic feet per second from the Chewaucan River and Crooked Creek combined flow will be used for the initial reservoir fill of 4700 acre-feet for the Winter Ridge Project and 2900 acre-feet for the Crooked Creek Project. Annually 830 acre-feet will be used to replace losses due to leakage and evaporation for the Winter Ridge Project and 600 acre-feet for the Crooked Creek Project.
Purpose: Hydroelectric pumped storage power production
Winter Ridge Development: Proposed upper reservoir location in Section 5 of Township 32 South, Range 16 East, W.M. PacifiCorp is currently studying two proposed lower reservoir locations. One is in Section 3 of Township 32 South, Range 16 East, W.M. and the other spans portions of Section 35 of Township 31 South, Range 16 East, and Section 2 of Township 32 South, Range 16 East, W.M.
Plant Capacity: The gross head is expected to be between 2,340 feet and 2,810 feet with the maximum amount of water to be used by the turbines estimated to be 2,610 cfs and 3,154 cfs. Between 838,667 THP and 833,420 THP will be produced depending on where the lower reservoir is located.
Crooked Creek Development: Proposed upper reservoir location in Township 36 South, Range 21 East, Section 14, W.M. The lower reservoir for the Crooked Creek development will be in Township 36 South, Range 21 East, Sections 20 and 21.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

Plant Capacity at the Crooked Creek Development: the gross head is expected to be approximately 2,090 feet with a maximum amount of water to be passed through the turbine being 3,530 cfs, resulting in approximately 838,357 THP.

Points of Diversion: The points of diversion from the Chewaucan River will be located, if practicable, utilizing existing diversions and natural features in the reach from the town of Paisley, Oregon (42°41'44.86"N, 120°32'46.07"W) to the mouth of Lake Abert (42°30'56.88"N, 120°15'11.54"W). One key point of diversion being considered for the Winter Ridge development, is the Chewaucan River at the existing diversion and fish ladder structure located one mile east and downstream of the Paisley Highway 31 bridge located at 42°42'2.58"N, 120°31'48.34"W (Township 33 South, Range 19 East, Section 19, NW ¼NW ¼). At this location 1,270 acre-feet would be withdrawn for construction, followed by 4,700 acre-feet for filling and 830 acre-feet annually for evaporation and leakage. The maximum rate of flow to be diverted from the Chewaucan River for use at the Winter Ridge development would be 20.0 cfs. For the Crooked Creek development, it is anticipated water will be diverted from the Chewaucan River 18 miles further downstream near the point Highway 31 crosses the Chewaucan River (42°32'28.41"N, 120°17'49.49"W); Township 35 South, Range 20 East, Section 13, NE ¼ NE ¼. In addition, for the Crooked Creek development, make-up water would be withdrawn from Crooked Creek at a point approximately one mile West of the lower reservoir (42°26'8.63"N, 120°16'37.57"W); Township 36 South, Range 21 East, Section 20, SW ¼ NW ¼. Diversion from the Chewaucan River of 1,100 acre-feet would be for construction purposes, followed by 2,900 acre-feet for filling and 600 acre-feet annually for evaporation and leakage. The maximum rate of flow to be diverted from the Chewaucan River for use at the Crooked Creek development would be 20.0 cfs.
