

# OREGON WATER RESOURCES DEPARTMENT

725 Summer Street NE Suite A  
Salem OR 97301

PUBLIC NOTICE OF WATER USE REQUESTS  
March 29, 2022

*This notice is also available on our web page at the following address:  
[http://apps.wrd.state.or.us/apps/misc/wrd\\_notice\\_view/?notice\\_id=21](http://apps.wrd.state.or.us/apps/misc/wrd_notice_view/?notice_id=21)*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- \* **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**  
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- \* **Expedited Secondary Applications to Use Stored Water**  
Applications to use stored water exclusively, filed under a simplified review process.
- \* **Establishment of Mitigation Credits in the Deschutes Basin pursuant to OAR Chapter 690, Division 521 (ORS 537.746)**
- \* **Applications for Extensions of Time to Perfect Water Right Permits**  
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- \* **Applications for Limited Licenses**  
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- \* **Application for Instream Lease**  
Application by water right holder to lease existing water rights to instream use.
- \* **Transfer Applications: Regular**  
Requests to change point of diversion or appropriation, place of use, or character of use upon which the public may comment. The changes may be proposed in an application for a transfer (including instream or historic POD), an exchange, or a substitution.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

- \* **Transfer Notice: District Permanent Transfers for Place of Use- ORS 540.580(4)**  
District notices filed for place of use changes within a district's boundary.
- \* **Certificate Issuance**  
Included in this section is a listing of recently issued water right certificates.
- \* **Hydro Project Eligible for Conversion Instream**

The Public Notice is published each week on the Department's web site at [www.oregon.gov/OWRD](http://www.oregon.gov/OWRD). If you would like to receive a **free** weekly notification when it is published, please send your request to [Julie.C.Baustian@water.oregon.gov](mailto:Julie.C.Baustian@water.oregon.gov)

**IMPORTANT:** Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

## How to Read the Listing

**App#:**

- G: Groundwater
- R: Reservoir
- S: Surface water
- I: Instream
- T: Transfer
- LL: Limited License

**County/Basin** (See Map)

**Applicant Name**

**Applicant Address**

**Sources/TRSQ40Q160**

**Use/Quantity**

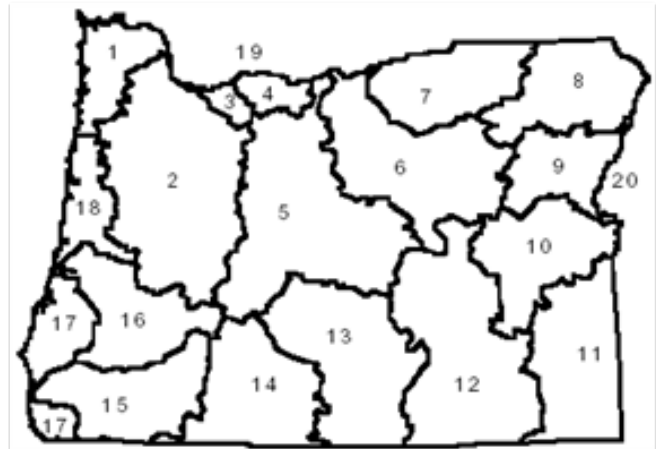

Unit of measure:

- CFS: Cubic feet per second
- GPM: Gallons per minute
- AF: Acre-feet

**Priority Date**

**Stage/Status**

- IR: Initial Review
- PFO: Proposed Final Order

BASINS:		
1. North Coast	8. Grande Ronde	15. Rogue
2. Willamette	9. Powder	16. Umpqua
3. Sandy	10. Malheur	17. S. Coast
4. Hood	11. Owyhee	18. Mid-Coast
5. Deschutes	12. Malheur L.	19. Columbia
6. John Day	13. Goose/Summer L.	20. Snake
7. Umatilla	14. Klamath	

**Commonly used “Type of Use” abbreviations (for definitions, consult Oregon Administrative Rules 690-300):**

AG: Agriculture	GR: Groundwater recharge	MU: Municipal
CR: Cranberry uses	GT: Geothermal	NU: Nursery use
CM: Commercial	ID: Irrigation with domestic	PA: Pollution abatement
DI, DN: Domestic including non-commercial lawn & garden	IL: Irrigation with livestock	PW: Power
DO: Domestic	IM: Industrial or manufacturing	QM: Quasi-municipal
DS: Domestic & stock	IR: Irrigation	RC: Recreation
FI: Fish	IS: Irrigation, supplemental	RW: Road construction
FP: Fire protection	LV: Livestock	TC: Temperature control
FW: Fish & wildlife	LW: Livestock & wildlife	WI: Wildlife
GD: Group domestic	MI: Mining	

**IMPORTANT:** Due to COVID-19, the Department’s office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

## **Initial Review and Proposed Final Orders**

The following pages of this notice list permit applications that the Department is evaluating for compliance with state water law. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (Basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules.

### **Initial Review Stage (IR)**

The Department has given the applicant an initial review of water-use restrictions, water availability and other limitations that affect the agency's decision on whether to issue a permit. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use. **The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, April 28, 2022.** Although we cannot respond individually to all comments, each will be considered as the agency makes its decision regarding proposed allocations.

### **Proposed Final Order Stage (PFO)**

The proposed final order is the Department's penultimate decision on the water use request. The PFO documents the agency's decision through specific findings, including review of comments received. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying \$35 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed free of charge online at: <http://apps.wrd.state.or.us/apps/wr/wrinfo/>. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

**The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, May 13, 2022.**

The protest filing fee is \$480 for the applicants and \$950 for non-applicants. Detailed requirements for filing a protest are included in the PFO. Persons who support the PFO may file a "standing" fee of \$270 to retain the ability to participate in future proceedings relating to an application. Before participation in a hearing is allowed, an additional \$680 will be required to request to participate as a party or limited party.

If a protest or comment deadline falls on a day that the office is closed, then the next open business day automatically becomes the deadline date.

**IMPORTANT:** Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

## Expedited Secondary Applications Under HB 2178 (2005)

For expedited secondary applications to use exclusively stored water filed under HB 2178, the public is invited to comment within 30 days of this notice, by **April 28, 2022**. The expedited secondary applications listed below have been filed recently. Any person may raise public interest issues regarding these applications. If public interest issues are raised, the Department may move the application to the standard process and review the application pursuant to ORS 537.153, and issue a Proposed Final Order. If no public issues are raised, the Department may issue a final order and permit without further prior notice.

Comments must identify the specific public interest under ORS 537.170(8) that would be impaired or detrimentally affected by the proposed use, and specifically how the identified public interest would be affected.

POD 1 is the location of the stored water. POD 2 and any additional points are the rediversion point(s).

## Establishment of Mitigation Credits in the Deschutes Basin

ORS 537.746 authorizes the Department to award mitigation credits in the Deschutes Basin to approved mitigation projects. Mitigation credits may be used in the Deschutes Basin, specifically the Deschutes Ground Water Study Area, to mitigate for the impacts of ground water use on surface water flows. Pursuant to OAR Chapter 690, Division 521, upon receipt of notification of a mitigation project, the Department shall give public notice of the intent to establish mitigation credits.

The public is invited to comment on establishment of mitigation credits for the project(s) described below. Comments must be received within 21 days of the date of this public notice. Comments should address the award of mitigation credits to the proposed project and its use for mitigation purposes. Included in this public notice is a preliminary determination as to the amount of mitigation credits that may be available from the proposed project.

Deschutes County  
Mitigation Project #: **MP-284**  
Project Applicant: Deschutes River Conservancy Mitigation Bank and Central Oregon Irrigation District on behalf of multiple landowners

Mitigation Project  
And Process: Instream Lease Application IL-1911 which is included in this March 29, 2022 public notice  
Subbasin/Source: Middle Deschutes subbasin - Deschutes River tributary to the Columbia River  
Amount of Water: up to 1.843 Cubic Foot per Second and 828.52 Acre-Feet  
Current Use: Irrigation of 84.51 acres  
Credits Assigned to: Deschutes River Conservancy Mitigation Bank  
Preliminary Mitigation  
Credit Determination: 152.1 mitigation credits that may be available for use in the Middle Deschutes and/or General Zones of Impact  
Contact: Sarah Henderson (503) 979-9872

Deschutes County  
Mitigation Project #: **MP-285**  
Project Applicant: Deschutes River Conservancy Mitigation Bank and Central Oregon Irrigation District on behalf of multiple landowners

Mitigation Project  
And Process: Instream Lease Application IL-1912 which is included in this March 29, 2022 public notice  
Subbasin/Source: Middle Deschutes subbasin - Deschutes River tributary to the Columbia River  
Amount of Water: up to 0.593 Cubic Foot per Second and 263.69 Acre-Feet  
Current Use: Irrigation of 27.96 acres  
Credits Assigned to: Deschutes River Conservancy Mitigation Bank  
Preliminary Mitigation  
Credit Determination: 27.96 mitigation credits that may be available for use in the Middle Deschutes and/or General Zones of Impact  
Contact: Sarah Henderson (503) 979-9872

**IMPORTANT:** Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

Deschutes County  
Mitigation Project #: **MP-286**  
Project Applicant: Deschutes River Conservancy Mitigation Bank and Central Oregon Irrigation District on behalf of multiple landowners  
Mitigation Project  
And Process: Instream Lease Application IL-1915 which is included in this March 29, 2022 public notice  
Subbasin/Source: Middle Deschutes subbasin - Deschutes River tributary to the Columbia River  
Amount of Water: up to 0.468 Cubic Foot per Second and 210.29 Acre-Feet from POD 1  
up to 2.126 Cubic Foot per Second and 944.88 Acre-Feet from POD 11  
Current Use: Irrigation of 21.45 acres from POD 1  
Irrigation of 100.19 acres from POD 11  
Credits Assigned to: Deschutes River Conservancy Mitigation Bank  
Preliminary Mitigation  
Credit Determination: 219.0 mitigation credits that may be available for use in the Middle Deschutes and/or General Zones of Impact  
Contact: Sarah Henderson (503) 979-9872

**IMPORTANT:** Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

**Applications for Extensions of Time  
to Perfect Water Right Permits filed pursuant to OAR 690-315**

**Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until April 28, 2022.** Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and \$35 (the charge required by law). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self-copied. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person.

## **Proposed Final Orders Regarding Applications for Extensions of Time for Water Right Permits**

ORS 537.230, 537.248, 537.630 and 539.010 authorize the Water Resources Department to extend time limits contained in water right permits for completing construction of water development projects and applying water to full beneficial use. Procedures for permit holders to apply for extensions and for the Department to evaluate and determine whether or not to approve extensions of time are contained in OAR 690-320-0010 for extensions filed before July 1, 2001, and in OAR 690-315-0010 for extensions filed on or after July 1, 2001.

Proposed Final Orders (PFO's) are the Department's preliminary decision on extension requests. They document the agency's decision through specific findings. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$35. (Any person paying to receive a PFO by mail will also receive a copy of the Final Order when it is issued). PFO's may be viewed for free at the Department's Salem Office or at the appropriate watermaster district office.

### **Extension of Time Public Notice and Comment Procedures**

**Written comments on or written protests against a PFO must be submitted on or before May 13, 2022.** There is no fee for submission of comments. The protest filing fee is \$480 for the applicant and \$950 for non-applicants. Detailed requirements for filing a protest will be sent with copies of the PFO.

## Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licensees must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after April 12, 2022, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest. If the applicant applies for a use that is not one of the standard uses listed in OAR 690-300, the Department may, for the purposes of this notice, assign a named use that is reasonably close to the use actually requested. The public may examine the actual application by clicking the associated hyperlink and then choosing "LL Application" under "Scanned Documents."

**IMPORTANT:** Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.

## Applications for Instream Lease

ORS 537.348 authorizes a water right holder to lease their existing water right(s) to instream use for a limited time. For the term of the lease, the water right holder agrees to suspend use of water under the original right. The state is the trustee for water rights leased for instream use. OAR 690-077-0077 requires that the Department public notice the lease applications.

**The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a lease application is April 19, 2022.** Parties to the lease, including the Department, will review any such claims before the lease is finalized. The lease files are available for viewing at the Salem office of the Water Resources Department. If you have questions or comments please contact the Lease Specialist at 503-986-0898.

## Transfer Applications: Regular

The holder of a water right may apply to permanently change an existing water use subject to transfer as defined in ORS 540.505(4). An application may involve any of the following changes: Point of diversion or appropriation; Additional point of diversion or appropriation; Historic POD; Place of use; Character of use; Instream; Substitution; or Exchange.

The Department seeks public comment on the recently-filed transfer applications listed below. Any person may comment on a transfer application. Comments must be received by the Department on or before April 28, 2022. Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time.

## **Notice of District Permanent Transfer for Place of Use**

A district may allow a change in place of use prior to the Department issuing a final order approving a district permanent transfer application provided, in part, that (1) the District files a notice with the Department of the change in place of use prior to making the change, and (2) prior to the end of the calendar year in which the change in place of use occurs the District submits a district permanent transfer application for the same change in place of use [ORS 690-385-4100(1)(a) and (b)]. Notices for District Permanent Transfers for Place of Use submitted to the Department are listed below.

## **Notice of Consideration for Conversion of a Hydroelectric Water Right to an Instream Water Right**

This process is governed by ORS 543A.305.

Water Right Certificate 4120 in the name of Eastern Oregon Light & Power Company confirmed the right to the use of 13 cubic feet per second (cfs) of the waters of ROCK CREEK, tributary to POWDER RIVER in Baker County, Oregon for the purpose of Power. The priority date of this right is APRIL 11, 1902. The original point of diversion was the Chase Mill Ditch located in the SW ¼ SW ¼ Section 5, Township 8 South, Range 38 East, W. M.

Water Right Certificate 4120 is eligible for conversion to an instream water right based on the criteria in ORS 543A.305 that use of water under the hydroelectric water right has ceased for a period of more than 5 years.

The Director makes a preliminary finding that the full amount of the water right up to 13 cfs is eligible for conversion. According to the records of the Department, no part of the water right has been transferred under ORS 540.520 or 540.530. During the time of hydroelectric use, all of the water was used exclusively for hydroelectric purposes, no part of the right was used in conjunction with another water right, nor in conjunction with multi-purposes dam releases.

The Director makes the following preliminary findings on the potential for injury and whether mitigation measures may be necessary to avoid injury and to ensure the continuation of other authorized water rights as of October 23, 1999.

Concerning actual use of the project: the hydroelectric project actually used 13 cfs of water in all months of the year from 1902 through 1995 based on annual claimant form of power production on file with the Department; stream gage records from Station 13281200 on Rock Creek near Haines, Oregon (June 1976 through March 31, 1995); physical evidence of the historic powerhouse, and documentation in <https://www.loc.gov/pictures/collection/hh/item/or0496/>

Concerning the resulting impacts of the proposed conversion on actual use by other existing water rights as of October 23, 1999: the Department has records of water right certificates that are junior to April 11, 1902 and are upstream of the original point of diversion. Historically, the upstream water rights have not been regulated under OAR 690-250 to provide water to this right. The junior water rights may be subject to regulation if the hydroelectric right is converted to an instream right. The hydroelectric right has not been subordinated to any other water rights.

<p><b>IMPORTANT:</b> Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified.</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The Department requests comments from interested citizens, organizations, tribal and governmental entities, and other parties on this proposed conversion action. There is a 30-day comment period for any interested person to propose mitigation measures as conditions of the instream water right to avoid injury and to ensure the continuation of authorized water uses by other existing water rights as of October 23, 1999. Comments, questions, or requests to be included on future notices and to receive a copy of the proposed final order must be received at the Department by 5:00 PM on **Thursday, April 28, 2022**.

After the comment period has closed, the Department will consider whether mitigation measures to avoid injury and to ensure the continuation of authorized water uses may be included as conditions to the instream water right. Mitigation measures proposed during the comment period will be shared with other interested persons who responded during the comment period. The Department may meet and confer with those interested persons and may extend the comment period to allow discussion if interested persons demonstrate reasonable progress towards agreement on mitigation measures.

The Director shall determine whether the conversion, together with any recommended mitigation measures to avoid injury and to ensure the continuation of authorized water uses, is consistent with ORS 543A.305 and shall issue a proposed final order to either approve or deny the conversion. The proposed final order will include information that a 60-day period shall be provided to file protests or requests for standing.
