File Original and First Copy with the STATE ENGINEER, SALEM, OREGON

(1) OWNER: % Mt. Hood Golf Club  
 Name D. & R. Development Co.  
 Address Welches, Oregon

(2) LOCATION OF WELL:  
 County Clackamas Owner's number, if any—  
SW ¼ SW ¼ Section 4 T. 3S R. 7E W.M.  
 Bearing and distance from section or subdivision corner

(3) TYPE OF WORK (check):  
 New Well  Deepening  Reconditioning  Abandon   
 Abandonment, describe material and procedure in Item 11.

(4) PROPOSED USE (check):  
 Domestic  Industrial  Municipal   
 Irrigation  Test Well  Other

(5) TYPE OF WELL:  
 Rotary  Driven   
 Cable  Jetted   
 Dug  Bored

(6) CASING INSTALLED: Threaded  Welded   
10 " Diam. from 0 ft. to 157'-11" ft. Gage Std.                     
                   " Diam. from                    ft. to                    ft. Gage                     
                   " Diam. from                    ft. to                    ft. Gage                   

(7) PERFORATIONS: Perforated?  Yes  No  
 Type of perforator used Mills Knife  
 SIZE of perforations ¼ in. by 2 in.  
175 perforations from 81 ft. to 135 ft.  
                   perforations from                    ft. to                    ft.  
                   perforations from                    ft. to                    ft.  
                   perforations from                    ft. to                    ft.  
                   perforations from                    ft. to                    ft.

(8) SCREENS: Well screen installed  Yes  No  
 Manufacturer's Name                     
                   Model No.                     
                   Slot size                    Set from                    ft. to                    ft.  
 Diam.                    Slot size                    Set from                    ft. to                    ft.

(9) CONSTRUCTION:  
 Was well gravel packed?  Yes  No Size of gravel:                     
 Gravel placed from                    ft. to                    ft.  
 Was a surface seal provided?  Yes  No To what depth?                    ft.  
 Material used in seal—  
                    
 Did any strata contain unusable water?  Yes  No  
 Type of water?                    Depth of strata                     
 Method of sealing strata off                   

(10) WATER LEVELS:  
 Static level 20 ft. below land surface Date 4/3/61  
 Artesian pressure                    lbs. per square inch Date                   

Log Accepted by:  
 [Signed] Keith C. Steinman Date                   , 19                    
 (Owner) D. & R. Development Co.

(11) WELL TESTS: Drawdown is amount water level is lowered below static level.  
 Was a pump test made?  Yes  No If yes, by whom? Pipe and Power Co.  
 Yield: 165 gal./min. with 75 ft. drawdown after 10 hrs.  
                   " " " " " "  
                   " " " " " "  
 Bailer test gal./min. with                    ft. drawdown after                    hrs.  
 Artesian flow                    g.p.m. Date                     
 Temperature of water 45 Was a chemical analysis made?  Yes  No

(12) WELL LOG: Diameter of well 10 inches.  
 Depth drilled 165 ft. Depth of completed well 165 ft.  
 Formation: Describe by color, character, size of material and structure, and show thickness of aquifers and the kind and nature of the material in each stratum penetrated, with at least one entry for each change of formation.

MATERIAL	FROM	TO
Light brown clay and broken rock	0	70
Decomposed sand and gravel	70	92
Cement gravel	92	103
Brown clay and broken rock	103	115
Fine gravel (water)	115	120
Brown clay and broken rock	120	152
Boulders	152	157
Grey solid rock	157	165

Work started 2/20/61 19                   Completed 4/3/61 19                  

(13) PUMP:  
 Manufacturer's Name                     
 Type:                    H.P.

**To:** ASHLEY Ladeena K \* WRD  
**Subject:** Well CLAC 1850 Quarter-Quarter Description Correction

Dear Ms. Ashley:

Thank you for speaking with me yesterday about the location correction for Well CLAC 1850. You created a version 2 entry in the well log database to correct the location for Well CLAC 1850 from T3S, R7E, Section 4, SWSW to T3S, R7E, Section 4 SENW to reflect the groundwater info for the well. Would you kindly append the well log with this email to provide a record of the change? The Department has taken similar steps in the past in working with our office to correct errors in well logs (see LAKE 3030).

Thank you for your assistance with this matter.

Sincerely,  
Tara
