This log was created to separate well 28 R(1) from HARN 1092, which was filed to represent three wells on app. G-305-28 R(1), 270(1), and 270(1).			
From app. file G-305: well #1, unused, 32" borehole with 30" steel casing on app. and permit map, but not moved to cert 76794.			
From transfer file T-8205, this well shows as well #3 on transfer app. map, but well #3 is later referred to as HARN 51259 on Claim of Beneficial Use checklist filed 2/18/2014. HARN 51259 was drilled after the application was filed, in 2006 and it is not clear when the wells were switched on the transfer.			

Date started _____ Completed May 1952
