<u>This record represents well 2 on application G-11985, permit G-11306. There was not enough information in the water right file to correlate to a well log, although this owner has several wells in the area. All four wells on this permit were supposedly drilled by Jannsen Drilling Company prior to the application being filed (1/19/1989). The water right application review (5/22/1991) suggests that these wells likely draw from a sand and gravel alluvial aquifer.</u>		
<u>Pump: 2 1/2 HP @ 2-24 gpm, depth 120 ft (2/6/1995)</u>
